Spying on Whales Nick Pyenson, 2019-06-25 "A palaeontological howdunnit...[Spying on Whales] captures the excitement of...seeking answers to deep questions in cetacean science." -Nature Called "the best of science writing" (Edward O. Wilson) and named a best book by Popular Science, a dive into the secret lives of whales, from their four-legged past to their perilous present. Whales are among the largest, most intelligent, deepest diving species to have ever lived on our planet. They evolved from land-roaming, dog-sized creatures into animals that move like fish, breathe like us, can grow to 300,000 pounds, live 200 years and travel entire ocean basins. Whales fill us with terror, awe, and affection--yet there is still so much we don't know about them. Why did it take whales over 50 million years to evolve to such big sizes, and how do they eat enough to stay that big? How did their ancestors return from land to the sea--and what can their lives tell us about evolution as a whole? Importantly, in the sweepstakes of human-driven habitat and climate change, will whales survive? Nick Pyenson's research has given us the answers to some of our biggest questions about whales. He takes us deep inside the Smithsonian's unparalleled fossil collections, to frigid Antarctic waters, and to the arid desert in Chile, where scientists race against time to document the largest fossil whale site ever found. Full of rich storytelling and scientific discovery, *Spying on Whales* spans the ancient past to an uncertain future--all to better understand the most enigmatic creatures on Earth.

ICONZ Belinda Ellis, Craig Potton Publishing, 2014-10-20 ICONZ is an encyclopaedic collection of 64 illustrated graphic icons cataloguing New Zealand's popular culture and identity. The book takes an affectionate look at what New Zealanders hold dear, and is intended for the local market, nostalgic expats abroad and visiting tourists alike. An abundance of existing material brandishing 'kiwiana' in various guises - not all, but much of it kitsch - led Belinda Ellis, one of the country's leading graphic designers, to create this iconic look at New Zealand identity. Her intention was to create a recognisable New Zealand brand that would truly stand out. The project's point of difference is in its quality of design and production standards, as well as in its uniformity of look. ICONZ pushes past 'kiwiana', to depict iconic New Zealanders, Maoridom, cuisine, products and pastimes, as well as comparable aspects of our flora and fauna. The suite of icons is to be for commercial publication and application under the trademark, ICONZ. This book is intended to serve as the foundation of the project, showcasing the icons in an illustrated book with high production values. Concurrently with the book's publication, and under the same trademark, the icons have been applied to a range of retail merchandise: art-quality prints and stationery; clothing and accessories; household items; even chocolates--Publisher's description.

The First Collection of Criticism by a Living Female Rock Critic Jessica Hopper, 2015-05-12 Jessica Hopper's music criticism has earned her a reputation as a firebrand, a keen observer and fearless critic not just of music but the culture around it. With this volume spanning from her punk fanzine roots to her landmark piece on R. Kelly's past, *The First Collection* leaves no doubt why *The New York Times* has called Hopper's work influential. Not merely a selection of two decades of Hopper's most engaging, thoughtful, and humorous writing, this book documents the last 20 years of American music making and the shifting landscape of music consumption. The book journeys through the truths of Riot Grrrl's empowering insurgence, decamps to Gary, IN, on the eve of Michael Jackson's death, explodes the grunge-era mythologies of Nirvana and Courtney Love, and examines emo's rise. Through this vast range of album reviews, essays, columns, interviews, and oral

histories, Hopper chronicles what it is to be truly obsessed with music. The pieces in The First Collection send us digging deep into our record collections, searching to re-hear what we loved and hated, makes us reconsider the art, trash, and politics Hopper illuminates, helping us to make sense of what matters to us most.

