Final Fantasy 7 Remake Story Episode 1. The Cool Soldier Chapter 0 - Planet Gaia Chapter 1 - The Destruction of Mako Reactor 1 Chapter 2 - Fateful Encounters Chapter 3 - Home Sweet Slum

Cloud Strife is a mercenary formerly of the Shinra Electric Power Company's elite special forces known as SOLDIER, hired by a cell of the eco-terrorist group called Avalanche to aid them in the bombing of Mako Reactor 1. Both Avalanche and the cell's leader, Barret Wallace, embrace the ideals of planetology that posits that the planet is a living organism and that Shinra's harvesting of the planet's life force will lead to the end of the world. Cloud, Barret, Jessie, Biggs and Wedge infiltrate the reactor, and Cloud sets up a bomb developed by Jessie at the core. They get out within the time limit, unaware that President Shinra was watching their every move and that he had the reactor core self-destruct when Jessie's bomb failed to properly detonate. The area surrounding the reactor is devastated by the blast. Cloud and the Avalanche members scatter into the streets and agree to meet up at the train going back to the slums. While moving through the shocked crowds, Cloud hallucinates a meeting with Sephiroth, a rogue First Class SOLDIER whom Cloud remembers killing in the past. Cloud cannot believe that Sephiroth is still alive, now seemingly able to distort reality and send Cloud into a vision where everything around him is burning. Cloud snaps out of the illusion and meets a woman selling flowers being attacked by invisible monsters. Unable to see the cloak-like entities until the flower girl grabs his hand for help, Cloud's reaction alerts the Shinra Public Security forces. The woman runs away and Cloud is chased by Shinra troops to the railway bridge from where he jumps onto the passing train, reuniting with the others. They head to the Sector 7 slums where Barret's Avalanche cell has a hideout in the Seventh Heaven bar owned by Tifa, Cloud's childhood friend who reconnected with Cloud after he came to Midgar for work and

enlisted his services to Avalanche despite Barret's reservations. The bombing having been much more destructive than Jessie had anticipated frazzles both her and Tifa, but Barret is ready to move onto the next bombing mission, though he is not interested in hiring Cloud's services again. Tifa suggests Cloud make a name for himself as a mercenary at the Sector 7 slums, and gets him an apartment next to hers. Overnight Cloud hears moaning from the room next door, and when investigating finds it belongs to a delirious man wearing a dark cloak whom he hallucinates as Sephiroth. As he is about to attack, Tifa stops him, and Cloud realizes it was another hallucination. Tifa helps Cloud find work around the slums, and they find Tifa's friend Johnny being taken by Shinra's Public Security under suspicion of being connected to Avalanche. Though Johnny is not part of the group, Tifa fears he might still spill something, and Cloud and Tifa save him by taking out the Shinra soldiers holding Johnny under arrest. Cloud is about to kill Johnny to make sure he will not expose Avalanche, but a shocked Tifa stops him and Johnny instead flees Sector 7, vowing to never return. Though Barret has rejected Cloud's participation onto the next bombing mission, Jessie hires him to help procure a new blasting agent from a Shinra warehouse, still thinking that her haywire bomb is what caused the previous carnage and civilian casualties.

Core Kassten Alonso, 2011-03-01 THIS INTENSE AND COMPACT NOVEL crackles with obsession, betrayal, and madness, and was an Oregon Book Award Finalist for fiction 2005. As the narrator becomes fixated on his best friend's girlfriend, his precarious hold on sanity rapidly deteriorates into delusion and violence. This story can be read as the classic myth of Hades and Persephone (Core) rewritten for a twenty-first century audience as well as a dark, foreboding tale of unrequited love and loneliness. Alonso skillfully uses language to imitate memory and psychosis, putting the reader squarely inside the narrator's head. In addition, deliberate misuse of standard punctuation blurs the distinction between the

narrator's internal and external worlds. A sense of alienation and Faulknerian grotesquerie permeate this landscape where desire is borne in the bloom of a daffodil and sanity lies toppled like an applecart in the mud.

Electrical Apparatus and Supplies Gaertner and Co,1912

The Art of Overwatch Blizzard,2017-10-24 Overwatch has taken the world by storm, boasting millions of players and gaining critical acclaim. Typographic Systems of Design Kimberly Elam,2007-05-03

Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems.

By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements.

Typographic Systems is the seventh title in our bestselling Design Briefs series, which has sold more than 100,000 copies worldwide.

