**On Diary** Philippe Lejeune, 2009-04-30 On Diary is the second collection in English of the groundbreaking and profoundly influential work of one of the best-known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet, from the spiritual journey of the sixteenth century to the diary of Anne Frank, and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay, *The Autobiographical Pact*, has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. . . . His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable. Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

The Gargoyles of Notre-Dame Michael Camille, 2008-11-15 Most of the seven million people who visit the cathedral of Notre Dame in Paris each year probably do not realize that the legendary gargoyles adorning this medieval masterpiece were not constructed until the nineteenth century. The first comprehensive history of these world-famous monsters, *The Gargoyles of Notre-Dame* argues that they transformed the iconic thirteenth-century cathedral into a modern monument. Michael Camille begins his long-awaited study by recounting architect Eugène Viollet-le-Duc's ambitious restoration of the structure from 1843 to 1864, when the gargoyles were designed, sculpted by the little-known Victor Pyanet, and installed. These gargoyles, Camille contends, were not mere avatars of the Middle Ages, but rather fresh creations—symbolizing an imagined past—whose modernity lay precisely in their nostalgia. He goes on to map the critical reception and many-layered afterlives of these chimeras, notably in the works of such artists and writers as Charles Méryon, Victor Hugo, and photographer Henri Le Secq. Tracing their eventual evolution into icons of high kitsch, Camille ultimately locates the gargoyles' place in the twentieth-century imagination, exploring interpretations by everyone from Winslow Homer to the Walt Disney Company. Lavishly illustrated with more than three hundred images of its monumental yet whimsical subjects, *The Gargoyles of Notre-Dame* is a must-read for historians of art and architecture and anyone whose imagination has been sparked by the lovable monsters gazing out over Paris from one of the world's most renowned vantage points.

*Free from Civilization* Enrico Manicardi, 2013-07-01 In clear, impassioned prose, Enrico Manicardi analyzes the evils of our age from their genesis. This or that economic, technological or cultural model is not to blame for our current crisis; the blame lies with economics, technology and culture as such. It is the ideology of fear that makes us afraid. It is the mentality of domination that jeopardizes all of our relationships. In short, the problem is civilization. Through its oppressive classes, values and processes that pervade everyone's life, civilization domesticates us, weakens our perceptiveness and distances us from the living world. We must radically change our way of thinking, feeling and behaving before it's too late—we must dam the flood of devitalization that is washing over us, and return to our wilder natures, both inside and outside ourselves. Manicardi's appeal is crystal clear: if we are to survive we must begin to search inside ourselves, not to celebrate the distant past as if it were a cult, but to return to ourselves, to grip life with our own two hands, and build upon that earlier ecocentric conscience which once held the place of the egocentric

conscience now leading us astray. Enrico Manicardi was born in 1966 and is a member of La Scintilla, the Society for Libertarian Culture of Modena. A lawyer and founder of the antiauthoritarian media project Infection, he has also played guitar and written music for an eponymous band since the 1980s. His lifelong wish has been to live in a free, radically off-kilter, ecologically sound world, one characterized by warm, spontaneous, non-hierarchical relationships rather than those consecrated by the cult of technology. Troubled by the way people have succumbed to a civilization that estranges, domesticates and regulates everything and everyone, he continues to protest against the modern world's project to enslave us. This book augurs the rise of an increasingly harmonious chorus loud enough to put an end to that project.

*Fabricating Modern Societies: Education, Bodies, and Minds in the Age of Steel*, 2019-09-02 *Fabricating Modern Societies: Education, Bodies, and Minds in the Age of Steel*, edited by Karin Priem and Frederik Herman, offers new interdisciplinary and transnational perspectives on the history of industrialization and societal transformation in early twentieth-century Luxembourg. The individual chapters focus on how industrialists addressed a large array of challenges related to industrialization, borrowing and mixing ideas originating in domains such as corporate identity formation, mediatization, scientification, technological innovation, mechanization, capitalism, mass production, medicalization, educationalization, artistic production, and social utopia, while competing with other interest groups who pursued their own goals. The book looks at different focus areas of modernity, and analyzes how humans created, mediated, and interacted with the technospheres of modern societies. Contributors: Klaus Dittrich, Irma Hadzalic, Frederik Herman, Enric Novella, Ira Plein, Françoise Poos, Karin Priem, and Angelo Van Gorp.

**Cultural Urban Heritage** Mladen Obad Šćitaroci, Bojana Bojanić Obad Šćitaroci, Ana Mrđa, 2019-01-28 This book presents strategies and models for cultural heritage enhancement from a multidisciplinary perspective. It discusses identifying historical, current and possible future models for the revival and enhancement of cultural heritage, taking into consideration three factors - respect for the inherited, contemporary and sustainable future development. The goal of the research is to contribute to the enhancement of past cultural heritage renovation and enhancement methods, improve the methods of spatial protection of heritage and contribute to the development of the local community through the use of cultural, and in particular, architectural heritage. Cultural heritage is perceived primarily through conservation, but that comes with limitations. If heritage is perceived and experienced solely through conservation, it becomes a static object. It needs to be made an active subject, which implies life in heritage as well as new purposes and new life for abandoned heritage. Heritage can be considered as a resource that generates revenue for itself and for the sustainability of the local community. To achieve this, it should be developed in accordance with contemporary needs and technological achievements, but on scientifically based and professional criteria and on sustainable models. The research presented in this book is based on the approach of Heritage Urbanism in a combination of experiments (case studies) and theory.

**Ghost Brothers** Rony Blum, 2005-05-12 Devastating losses caused by diseases such as smallpox led to an epidemic of bereavement among the Natives. This loss resonated with the French, who had

dealt with smaller epidemics in France and were also mourning their absent communities through a nostalgia for home. Blum traces how ghosts provided transgenerational and transcultural links that guided understanding rather than encouraging violence. Ghost Brothers insightfully examines the process of this colonial interdependent alliance between Native and European worlds.

**The Gutenberg Galaxy** Marshall McLuhan,1962-01-01 Since its first appearance in 1962, the impact of The Gutenberg Galaxy has been felt around the world. It gave us the concept of the global village; that phrase has now been translated, along with the rest of the book, into twelve languages, from Japanese to Serbo-Croat. It helped establish Marshall McLuhan as the original 'media guru.' More than 200,000 copies are in print.
