**Women, Race, & Class** Angela Y. Davis, 2011-06-29 From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

**Simians, Cyborgs, and Women** Donna Haraway, 2013-05-13 Simians, Cyborgs and Women is a powerful collection of ten essays written between 1978 and 1989. Although on the surface, simians, cyborgs and women may seem an odd threesome, Haraway describes their profound link as creatures which have had a great destabilizing place in Western evolutionary technology and biology. Throughout this book, Haraway analyzes accounts, narratives, and stories of the creation of nature, living organisms, and cyborgs. At once a social reality and a science fiction, the cyborg—a hybrid of organism and machine—represents transgressed boundaries and intense fusions of the nature/culture split. By providing an escape from rigid dualisms, the cyborg exists in a post-gender world, and as such holds immense possibilities for modern feminists. Haraway's recent book, *Primate Visions*, has been called outstanding, original, and brilliant, by leading scholars in the field. (First published in 1991.)

**Between Crown & Commerce** Junko Takeda, 2011-05-01 This "carefully argued and well-written study" examines French royal statecraft in the globalizing economy of the early modern Mediterranean (Choice). This is the story of how the French Crown and local institutions accommodated one another as they sought to forge acceptable political and commercial relationships. Junko Thérèse Takeda tells this tale through the particular experience of Marseille, a port the monarchy saw as key to commercial expansion in the Mediterranean. At first, Marseille's commercial and political elites were strongly opposed to the Crown's encroaching influence. Rather than dismiss their concerns, the monarchy cleverly co-opted their civic traditions, practices, and institutions to convince the city's elite of their important role in Levantine commerce. Chief among such traditions were local ideas of citizenship and civic virtue. As the city's stature throughout the Mediterranean grew, however, so too did the dangers of commercial expansion as exemplified by the arrival of the bubonic plague. During the crisis, Marseille's citizens reevaluated merchant virtue, while the French monarchy found opportunities to extend its power. *Between Crown and Commerce* deftly combines a political and intellectual history of state-building, mercantilism, and republicanism with a cultural history of medical crisis. In doing so, the book highlights the conjoined history of broad transnational processes and local political change.

**Mathematical Demography** David P. Smith, Nathan Keyfitz, 2013-07-23 Mathematical demography is the centerpiece of quantitative social science. The founding works of this field from Roman times to the late Twentieth Century are collected here, in a new edition of a classic work by David R. Smith and Nathan Keyfitz. Commentaries by Smith and Keyfitz have been brought up to date and extended by Kenneth Wachter and Hervé Le Bras, giving a synoptic picture of the leading achievements in formal population studies. Like the original collection, this new edition constitutes an indispensable source for students and scientists alike, and illustrates the deep roots and continuing vitality of mathematical demography.

**Talking to Strangers** Malcolm Gladwell, 2019-09-10 Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

*All that is Solid Melts Into Air* Marshall Berman, 1983 The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

**On the Track** Fred Karlin, Rayburn Wright, 2013-07-04 Offers a comprehensive guide to scoring for film and television. Covering all styles and genres, the authors cover everything from timing, cuing, and recording through balancing the composer's vision with the needs of the film.

**Deconstruction and the Possibility of Justice** Drucilla Cornell, Michel Rosenfeld, David Gray Carlson, 2016-05-13 The purpose of this volume is to rethink the questions posed by Derrida's writings and his unique philosophical positioning, without reference to the catch phrases that have supposedly summed up deconstruction.

**The Arcades Project** Walter Benjamin, 1999 Focusing on the arcades of 19th-century Paris--glass-roofed rows of shops that were early centers of consumerism--Benjamin presents a montage of quotations from, and reflections on, hundreds of published sources. 46 illustrations.

**Gender Change in Academia** Birgit Riegraf, Brigitte Aulenbacher, Edit Kirsch-Auwärter, Ursula Müller, 2010-07-15 Editors' Foreword The fundamental changes currently taking place in the national and international science landscapes can no longer be overlooked. Within those changes, reforms do not go 'as planned' but, as is always the case with processes of rationalization, have a series of unintended effects. At the same time it becomes increasingly clear who in this process are the winners and who are the losers, although this is still subject to fluctuation and change. This can be illustrated by two examples from current events: Where the range of taught courses is concerned, as part of the Bologna Process the new structuring of student study paths and their organisation is aimed at unifying the European area of science to ensure a study that is equally permissive and efficient. However, it is to be deplored that the mobility of students has become more restricted because of an increasing specialisation in the available study paths. Also, bachelor degrees do not meet with the anticipated high response from the labour market in all countries, so that the master's degree is becoming more or less a 'must', while at the same time the number of study places on master's courses is limited. Instead of the intended reduction in the duration of study time in

comparison to the previous German 'Magister' and 'Diplom', rather a prolongation in the duration of studies has been recorded.

**HISTORICAL ACCOUNT OF THE BLACK EMPIRE OF HAYTI** MARCUS. RAINSFORD, 2018

**Of Grammatology** Jacques Derrida, 2013-10-17 Jacques Derrida's revolutionary theories about deconstruction, phenomenology, psychoanalysis, and structuralism, first voiced in the 1960s, forever changed the face of European and American criticism. The ideas in *De la grammatologie* sparked lively debates in intellectual circles that included students of literature, philosophy, and the humanities, inspiring these students to ask questions of their disciplines that had previously been considered improper. Thirty years later, the immense influence of Derrida's work is still igniting controversy, thanks in part to Gayatri Spivak's translation, which captures the richness and complexity of the original. This corrected edition adds a new index of the critics and philosophers cited in the text and makes one of contemporary criticism's most indispensable works even more accessible and usable.

*Ontological Terror* Calvin L. Warren, 2018-04-06 In *Ontological Terror* Calvin L. Warren intervenes in Afro-pessimism, Heideggerian metaphysics, and black humanist philosophy by positing that the Negro question is intimately imbricated with questions of Being. Warren uses the figure of the antebellum free black as a philosophical paradigm for thinking through the tensions between blackness and Being. He illustrates how blacks embody a metaphysical nothing. This nothingness serves as a destabilizing presence and force as well as that which whiteness defines itself against. Thus, the function of blackness as giving form to nothing presents a terrifying problem for whites: they need blacks to affirm their existence, even as they despise the nothingness they represent. By pointing out how all humanism is based on investing blackness with nonbeing—a logic which reproduces antiblack violence and precludes any realization of equality, justice, and recognition for blacks—Warren urges the removal of the human from its metaphysical pedestal and the exploration of ways of existing that are not predicated on a grounding in being.

*The Violence of Modernity* Debarati Sanyal, 2020-03-03 *The Violence of Modernity* turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge

the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.
