If Anything Happens I Love You Will McCormack,Michael Govier,2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, If Anything Happens I Love You is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. If Anything Happens I Love You may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

Downtown Jim Murray,Robbie Morrison,2014-01-20 The first part of the exciting graphic novel by two of the UK’s very brightest talents The world has changed forever, ravaged by climatic upheaval. The flooded metropolis of London has adapted to the rising sea levels: the elite gaze out over the Thames from their ivory towers, while the inhabitants of submerged pubs peer into the streets like specimens in an aquarium. Hired by a notorious underworld figure, Leo Noiret uncovers a terrifying conspiracy that stretches from the depths of Downtown to the highest echelons of power. Meanwhile, aqua-courier Gina Cassel learns that young love can be a dangerous game when she becomes romantically involved with the heir to the Drakenberg Corporation. There’s a storm brewing in Downtown, with Gina and Noiret at its heart... ‘Flooded civilisations have long been a staple of post-apocalyptic fiction... Few have executed their dystopian vision with quite as much panache as Robbie Morrison and Jim Murray do here’ SFX

The Pixar Theory Jon Negroni,2015-06-04 Every Pixar movie is connected. I explain how and possibly why. These are the words that began the detailed essay now known as The Pixar Theory, which came out way back in 2013. It collected over 10 million views on Jon's blog alone, and was syndicated on Buzzfeed, Mashable, Huffpost, Entertainment Weekly, and more - generating over 100 million impressions and now translated into a dozen languages. Now, these thoughts and ideas first written by Jon Negroni have been fully realized inside this book, aptly named The Pixar Theory. In this book, you'll find an analysis of every single Pixar movie to date and how it tells a hidden story lurking behind these classic movies. You'll learn about how the toys of Toy Story secretly owe their existence to the events of The Incredibles. You'll learn about what truly happened to the civilization of cars from Cars before the events of WALL-E. And of course, you'll find out the possible truth for why Boo of Monsters Inc. is the most important Pixar character yet. Welcome to the Pixar Theory. Don't forget to fasten your imagination.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
