Terms and Conditions R. Sikoryak,2017-03-07 Master satirist tackles the contract everyone agrees to but no one reads “Mischievous, pastiche-heavy artist Robert Sikoryak...upped the difficulty level for his long-term conceptual project: Instead of abridging a book, he lifted the complete text of Apple’s mind-numbing corporate boilerplate, which users must agree to before accessing iTunes, and mashed it up with art invoking more than a century of comics.”—New York Times For his newest project, R. Sikoryak tackles the monstrously and infamously dense legal document, iTunes Terms and Conditions, the contract everyone agrees to but no one reads. In a word for word 94-page adaptation, Sikoryak hilariously turns the agreement on its head—each page features an avatar of Apple cofounder and legendary visionary Steve Jobs juxtaposed with a different classic strip such as Mort Walker’s Beetle Bailey, or a contemporary graphic novel such as Craig Thompson’s Blankets or Marjane Satrapi’s Persepolis. Adapting the legalese of the iTunes Terms and Conditions into another medium seems like an unfathomable undertaking, yet Sikoryak creates a surprisingly readable document, far different from its original, purely textual incarnation and thus proving the accessibility and flexibility of comics. When Sikoryak parodies Kate Beaton’s Hark A Vagrant peasant comics with Steve Jobs discussing objectionable material or Homer Simpson as Steve Jobs warning of the penalties of copyright infringement, Terms and Conditions serves as a surreal record of our modern digital age where technology competes with enduringly ironclad mediums.

What Do Economists Contribute? Daniel B. Klein,2016-07-27 The title of this book raises a provocative question that should make all economists think. What is our *raison d'etre* ? Only a few economists have specifically addressed the issue. Several of the more challenging efforts are included here. Do economists have much influence on government policy, particularly over, say, five or ten years? Is that because they don't try hard enough or is it because politicians care more about the next election than about the opinion of economists? In this splendid collection, some published as long ago as the 1930s, nine great economists consider these questions. The editor's illuminating introduction sorts out the area of agreement and disagreement between them.
