The 33 Héctor Tobar,2015-10-13 The exclusive, official story of the survival, faith and family of Chile’s thirty-three trapped miners, by a Pulitzer Prize-winning journalist When the San Jose mine collapsed outside of Copiapo, Chile, in August 2010, it trapped thirty-three miners beneath thousands of feet of rock for sixty-nine days. The entire world watched what transpired above ground during the gruelling and protracted rescue, but the saga of the miners’ experiences below the earth’s surface—and the lives that led them there—has never been heard, until now. For Deep Down Dark, the Pulitzer Prize-winning journalist Hector Tobar received exclusive access to the miners and their tales. These thirty-three men came to think of the mine, a cavern inflicting constant and thundering aural torment, as a kind of coffin, and as a church where they sought redemption through prayer. Even while still buried, they all agreed that if by some miracle any of them escaped alive, they would share their story only collectively. Hector Tobar was the person they chose to hear, and now to tell, that story. The result is a masterwork of narrative journalism—a riveting, at times shocking, emotionally textured account of a singular human event. Deep Down Dark brings to haunting, tactile life the experience of being imprisoned inside a mountain of stone, the horror of being slowly consumed by hunger, and the spiritual and mystical elements that surrounded working in such a dangerous place. In its stirring final chapters, it captures the profound way in which the lives of everyone involved in the disaster were forever changed.

Deep Down Dark Héctor Tobar,2014-10-07 The exclusive, official story of the survival, faith, and family of Chile’s 33 Trapped Miners, by a Pulitzer Prize-winning journalist When Chile’s San José mine collapsed outside of Copiapó in August, 2010, it trapped 33 miners beneath thousands of feet of rock for a record-breaking 69 days. And across the globe, we sat riveted to television and computer screens while journalists flocked to the Atacama Desert. While we saw what transpired above ground during the grueling and protracted rescue, the story of the miners’ lives buried below the earth’s surface—and the lives that led them there—hasn’t been heard until now. In Deep Down Dark, this master work of a Pulitzer Prize-winning journalist, Héctor Tobar gains exclusive access to the miners and their stories. The result is a miraculous and emotionally textured account of the 33 men who came to think of the San José mine as a kind of coffin, as a “cave” inflicting constant and thundering aural torment, and as a church where they sought redemption through prayer, while the world watched from above. It offers an understanding of the families and personal histories that brought “los 33” to the mine, and the mystical and spiritual elements that surrounded working at such a dangerous place.
