Finding Frankenstein Liz Bockelman,2017-09-28 It's autumn in Green Mountain Town. Last year on Halloween, Frankenstein showed up and frightened everyone away from their trick-and-treating. This year, the kids insist they will just stay home and say NO to candy. Except Suzy. Will her plan save Halloween? The book touches on the topics of bullying, courage and fear.

Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

When We Lost Our Heads Heather O'Neill,2022-02-08 "Every decent friendship comes with a drop of hatred. But that hatred is like honey in the tea. It makes it addictive." Charismatic Marie Antoine is the daughter of the richest man in 19th century Montreal. She has everything she wants, except for a best friend—until clever, scheming Sadie Arnett moves to the neighborhood. Immediately united by their passion and intensity, Marie and Sadie attract and repel each other in ways that thrill them both. Their games soon become tinged with risk, even violence. Forced to separate by the adults around them, they spend years engaged in acts of alternating innocence and depravity. And when a singular event brings them back together, the dizzying effects will upend the city. Traveling from a repressive finishing school to a vibrant brothel, taking readers firsthand into the brutality of factory life and the opulent lives of Montreal's wealthy, When We Lost Our Heads dazzlingly explores gender, sex, desire, class,

and the terrifying power of the human heart when it can't let someone go.

Just One Look Harlan Coben, 2005-04-26 An ordinary snapshot causes a mother's world to unravel in this shocking thriller from the bestselling author and creator of the hit Netflix drama *The Stranger*. When Grace Lawson picks up a newly developed set of family photographs, there is a picture that doesn't belong—a photo from at least twenty years ago with a man in it who looks strikingly like her husband, Jack. And though Jack denies it's him, he disappears that night, taking the photo with him. Now, to save her family from a fierce, silent killer who will stop at nothing to get the photo, Grace must confront the dark corners of her own tragic past....

Halloween Nicholas Rogers, 2003 A wide-ranging, illustrated look at the history of Halloween illuminates the holiday from ancient Celtic ritual to billion-dollar industry. 32 halftones & line illustrations.

Frankenstein (Modern English Translation) Mary Shelley, 2019-05 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's *Frankenstein*, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

The Mist Stephen King, 2017-05-23 #1 New York Times bestselling author Stephen King's terrifying novella about a town engulfed in a dense, mysterious mist as humanity makes its last stand against unholy destruction—originally published in the acclaimed short story collection *Skeleton Crew* and made into a TV series, as well as a feature film starring Thomas Jane and Marcia Gay Harden. In the wake of a summer storm, terror descends...David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies following a freak storm. Once there, they become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on their nerves, a religious zealot, Mrs. Carmody, begins to play on their fears to convince them that this is God's vengeance for their sins. She insists a sacrifice must be made and two groups—those for and those against—are aligned. Clearly, staying in the store may prove fatal, and the Draytons, along with store employee Ollie Weeks, Amanda Dumfries, Irene Reppler, and Dan Miller, attempt to make their escape. But what's out there may be worse than what they left behind. This exhilarating novella explores the horror in both the enemy you know—and the one you can only imagine.

Mechanically Inclined Jeff Anderson, 2023-10-10 Some teachers love grammar and some hate it, but nearly all struggle to find ways of making the mechanics of English meaningful to kids. As a middle school teacher, Jeff Anderson also discovered that his students were not grasping the basics, and that it was preventing them from reaching their potential as writers. Jeff readily admits, "I am not a grammarian, nor am I punctilious about anything," so he began researching and testing the ideas of scores of grammar experts in his classroom, gradually

finding successful ways of integrating grammar instruction into writer's workshop. Mechanically Inclined is the culmination of years of experimentation that merges the best of writer's workshop elements with relevant theory about how and why skills should be taught. It connects theory about using grammar in context with practical instructional strategies, explains why kids often don't understand or apply grammar and mechanics correctly, focuses on attending to the "high payoff," or most common errors in student writing, and shows how to carefully construct a workshop environment that can best support grammar and mechanics concepts. Jeff emphasizes four key elements in his teaching: short daily instruction in grammar and mechanics within writer's workshop; using high-quality mentor texts to teach grammar and mechanics in context; visual scaffolds, including wall charts, and visual cues that can be pasted into writer's notebooks; regular, short routines, like "express-lane edits," that help students spot and correct errors automatically. Comprising an overview of the research-based context for grammar instruction, a series of over thirty detailed lessons, and an appendix of helpful forms and instructional tools, Mechanically Inclined is a boon to teachers regardless of their level of grammar-phobia. It shifts the negative, rule-plagued emphasis of much grammar instruction into one which celebrates the power and beauty these tools have in shaping all forms of writing.

The Disappearing Spoon Sam Kean, 2010-07-12 From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Marie Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters? *The Periodic Table is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. THE DISAPPEARING SPOON masterfully fuses science with the classic lore of invention, investigation, and discovery--from the Big Bang through the end of time. *Though solid at room temperature, gallium is a moldable metal that melts at 84 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve them with tea, and watch guests recoil as their utensils disappear.

