Core Kassten Alonso, 2011-03-01 THIS INTENSE AND COMPACT NOVEL crackles with obsession, betrayal, and madness, and was an Oregon Book Award Finalist for fiction 2005. As the narrator becomes fixated on his best friend's girlfriend, his precarious hold on sanity rapidly deteriorates into delusion and violence. This story can be read as the classic myth of Hades and Persephone (Core) rewritten for a twenty-first century audience as well as a dark, foreboding tale of unrequited love and loneliness. Alonso skillfully uses language to imitate memory and psychosis, putting the reader squarely inside the narrator's head. In addition, deliberate misuse of standard punctuation blurs the distinction between the narrator's internal and external worlds. A sense of alienation and Faulknerian grotesquerie permeate this landscape where desire is borne in the bloom of a daffodil and sanity lies toppled like an applecart in the mud.

Ghachar Ghochar Vivek Shanbhag, 2017-02-07 ONE OF THE NEW YORK TIMES CRITICS' TOP BOOKS OF 2017 ONE OF VULTURE'S 100 BEST BOOKS OF THE 21ST CENTURY FINALIST FOR THE L.A. TIMES BOOK PRIZE IN FICTION “A modern classic.” —The New York Times Book Review A young man's close-knit family is nearly destitute when his uncle founds a successful spice company, changing their fortunes overnight. As they move from a cramped, ant-infested shack to a larger house on the other side of Bangalore, and try to adjust to a new way of life, the family dynamic begins to shift. Allegiances realign; marriages are arranged and begin to falter; and conflict brews ominously in the background. Things become “ghachar ghochar”—a nonsense phrase uttered by one meaning something tangled beyond repair, a knot that can't be untied. Elegantly written and punctuated by moments of unexpected warmth and humor, *Ghachar Ghochar* is a quietly enthralling, deeply unsettling novel about the shifting meanings—and consequences—of financial gain in contemporary India. “A classic tale of wealth and moral ruin.” —The New Yorker “*Ghachar Ghochar* introduces us to a master.” —The Paris Review Named a Best Book of the Year by the Guardian, Globe and Mail, and Publishers Weekly Shortlisted for the ALTA National Translation Award in Prose Longlisted for the International Dublin Literary Award

Profiles in Operations Research Arjang A. Assad, Saul I. Gass, 2011-06-28 *Profiles in Operations Research: Pioneers and Innovators* recounts the development of the field of Operations Research (OR), the science of decision making. The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations. Over the past six decades, OR analyses have impacted our daily lives: when making an airline or hotel reservation, waiting in line at a bank, getting the correctly blended fuel at the gas station, and ensuring that the book you are holding arrived at its destination on time. OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft. During World War II, similar applied research groups were formed to study, test, and evaluate military operations on both sides of the Atlantic. Their work resulted in great improvements—OR

helped the Allies win the war. The scientific field that emerged from these studies was called operational research in the U.K. and operations research in the U.S. Today, OR provides a broad and powerful science to aid decision making. Profiles describes the lives and contributions of 43 OR pioneers and innovators and relates how these individuals, with varying backgrounds and diverse interests, were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals—interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines. The Editors: Arjang A. Assad is Dean of the School of Management, University at Buffalo, State University of New York. Saul I. Gass is Professor Emeritus, Department of Decision, Operations & Information Technologies, Smith School of Business, University of Maryland, College Park. From the Reviews Profiles In Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings: U.K. OR Society's e-journal, Inside OR., Sept 2011. I can thoroughly recommend this book. I found it both enlightening and undeniably gripping, so much so in fact, you may find it difficult to put it down once you have commenced reading it. Arjang A. Assad and Saul I. Gass have created a masterwork which will serve to immortalise [stet] the pioneers of O.R. for many years to come. *For a list of all known typos, plus further discussion on the book, please visit <http://profilesinoperationsresearch.com>.

Music Scenes Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

Water+Ink Coloring Book Winter 2020 Kim Winberry,2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.
