"For a Witch Cannot Cross Such a Threshold!" Sonja Hukantaival,2016 Why did people in the past hide animal bones and other objects in the structures of their buildings? This study discusses building concealment practices and the worldview where they were meaningful in the light of archaeological finds and folklore accounts. Moreover, the book introduces a means for studying historical folk religion as part of the archaeology of religion.

Land & EU Accession Johan F. M. Swinnen,Liesbet Vranken,2009 Efficient land transactions and a functioning land market play an important role in economic development and growth. Yet, during the negotiations for their accession to the European Union in 2004, candidate countries requested the possibility to maintain restrictions on the acquisition of agricultural land and forests by foreigners for a certain period of time. Among other reasons, they considered the restrictions necessary to protect their agricultural sectors from shocks that might arise from the differences in land prices and incomes with the rest of the EU. This study reviews these transitional measures and the evolution of the agricultural sector in seven new member states, drawing conclusions about the impact of the restrictions and the necessity of maintaining them today. --Book Jacket.

Alfred Kubin Alfred Kubin,2008 Kubin is irrefutably one of the most original talents of his generation. Whether painting directly from his hallucinatory visions or illustrating the works of such literary giants as Balzac, Poe, Dostoevsky, and Gogol, Kubin eschewed the decorative artistry of earlier Austrian art. Instead, he was drawn to life's dark undertones, represented in his work through his morbid subject matter and frenetic style. Filled with horrific yet fully realized imaginings that were eerily prescient of the era to come, this volume is certain to introduce Kubin to a wider audience perhaps to an entire generation who see in art a way to contend with the upheaval and tribulation of their own time.

The Cambridge Encyclopedia of Hunters and Gatherers Richard B. Lee,Richard Heywood Daly,Richard Daly,1999-12-16 Hunting and gathering is humanity's first and most successful adaptation. Until 12,000 years ago, all humanity lived this way. Surprisingly, in an increasingly urbanized and technological world dozens of hunting and gathering societies have persisted and thrive worldwide, resilient in the face of change, their ancient ways now combined with the trappings of modernity. The Encyclopedia is divided into three parts. The first contains case studies, by leading experts, of over fifty hunting and gathering peoples, in seven major world regions. There is a general introduction and an archaeological overview for each region. Part II contains thematic essays on prehistory, social life, gender, music and art, health, religion, and indigenous knowledge. The final part surveys the complex histories of hunter-gatherers' encounters with colonialism and the state, and their ongoing struggles for dignity and human rights as part of the worldwide movement of indigenous peoples.

Europa Vasconica - Europa Semitica Theo Vennemann gen. Nierfeld,2011-07-20 This book presents the theory that the linguistic and cultural landscape of Europe north of the Alps and the Pyrenees was shaped in prehistoric times by the interaction of Indo-European speakers with speakers of languages related to Basque and to Semitic. These influences on the lexicon, grammar, and toponymy of the West Indo-European languages (with special focus on Germanic) are demonstrated in German and English research papers, provided here with summaries, commentaries, and a new introduction in English, and with general and etymological indexes.

Zen Teaching of Homeless Kodo Kosho Uchiyama Roshi,2014-11-04 Abandon your treasured delusions and hit the road with one of the most important Zen masters of twentieth-century Japan. Eschewing the entrapments of vanity, power, and money, Homeless Kodo Sawaki Roshi refused to accept a permanent position as a temple abbot, despite repeated offers. Instead, he lived a traveling, homeless life, going from temple to temple, student to student, teaching and instructing and never allowing himself to stray from his chosen path. He is responsible for making Soto Zen available to the common people outside of monasteries. His teachings are short, sharp, and powerful. Always clear, often funny, and sometimes uncomfortably close to home, they jolt us into awakening. Kosho Uchiyama expands and explains his teacher's wisdom with his commentary. Trained in Western philosophy, he draws parallels between Zen teachings and the Bible, Descartes, and Pascal. Shohaku Okumura has also added his own commentary, grounding his teachers' power and sagacity for the contemporary, Western practitioner. Experience the timeless, practical wisdom of three generations of Zen masters.

Peripheralization Matthias Naumann,Andrea Fischer-Tahir,2013-01-12 Peripheries emerge as a result of shifts in economic and political decision-making at various scales. Therefore peripheral spaces are not a “natural” phenomenon but an outcome of the intrinsic logic of uneven geographical development in capitalist societies. Discussing examples from Germany, Eastern Europe, Turkey, Iraqi Kurdistan, Pakistan, India and Brazil, the volume describes the social production of peripheries from different theoretical and methodological perspectives. In so doing, it argues in favour of a re-politicization of the recent debate on peripheralization.
