Small Arms for Urban Combat Russell C.

Tilstra,2014-01-10 The urbanization of warfare has necessitated the kind of precision targeting that only small arms can deliver. Weapons not often seen on the battlefield can prove useful, even indispensable, in an urban setting. This expert reference guide examines in detail the most successful small arms in use and how changes in warfare have affected how those weapons are used and have transformed the small arms industry. Professional soldiers, law enforcement officers and students and researchers of small arms will gain a working knowledge of the most common and successful urban combat weapons (including some currently in development).

The MP5 Submachine Gun Leroy Thompson,2014-07-20

Since the mid-1960s the Heckler & Koch MP5 has become the most widely used submachine gun in the world, especially among counterterrorist and special-operations units. Lightweight and offering a blistering rate of fire of up to 900 rounds per minute, the MP5 quickly earned a reputation for accuracy. Fielded early by West Germany's GSG 9 counterterrorist unit it was soon adopted by the SAS. Today military and police agencies in over 80

countries from Albania to Zambia utilize the weapon. Featuring specially commissioned full-color photographs and expert analysis, this engaging study charts the origins, use, and impact of the MP5, Heckler & Koch's innovative and long-lived submachine gun.

Heckler and Koch's Mp5 Submachine Gun Frank W. James, 2003 Examine the life history of a legendary firearm favored by police SWAT and military counter-terrorist teams. As the first comprehensive study of the MP5 submachine gun, this reference discusses the MP5's development and evolution, manufacturing process, p

At the Crossroads of Sahelian Conflicts Savannah de Tessières, 2018 In addition to an analysis of the types of armed violence that prevail in Niger, including terrorism, communal conflict, and armed banditry, this Report examines arms trafficking in the country and the illicit possession of weapons by civilians, as well as by armed entities and terrorist groups. The Report also provides an overview of the responses to insecurity in Niger by the national authorities, their international partners, and non-state actors, and discusses the main impacts of insecurity on the country. Finally, the Report also includes an Annexe listing all illicit small-calibre ammunition documented by the Small Arms Survey in Niger in 2016 and 2017, the type of armed actors from which it was seized, and information regarding where else in the Sahel it is also in use, shedding significant light on trends in the illicit movement of military materiel in the region.

Under the Gun David H. Capie, 2003 This study

examines challenges presented by small arms and light weapons in the Pacific. It focuses primarily on the Solomon Islands, Fiji, Papua New Guinea and Vanuatu, although it also considers other members of the Pacific Islands Forum.

Future Weapons Kevin Dockery, 2007-12-04 On the battlefield, a soldier's best friends are his gun and his gear—because his life depends on them. But what will it take to fight and survive on the battlefields of tomorrow? What will those combat arenas consist of, and where will they be? And what will our nation's fighting men and women carry with them into battle? *Future Weapons* is a compendium of the weapons of war that may accompany our soldiers in the near and far future, as well as an insightful look at the soldier, sailor, and airman of today and tomorrow. All manner of military hardware is covered, as well as information about cutting-edge technology that will become standard in weapons to come, the possibility of robotic soldiers, vehicles, protective armor, and the prospects of fighting a war in both space and cyberspace.

Small Arms of the World W. H. B. Smith, 2013-10 This is a new release of the original 1948 edition.

Afghanistan, Arms and Conflict Michael Vinay Bhatia, Mark Sedra, 2008-05-05 This is the first book to provide a comprehensive assessment of small arms and security-related issues in post-9/11 Afghanistan. It includes case studies which reveal the findings of in-depth field research on hitherto neglected regions of the

country, and provides a distinctive balance of thematic analysis, conceptual models and empirical research. Exploring various facets of armed violence and measures to tackle it, the volume provides significant insight into broader issues such as the efficacy of international assistance, the 'shadow' economy, warlordism, and the Taliban-led insurgency. In an effort to deconstruct and demystify Afghanistan's alleged 'gun culture', it also explores some of the prevailing obstacles and opportunities facing the country in its transition period. In so doing, the book offers valuable lessons to the state-builders of Afghanistan as well as those of other countries and regions struggling to emerge from periods of transition. This book will be of much interest to all students of Afghanistan, small arms, insurgency, Asian Studies, and conflict studies in general.
