Cast in Shadow Michelle Sagara,2016-06-01 A powerful young warrior must return to the perilous city she escaped years ago in the New York Times–bestselling author’s fantasy series debut. Seven years ago Kaylin fled the crime-riddled streets of Nightshade, knowing that something was after her. Children were being murdered—and every victim had the same odd markings that had mysteriously appeared on her own skin. . . . Since then, Kaylin has learned to read, she’s learned to fight, and she’s become one of the vaunted Hawks who patrol and police the City of Elantra. Alongside the winged Aerians and the immortal Barrani, she’s made a place for herself, far from the mean streets of her birth. But now children are dying once again. And a dark and familiar pattern is emerging. Kaylin is ordered back into Nightshade with a partner she knows she can’t trust, a dragon for a companion, and a device to contain her powers—powers that no other human has. Her task is simple—find the killer, stop the murders . . . and survive the attentions of those who claim to be her allies . . .

Does Playing Video Games Make Players More Violent? Barrie Gunter,2016-06-21 This book is an academic work which reviews and critiques the research literature concerning violent games and their alleged effects on players. It examines the debates about the potential effects of these games and the divisions between scholars working in the field. It places the research on violent video games in the longer historical context of scholarly work on media violence. It examines research from around the world on the nature of video games and their effects. It provides a critique of relevant theories of media violence effects and in particular theories developed within the older media violence literature and then considers how useful this and newer scholarly work might be for policy-makers and regulators. Burn for Me Ilona Andrews,2014-10-28 In this spellbinding first novel in #1 New York Times bestselling author Ilona Andrews’s urban fantasy Hidden Legacy series, private detective Nevada Baylor navigates her way through an alternate world where dynasties, built on inherited wealth and magic, guide the course of humanity. ?Nevada Baylor runs a small-time detective agency in Houston, Texas, busting scammers, exposing cheaters, and dealing with petty criminals. She’s very good at her job—helped by a magical ability to sense when someone tells the truth or lies. But when she’s forced into accepting a case to find a radical pyrotechnic who can

conjure heat and fire at will, Nevada knows she’s out of her league. To bring him to justice, she’ll have to join forces with someone who wields an even more dangerous power. Connor “Mad” Rogan is a former combat mage, a telekinetic singularly responsible for mass destruction in war-torn countries, and a member of one of the most powerful magic families in the world. His nephew has been kidnapped by the fugitive pyromaniac, and Nevada is his best chance at finding them both. But unlike Nevada, Connor could care less about societal law and order, and has no qualms about extinguishing his family’s enemy. Bound by their mission, Nevada and Connor clash over their tactics and moral beliefs, even as things undeniably heat up between them. But the man they’re chasing is involved in a darker conspiracy that threatens to destroy the city—and destabilize the balance of power the elite magical families use to influence every nation on Earth.