American Dirt (Oprah's Book Club) Jeanine Cummins, 2022-02 También de este lado hay sueños. On this side, too, there are dreams. Lydia Quixano Perez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with four books he would like to buy--two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride la

bestia--trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach el norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? American Dirt will leave readers utterly changed when they finish reading it. A page-turner filled with poignancy, drama, and humanity on every page, it is a literary achievement.-

Sand Creek and the Tragic End of a Lifeway Louis Kraft, 2020-03-12 Western Heritage Award, Best Western Nonfiction Book, National Cowboy and Western Heritage Museum Nothing can change the terrible facts of the Sand Creek Massacre. The human toll of this horrific event and the ensuing loss of a way of life have never been fully recounted until now. In Sand Creek and the Tragic End of a Lifeway, Louis Kraft tells this story, drawing on the words and actions of those who participated in the events at this critical time. The history that culminated in the end of a lifeway begins with the arrival of Algonquin-speaking peoples in North America, proceeds through the emergence of the Cheyennes and Arapahos on the Central Plains, and ends with the incursion of white people seeking land and gold. Beginning in the earliest days of the Southern Cheyennes, Kraft brings the voices of the past to bear on the events leading to the brutal murder of people and its disastrous aftermath. Through their testimony and their deeds as reported by contemporaries, major and supporting players give us a broad and nuanced view of the discovery of gold on Cheyenne and Arapaho land in the 1850s, followed by the land theft condoned by the U.S. government. The peace treaties and perfidy, the unfolding massacre and the investigations that followed, the devastating end of the Indians' already-circumscribed freedom—all are revealed through the eyes of government officials, newspapers, and the military; Cheyennes and Arapahos who sought peace with or who fought Anglo-Americans; whites and Indians who intermarried and their offspring; and whites who dared to question what they considered heinous actions. As instructive as it is harrowing, the history recounted here lives on in the telling, along with a way of life destroyed in all but cultural memory. To that memory this book gives eloquent, resonating voice.

Low Red Moon Caitlin R. Kiernan, 2007-08-07 Chance Silvey grew up in her grandparents' house on the side of Red Mountain, high above the urban sprawl of Birmingham, Alabama. Now married, with a baby on the way, she wants to move on and leave the house—and the tragic history of her family—in the past. But her future is already tainted. Chance is hallucinating, seeing blood everywhere, and is afraid to uncover what it means. Her husband, Deacon, a gifted psychic, fears being drawn into a police investigation after having a vision of a serial killer's brutality. And it all leads to a woman with a thirst for violence, hiding from something that haunts her day and night. Something even more terrible than herself...

Together they tell 53 stories of moving forward to meet all the

challenges, fears, obstacles, and problems common to the life-altering circumstances after spinal cord injury, and doing it without benefit of wealth, large settlements or solid health coverage. Ranging in age from 21 to 67, disabled from three to 48 years they share 931 years of disability experience. Roll Models is a valuable new resource for recently injured people and their families, and for nurses, therapists, psychologists and all other professionals who treat, work with and care for people with spinal cord injury. Straight from the horse's mouth, survivors explore their experiences with disability and answer many questions those in rehab are asking: Early Thoughts What were your thoughts immediately following injury? What were your initial thoughts and reactions regarding SCI and the future? The First Years What were your biggest fears during that first year or so? How did you get past those early fears? Changes, Obstacles and Solutions How much different are you now, compared to how you were before injury? What's been the biggest obstacle? How did you address these obstacles? Finding What Works What have been the most difficult things for you to deal with since injury? What's the worst thing about having an SCI and using a chair? What's been your biggest loss due to injury? Is SCI the worst thing that ever happened to you? Tell me something about your problem solving skills. How do you deal with stress? What do you do to relieve stress? Salvations, Turning Points and More Was there any one thing that was your salvation or key to your success? Was there a turning point for you when you began to feel things were going to get better? What personal factors, habits and beliefs have helped you the most? SCI and Meaning Do you find any meaning, purpose or lessons in your disability? Did any positive opportunities come your way because of your injury? What's your greatest accomplishment? What are you most proud of? A wonderful roadmap with many alternate routes to living and thriving with SCI. Minna Hong, SCI survivor and Peer Support Coordinator/Vocational Liaison, Shepherd Center Avoids the trap of providing a 'one size fits all mentality' and provides solutions as varied as the individuals used as examples. Accentuates the positives while not sugar coating the difficulties. Essential reading. Jeff Cressy SCI survivor and Director of Consumer and Community Affairs, SCI Project, Rancho Los Amigos A great resource for people as they venture out into the world, or search for meaning and a deeper, richer life. Filled with examples of real people and their real experiences. Terry Chase, ND, RN; SCI survivor; Patient & Family Education Program Coordinator, Craig Hospital A wonderful tool for the newly spinal cord injured individual, as well as the therapists and counselors working with them. This certainly hits the mark in capturing important survival strategies. Jack Dahlberg, SCI survivor, Past President of the National Spinal Cord Injury Association Artfully crafted and organized, Roll Models sensitively portrays life following spinal cord injury. Informative, creative, sensitive, as well as infused with humor and a kind heart. Recommended with my highest accolades. Lester Butt, Ph.D., ABPP, Director of the Department of Psychology, Craig Hospital
