McGraw-Hill's Dictionary of American Slang and Colloquial Expressions Richard A.

Spears, 2005-10-14 More bling for the buck! The #1 guide to American slang is now bigger, more up-to-date, and easier to use This new edition of McGraw-Hill's Dictionary of American Slang and Colloquial Expressions offers complete definitions of more than 12,000 slang and informal expressions from various sources, ranging from golden oldies such as . . . golden oldie, to recent coinages like shizzle (gangsta), jonx (Wall Street), and ping (the Internet). Each entry is followed by examples illustrating how an expression is used in everyday conversation and, where necessary, International Phonetic Alphabet pronunciations are given, as well as cautionary notes for crude, inflammatory, or taboo expressions. This edition also features a fascinating introduction on "What is Slang?," a Thematic Index that cross-references expressions by standard terms--such as Angry, Drunk, Food, Good-bye, Mess-up, Money, and Stupidity--and a Hidden Word Index that lets you identify and locate even partially remembered expressions and phrases.

Restoring the Shattered Nancy E. Head, 2018-10-02 Written in an easy-to-understand, conversational style, *Restoring the Shattered* is an account of Nancy E. Head's journey through single-motherhood and poverty. The permanent divide between her and her husband led to a shattering of their family as the children settled into separate camps. The story begins when Nancy and her children have little to eat. Through a miraculous intervention, God provides—and leads them along their way. Other interventions and more guidance came from people of different denominations, illustrating Christ's love through the larger Church. When one of Nancy's grown children became Catholic, she became more aware of the ways her own evangelical tradition often dismisses Catholic believers and misinterprets many of their doctrines. While doctrines may differ,

so many essential beliefs are the same. Restoring the Shattered looks at the causes of the Reformation and other schisms, and how the original schism in Christianity happened because of a mistranslation. Misunderstanding others' faith languages feeds so much separation today. Nancy encourages pursuing accord among evangelical, Catholic, and Christian Orthodox communities in order to lead the Church to the kind of ministry that helped Nancy's family so much and rebuild the ruins of society through obedience to Christ's call for Christian accord.

Mind the Screen Jaap Kooijman, Patricia Pisters, Wanda Strauven, 2008 Mind the Screen pays tribute to the work of the pioneering European film scholar Thomas Elsaesser, author of several volumes on media studies and cinema culture. Covering a full scope of issues arising from the

author's work—from melodrama and mediated memory to avant-garde practices, media archaeology, and the audiovisual archive—this collection elaborates and expands on Elsaesser's original ideas along the topical lines of cinephilia, the historical imaginary, the contemporary European cinematic experience, YouTube, and images of terrorism and double occupancy, among other topics.

Contributions from well-known artists and scholars such as Mieke Bal and Warren Buckland explore a range of media concepts and provide a mirror for the multi-faceted types of screens active in Elsaesser's work, including the television set, video installation, the digital interface, the mobile phone display, and of course, the hallowed silver screen of our contemporary film culture.

The Mind-Game Film Thomas Elsaesser,2021-03-28 This book represents the culmination of

Thomas Elsaesser's intense and passionate thinking about the Hollywood mind-game film from the previous two decades. In order to answer what the mind-game film is, why they exist, and how they function, Elsaesser maps the industrial-institutional challenges and constraints facing Hollywood, and the broader philosophic horizon within which American cinema thrives today. He demonstrates how the 'Persistence of Hollywood' continues as it has adapted to include new twists and turns, as well as revisions of past concerns, as film moves through the 21st century. Through examples such as *Minority Report*, *Mulholland Drive*, *Source Code*, and *Back to the Future*, Elsaesser explores how mind-game films challenge us and play games with our perception of reality, creating skepticism and (self-) doubt. He also highlights the mind-game film's tendency to intervene in a complex fashion in the political moment by questioning the dominant power's intent to program both body and mind alike. Prescient and compelling, *The Mind-Game Film* will appeal to students, scholars, and enthusiasts of media studies, film studies, philosophy, and politics.

Transtopia in the Sinophone Pacific Howard Chiang, 2021-04-06 As a broad category of identity, "transgender" has given life to a vibrant field of academic research since the 1990s. Yet the Western origins of the field have tended to limit its cross-cultural scope. Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance. Defined as the antidote to transphobia, transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum. Against the backdrop of the Sinophone Pacific, Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame. At the same time, he challenges China-centrism in the study of East Asian gender and sexual configurations. Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced

through one another. Grounded in an eclectic range of sources—from the archives of sexology to press reports of intersexuality, films about castration, and records of social activism—this book reorients anti-transphobic inquiry at the crossroads of area studies, medical humanities, and queer theory. Timely and provocative, *Transtopia in the Sinophone Pacific* highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity.

Affective Health and Masculinities in South Africa Hans Reihling, 2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
