Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Nanoscale Quantum Materials Tapash Chakraborty,2021-08-01 In the past four decades, there has been growing interest in the exciting new topic of physics in low dimensions. Thousands of original ideas have been proposed in the literature, and some are confirmed experimentally, along with several Nobel prizes which have been awarded in this field. While there are several books available, almost all are technical and accessible only to expert researchers. This book provides an accessible introduction to the field, with less emphasis on technical details. Whilst this book does not provide a traditional history of nano-science, instead it uses simple explanations and case studies as vehicles to explain key discoveries and the importance of them, enabling readers without a background in the area to gain an understanding of some aspects of nanoscale physics. It will be of interest to researchers working in condensed matter physics, in addition to engineers and advanced students in those disciplines. It also remains accessible to

'physics enthusiasts' from other academic disciplines, as technical details are contained within boxes and footnotes which can be skipped for a general reading of the book.

Features: - Provides an accessible introduction to a technical subject - Contains exciting developments from the cutting-edge science being conducted in the area - Authored by a recognised expert in the field

The Lehman Brothers Bankruptcy Gary E. Walker, Lindel D. Clarke, 2012 The bankruptcy filing of Lehman Brothers Holdings Inc (LBHI) on 15 September 2008, was one of the signal events of the financial crisis. The disorderly and costly nature of the LBHI bankruptcy - the largest, and still ongoing, financial bankruptcy in U.S. history - contributed to the massive financial disruption of late 2008. This book examines how the government could have structured a resolution of Lehman under the orderly liquidation authority of Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) and how the outcome could have differed from the outcome under bankruptcy. Key figures surrounding this important financial event also provide their analysis.

Many a times these books just end up being decoration in their book shelves ... All the authors of this book are from IITs & IISc and after joining the industry realized gap between university education and the practical FEA. Over the years they learned it via interaction with experts from international community, sharing experience with each other and hard route of trial & error method. Lorraine is convinced that Arthur sent the present to Judy so that Judy would know he still cares about her. Judy is certain that Arthur did not send the mirror, but who did? Even stranger is the note that came with the mirror stating ... which perhaps unwittingly, Birdie's little winglike fingers marked especially for me. A mysterious image of a bird had appeared on the mirror in the Bolton house shortly before it broke. But who put the image on the mirror? Can there be a connection to the young girl named Birdella

who lives across the street? Birdella's mother and father are fighting for her custody in court. Judy suspects that there is much more to this case than meets the eye and that some unknown person is the one who sent the mirror as a present.--