Division Street Studs Terkel, 2024-11-05 A landmark reissue of Studs Terkel's classic microcosm of America, with a new foreword by the Pulitzer Prize-winning journalist and co-creator of the Division Street Revisited podcast When Division Street, Studs Terkel's first book of oral history, was published in 1967 (it was commissioned by New Press founding director André Schiffrin), Terkel's reputation as America's foremost oral historian was established overnight. Approaching Chicagoans as emblematic of the nation at large, Terkel set out with his tape recorder and spent a year talking to people about the place and time they lived in. The freewheeling conversations touched on race, family, education, work, prospects for the future—all topics that remain deeply contentious today. The more than seventy subjects included a Black woman who attended the 1963 March on Washington, a tool-and-die maker, a baker from Budapest, a closeted gay actor, and a successful but cynical ad man. As Tom Wolfe wrote, Studs was "one of those rare thinkers who is actually willing to go out and talk to the incredible people of this country." Although the interviewees were very different, most shared the hope for a good life for their children and the wish for a less divided and more just America, an America that would fulfill its promises. The real Chicago street referenced in the title takes on a metaphorical meaning as a symbol of the acute social divides of the 1960s—and highlights the continued relevance of Terkel's work in our polarized times. Now, over fifty years later, Melissa Harris and Pulitzer Prize-winning journalist Mary Schmich have created the remarkable Division Street Revisited podcast, coming in January 2025, in which they have found and interviewed descendants of Terkel's original subjects in seven rich episodes. The result is a moving and thought-provoking intergenerational conversation. Schmich's foreword to the reissue highlights the evolution of the themes and issues Terkel explored. The extraordinary podcast—and the new edition of Division Street—together demonstrate Studs Terkel's prescience and the enduring importance of his work.

Haunted Reflections Andrew Wilding, 2021-03-29 In the beginning, a scarecrow made his own history, like a symbol that everyone sees year-around (like Halloween) placed in the middle of surrounding pumpkins and flames all around but never hurting the scarecrow. At the end, two different species—a goblin and a troll—made their own history as well. Keeping the scarecrow strong and their willpower intact, so nobody can erase all three of their history, in which no one can change.

Bruno Roger Booth,1999-01-01 Bruno. The surname Lawrence seems almost superfluous, but the first name conjures up a whirlwind of memories. Music, touring theatre in New Zealand and Australia, films and television. From the 1950s until his untimely death in 1995 Bruno Lawrence was an enduring popular culture figure on both sides of the Tasman. But Bruno also enjoyed an international reputation, with roles in feature films like *Smash Palace*, *Utu* and *The Quiet Earth* as well as major roles in television programmes such as *Frontline* (which propelled him to fame in Australia), and several academy awards. Boundless energy, diverse talents, tremendous charm, a strong sense of fairness... these were just some of the qualities that made him so memorable. Yet this is no hagiography, for author Booth also explores Bruno's excesses, his improvidence and minor criminal activities (starting with the theft of a saxophone at age eight, and its redeeming aftermath). This first biography of Bruno Lawrence will delight all who have enjoyed his music and films. Numerous illustrations add visual appeal to an amazing and enchanting story.

Kumba Africa Sampson Ejike Odum,2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their

small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

SXSW Scrapbook Peter Blackstock, Jason Cohen, Andy Smith, 2011-02-15 When a handful of adventurous Austinites combined forces to dream up the South by Southwest Music & Media Conference in the mid-to-late 1980s, there was no guarantee it would survive past the first couple of years, much less blossom into the premier event of its kind in the world. Launched in March of 1987, SXSW quickly caught on as a sort of spring break for the music industry where deals were done amid waves of warm weather, Texas cuisine, and an endless parade of musicians from across the globe. SXSW Scrapbook takes a long look back at many years of highlights as South by Southwest celebrates its twenty-fifth edition in 2011. Those who were there share stories about how it all got started; memorable performances by major artists including Johnny Cash, the Black Eyed Peas, Iggy Pop, the Dixie Chicks, and the Flaming Lips; countless up-and-coming acts that got a leg up in their careers by playing SXSW; Sunday softball tournaments with Doug Sahm as championship-game announcer; goodie-bags decorated by renowned illustrators from Mike Judge to Daniel Johnston; and the convention's eventual expansion beyond music to include a film festival and an interactive media component. The book includes numerous photos, plus essays from SXSW staffers and participants including Dave Marsh, David Fricke, Jim DeRogatis, John Morthland, Ed Ward, Michael Corcoran, Jaan Uhelszki, and Thom Duffy.