Notes from the Hyena's Belly Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Harem Royale -When the Game Ends- Vol. 1

Ryukishi07, 2019-01-07 From the mind of Ryukishi07, creator of classics such as *Higurashi* and *Umineko*, comes a heart-pounding, full-throttle *Harem Royale*! Kohinata Asunaro is your regular everyday high school student. He likes light novels, porn games, and fantasizing about the girls in his class. One day when walking home from school he inexplicably releases a demon from a sealed bottle. Her name is Zepafur, and she won't rest until her debt is repaid! Now begins the Lovey Dovey *Harem Royale*! cries the demon, weaving a most curious magic. As a result, Asunaro's regular high school life transforms into a love-comedy series of harem shenanigans, with four girls from his school all vying for his

affection, wow! But... Unbeknownst to our dopey protagonist, the four girls are in the midst of a horrific survival game under threat of death and eternal torture. She who fails to capture Asunaro's heart will be confined to the depths of Hell and killed ad infinitum! Just who will survive? Who will thrive? And who will meet their demise?

Sun of Suns Karl Schroeder, 2007-07-31 It is the distant future. The world known as Virga is a fullerene balloon three thousand kilometers in diameter, filled with air, water, and aimlessly floating chunks of rock. The humans who live in this vast environment must build their own fusion suns and towns that are in the shape of enormous wood and rope wheels that are spun for gravity. Young, fit, bitter, and friendless, Hayden Griffin is a very dangerous man. He's come to the city of Rush in the nation of Slipstream with one thing in mind: to take murderous revenge for the deaths of his parents six years ago. His target is Admiral Chaison Fanning, head of the fleet of Slipstream, which conquered Hayden's nation of Aerie years ago. And the fact that Hayden's spent his adolescence living with pirates doesn't bode well for Fanning's chances.

The Mist Stephen King, 2017-05-23 #1 New York Times bestselling author Stephen King's terrifying novella about a town engulfed in a dense, mysterious mist as humanity makes its last stand against unholy destruction—originally published in the acclaimed short story collection *Skeleton Crew* and made into a TV series, as well as a feature film starring Thomas Jane and Marcia Gay Harden. In the wake of a summer storm, terror descends...David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies following a freak storm. Once there, they become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on their nerves, a religious zealot, Mrs. Carmody, begins to play on their fears to convince them that this is God's vengeance for their sins. She insists a sacrifice must

be made and two groups—those for and those against—are aligned. Clearly, staying in the store may prove fatal, and the Draytons, along with store employee Ollie Weeks, Amanda Dumfries, Irene Reppler, and Dan Miller, attempt to make their escape. But what's out there may be worse than what they left behind. This exhilarating novella explores the horror in both the enemy you know—and the one you can only imagine.

Under the Sea Origami Duy Nguyen, 2005 From a slithering electric eel to a ferocious barracuda, Duy Nguyen shows you simple paper folding techniques for crafting extraordinary sea creatures. These striking projects, specially designed for *Under the Sea Origami*, are fun to make using Nguyen's instructions. You don't have to dive under the sea to spot dolphins because these mammals enjoy jumping out of the water. Your origami model will emulate this graceful leaping motion once you create its intricately-folded arched back, fins, and snout. With a long, wide body and whip-like tail, the stingray is a most distinctive-looking fish. It appears to be in mid-flight even though it's nimbly swimming in the water. The hammerhead shark is easily recognized by the shape of its skull. A large tail, made by using mountain and valley folds, rises dramatically to give the hammerhead a great silhouette. The origami blue shark, on the other hand, will attract attention because of its large gaping mouth! To complete the swordfish, you'll need to attach two pieces of folded paper together. Anyone might be frightened by the appearance of a creature that has a swordlike beak and pointy head, unless it was made of paper like this one is! The squid is as fun to create as the swordfish. Its creepy tentacles will take shape after you cut the valley-folded tail into layers. You will find that these unusual origami projects are among the most original ever designed. Book jacket.

Jungle Animal Origami Duy Nguyen, 2004 Explains how to create numerous jungle animals, including vultures, gorillas, lions, zebras, gazelles, and elephants.

