Weaponomics: the global market for assault rifles Phillip Killicoat,2007 Abstract: This paper introduces the first effort to quantitatively document the small arms market by collating field reports and journalist accounts to produce a cross-country time-series price index of Kalashnikov assault rifles. A model of the small arms market is developed and empirically estimated to identify the key determinants of assault rifle prices. Variables which proxy the effective height of trade barriers for illicit trade are consistently significant in determining weapon price variation. When controlling for other factors, the collapse of the Soviet Union does not have as large an impact on weapon prices as is generally believed.

The FN Minimi Light Machine Gun Chris McNab,2017-02-23 In 1974, renowned Belgian arms company Fabrique Nationale brought out a ground-breaking new light machine gun, the Minimi. Its success has been meteoric, arming more than 45 countries around the world. The Minimi offers the ultimate in portable firepower. Firing the high-velocity 5.56×45mm round, the Minimi is a gas-operated, lightweight, belt- or magazine-fed weapon, able to burn through cartridges at a cyclical rate of up to 1,150 rounds per minute, making it the weapon of choice for fire support at squad level. This study uses gripping first-hand accounts and striking combat photographs, following the Minimi to war zones such as Iraq and Afghanistan. It tracks its design and development, as well as investigating what has made it so compelling a choice

for armed forces around the world for more than 40 years.

Chinese Policing Kam C. Wong, 2009 This book documents a systematic investigation into various aspects of policing in the People's Republic of China, including its scholarship, idea, origin, history, education, culture, reform, and theory. It approaches the study of Chinese policing from an indigenous perspective, informed by local empirical data. In proposing an innovative theory of community policing entitled «Police Power as a Social Resource Theory», the book seeks to look at crime as a personal problem, and police as a social resource, from the perspective of the people and not the state.
