Fabrigami Jill Stovall, Scott Wasserman Stern, Florence Temko, 2013-12-24 Fold decorative origami objects out of cloth with this easy-to-use origami book. Fabrigami is the Asian art of folding fabrics to create three-dimensional objects ranging from the practical to the whimsical. Like paper, there are countless beautiful fabric designs to choose from, only fabric has the virtue of being extremely durable. Fabrigami began as origami legend Florence Temko's final project. Everyone knows that origami is the art of paper folding, but Temko had begun experimenting with folding fabric to make objects that are just as beautiful but more lasting than paper. Sadly, Temko passed away before the book was completed, but her collaborator, Jill Stovall, continued their work. Now, Stovall-with the help of Scott Stern, a rising young star of origami-brings Fabrigami to print for everyone to use and enjoy. This origami book begins by presenting instructions on how to treat fabric so it holds a shape when folded. Then Stovall shares a series of fun craft projects with simple origami-style diagrams that you can use to make a range of lovely objects. Stiffening the fabric requires some practice, but the folds are all easy enough to be considered origami-for-kids projects and are a great way to learn origami. Cloth origami projects include: Fantastic Fold Earrings Evening Wine Coat Florence's Hexagon Box Cloth Kimono Card Pleated Peacock

Tessellation-Inspired Origami Box Designs Arnold Tubis, Diana Lee, 2014-08-03 A gift for a special occasion like a birthday, wedding, or anniversary requires more than just a box. It requires an extraordinary and memorable box - one that will sometimes be considered as important and precious as the gift it contains. This book contains folding instructions for over 48 decorative box designs with the wall-lock structures of the traditional Japanese masu. Two foundation forms, that can also be used repetitively in square- grid tessellation patterns, constitute the starting points for all of the decorative lids. With a little practice, most of these boxes (bottoms and decorative lids) are foldable in about 15 to 30 minutes - a small amount of time for producing a fabulous gift component. A section at the end of the book outlines how to systematically explore many additional decorative designs similar to the ones presented.