ART OF POINT-AND-CLICK ADVENTURE GAMES. BITMAP BOOKS.,2020

Attack of the 50 Foot Blockchain David Gerard,2017-07-24 An experimental new Internet-based form of money is created that anyone can generate at home; people build frightening firetrap computers full of video cards, putting out so much heat that one operator is hospitalised with heatstroke and brain damage. A young physics student starts a revolutionary new marketplace immune to State coercion; he ends up ordering hits on people because they might threaten his great experiment, and is jailed for life without parole. Fully automated contractual systems are proposed to make business and the law work better; the contracts people actually write are unregulated penny stock offerings whose fine print literally states that you are buying nothing of any value. The biggest crowdfunding in history attracts \$150 million on the promise that it will embody “the steadfast iron will of unstoppable code”; upon release it is immediately hacked, and \$50 million is stolen. How did we get here? David Gerard covers the origins and history of Bitcoin to the present day, the other cryptocurrencies it spawned including Ethereum, the ICO craze and the 2017 crypto bubble, and the attempts to apply blockchains and smart contracts to business. Plus a case study on blockchains in the music industry. Bitcoin and blockchains are not a technology story, but a psychology story. Remember: if it sounds too good to be true, it almost certainly is. “A sober riposte to all the upbeat forecasts about cryptocurrency” — New York Review of Books “A very convincing takedown of the whole phenomenon” — BBC News

Second Variety Philip K. Dick,2016-01-18 In a world torn apart by endless warfare between the Soviet Union and the United Nations, humanity struggles to survive amidst the desolation of a nuclear wasteland. Philip K. Dick's captivating short story, *Second Variety*, delves deep into the consequences of war and the relentless pursuit of power. Originally published in 1953, this chilling science fiction masterpiece has inspired blockbuster films

like *Screamers* and its sequel *Screamers: The Hunting*. From the author that brought you timeless cinematic classics such as *Blade Runner*, *Total Recall*, and *Minority Report*, comes an unforgettable adventure that will leave you questioning the boundaries of trust and the cost of destruction. As Russia pushes the United States to the brink, the UN devises a last-ditch effort to win the war-- an arsenal of deadly, self-replicating assassin machines known as claws. Equipped with the ability to evolve and the sole objective to exterminate all living organisms, the claws are programmed to recognize and spare those who wear designated badges. But when the machines begin to uncover unexpected ways to outsmart their creators, the very existence of life on Earth is threatened. *Second Variety* presents a gripping and thought-provoking story that challenges the nature of humanity and the ramifications of technology gone awry. With unforgettable characters, nail-biting suspense, and an unsettling take on a dystopian future, this is one book you won't be able to put down.

False Stars Sayaka Mogi, 2021-06-07

Grindhouse Doors Open at Midnight Alex De Campi, 2014
Works issued upside-down and back-to-back.

The Buck Book Anne Akers Johnson, 1993 All seven projects described are folded out of a \$1 bill. Projects range from the Dollar Bill Ring to the exotic Plumed Peacock to the all-time favorite Bow Tie.

All Quiet on the Western Front Erich Maria Remarque, 2025-01-07 The classic tale of a young soldier's harrowing experiences in the trenches, widely acclaimed as the greatest war novel of all time—featuring an Introduction by historian Norman Stone. Now a Netflix Film. When twenty-year-old Paul Bäumer and his classmates enlist in the German army during World War I, they are full of youthful enthusiasm. But the world of duty, culture, and progress they had been taught to believe in shatters under the first brutal bombardment in the trenches. Through the ensuing years of horror, Paul holds fast to a single

vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another. Erich Maria Remarque's classic novel not only portrays in vivid detail the combatants' physical and mental trauma, but dramatizes as well the tragic detachment from civilian life felt by many upon returning home. Remarque's stated intention—"to tell of a generation of men who, even though they may have escaped shells, were destroyed by the war"—remains as powerful and relevant as ever, a century after that conflict's end. Everyman's Library pursues the highest production standards, printing on acid-free cream-colored paper, with full-cloth cases with two-color foil stamping, decorative endpapers, silk ribbon markers, European-style half-round spines, and a full-color illustrated jacket. Contemporary Classics include an introduction, a select bibliography, and a chronology of the author's life and times.

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Final Fantasy Papercraft Shinra Soldier**

In a world inundated with monitors and the cacophony of immediate communication, the profound power and emotional resonance of verbal artistry usually diminish in to obscurity, eclipsed by the continuous onslaught of noise and distractions. However, nestled within the lyrical pages of **Final Fantasy Papercraft Shinra Soldier**, a captivating perform of fictional beauty that pulses with fresh feelings, lies an unforgettable journey waiting to be embarked upon. Published by a virtuoso wordsmith, that exciting opus manuals readers on a psychological odyssey, softly exposing the latent possible and profound influence stuck within the elaborate internet of language. Within the heart-wrenching expanse of this evocative examination, we will embark upon an introspective exploration of the book is main

styles, dissect its interesting publishing style, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
