The City and the Ship Anne McCaffrey, S. M. Stirling, 2004-03-01 Two novels in one large volume, both set in the same universe as *The Ship Who Sang*: *The City Who Fought*: Simeon was bored with running the mining and processing station that made up his body. If anyone was to survive, somehow he must transform his wargaming hobby into the real thing and become *The City Who Fought*. *The Ship Avenged*: Ten years later, Joat, the eleven year old techno-demon heroine of the first novel is now an adult herself. She and her ship are on the trail of the Kolnari space raiders, trying to stop them before they can spread an infectious, mind-destroying disease among the inhabited stars and destroy civilization throughout the galaxy. At the publisher's request, this title is sold without DRM (Digital Rights Management). Anne McCaffrey and S.M. Stirling have, in *The City Who Fought*, combined her brain-ships and his military expertise to produce a superior book. ³/₄Chicago Sun-Times McCaffrey and Stirling create vivid heroes and villains in a complex and deadly game. ³/₄Publishers Weekly Intriguing . . . McCaffrey and Stirling have produced a book that expands the boundaries of the series to which it belongs, yet remains consistent with the cycle's overall design. Fans of both writers should be more than pleased. ³/₄Dragon [The Ship Avenged is a] compelling story of resourcefulness and politics in space. ³/₄ Midwest Book Review

Extraordinary Animals Ross Piper, 2007-08-30 Animals have existed on Earth for many hundreds of millions of years. In that time they have evolved into a great variety of forms, exploiting nearly every habitat the planet has to offer. In the dark depths of the oceans, in the seemingly inhospitable Polar

Regions, in the driest deserts, even within the bodies of other animals, there are animal species that have developed unique and extraordinary means of surviving and thriving. *Extraordinary Animals: An Encyclopedia of Curious and Unusual Animals* is an exploration of those members of the animal kingdom who possess strange and bizarre adaptations that allow them to survive in the most extreme environments, or whose complex lives can only be said to be bewildering. From the tar-baby termite to the blue whale, from the harpy eagle to the naked mole rat, these species reflect the exceptionally broad spectrum of life, showing just how diverse the animal kingdom is. *Extraordinary Animals* has been thoroughly researched for scientific accuracy, but is accessibly written in everyday language. Each entry includes a description of the animal, an explanation of its odd behavior, other interesting scientific and trivial facts, and black and white illustrations. In addition, a fun and interactive Go Look section encourages readers to go look for the animals in the outside world.

The City Who Fought Anne McCaffrey, S.M. Stirling, 2022-05-03 A SCIENCE FICTION CLASSIC BACK IN PRINT! Simeon was a shell-person—the brain who ran Space Station SSS-900 on the fringes of human space. But things hadn't been going too well lately, and he was more than a little discontented. Though normally he enjoyed his work, these days it seemed boring. To make matters worse, his long-time partner had just retired and he was having a hard time adjusting to his newly assigned brawn—a strong-willed woman named Channa Hap who seemed to feel it her duty to keep

him in line. He's buried himself in his favorite pastime—wargaming. Simeon's hobby would find unexpected uses when the brutal Kolnari attack the nearby colony planet Bethel. Sheltering the colony's refugees brought "the city" an invitation to serious trouble with Kolnari pirates. And only Simeon and Channa working together can save the city. At the publisher's request, this title is sold without DRM (Digital Rights Management). The Ship Who Saved the Worlds Anne McCaffrey,Jody Lynn Nye,2003-12-01 Two complete novels in one huge volume: *The Ship Who Won*: Like Helva, the Ship Who Sang, Cerialle was born severely physically disadvantaged; and like Helva, Cerialle decided she would strap on a spaceship. Her brawn is a guy named Keff. Searching the galaxy for intelligent beings, they found fuzzy little aliens, polite and eager to please. Unfortunately, they were slaves to a race of sorcerers, who possess powers of frightening potency, and who were neither polite nor the least bit eager to please. *The Ship Errant*: Cerialle and Keff had succeeded in liberating the globe-frogs from their servitude to dictatorial humans, but now they must return them from whence they came. And to get there, they must transit a sector where Cerialle was stopped and boarded, experiencing a trauma so intense it nearly destroyed her mind. And it's beginning to look as if the beings who caused this are the very globe-frogs they have just made friends with. . . . At the publisher's request, this title is sold without DRM (Digital Rights Management). Fast, furious and fun. ¾Chicago Sun-Times Bright and bubbly entertainment. ¾Kirkus Reviews Oodles of fun. ¾Locus Readers will find themselves riveted by the nonstop action adventure that constantly surpasses even the most jaded reader's expectations, and by a relationship as beautiful as it is indestructible. ¾Affaire de Coeur

Antifascisms David Ward,1996 This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, *Antifascisms* offers a thorough survey of the personalities and positions that informed the decisions taken in this

crucial phase of modern Italian history.

Dinosaurs... in Spaaace! (none),Greg Stolze,2011-10-03 A satirical rules-light roleplaying game of rockets, greasers, and time travel.

Kithbook Peter Woodworth,2001-06 The gates to Arcadia, the original paradise, are closed. Only the world of humanity remains. Without any awareness of our true nature, humankind crushes us beneath its banal heel. Joy and laughter are gone; only the Dreaming remains. We are changelings, the forgotten ones, neither fully fae nor wholly mortal. The last of our kind on Earth, we have built ourselves an invisible kingdom. We are everywhere, yet you have never seen us. We hide, not behind some fragile Masquerade, but in plain sight with the power of our Glamour. We exist within a real world of make-believe where imaginary things can kill and pretend monsters are real. Kithbooks contain vital character information for players and Storytellers.

The Ship Who Searched Anne McCaffrey, Mercedes Lackey, 2013-02-05 A young woman becomes paralyzed and must become a brainship^{3/4} and find her Brawn, her human soul mate, so that she can discover a cure for her illness. Tia Cade is a headstrong, smart, and very normal girl until she contracts a terrible illness that leaves her with the bare semblance of life. Tia's only hope: to become the oldest person ever to train to be one of the legendary star travelers, the brainships. But now that Tia is free of her ravaged body, there still remains the task of finding the right partner to be her Brawn, the human element every brainship requires. And when the disease that debilitated Tia threatens thousands more, selecting a Brawn who is her true soul mate may allow Tia to find the origin of the terrible plague^{3/4} and perhaps even a cure.
