Gregory D. Booth,Bradley Shope

More Than Bollywood Gregory D. Booth,Bradley Shope,2014 This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

Under the Sea Origami Duy Nguyen,2005 From a slithering electric eel to a ferocious barracuda, Duy Nguyen shows you simple paper folding techniques for crafting extraordinary sea creatures. These striking projects, specially designed for Under the Sea Origami, are fun to make using Nguyen's instructions. You don't have to dive under the sea to spot dolphins because these mammals enjoy jumping out of the water. Your origami model will emulate this graceful leaping motion once you create its intricately-folded arched back, fins, and snout. With a long, wide body and whip-like tail, the stingray is a most distinctive-looking fish. It appears to be in mid-flight even though it's nimbly swimming in the water. The hammerhead shark is easily recognized by the shape of its skull. A large tail, made by using mountain and valley folds, rises dramatically to give the hammerhead a great silhouette. The origami blue shark, on the other hand, will attract attention because of its large gaping mouth! To complete the swordfish, you'll need to attach two pieces of folded paper together. Anyone might be frightened by the appearance of a creature that has a swordlike beak and pointy head, unless it was made of paper like this one is! The squid is as fun to create as the swordfish. Its creepy tentacles will take shape after you cut the valley-folded tail into layers. You will find that these unusual origami projects are among the most original ever designed. Book jacket.

Float Daniel Miyares,2015-06-09 A boy's small paper boat—and his large imagination—fill the pages of this wordless picture book, a modern-day classic from the creator of Pardon Me! that includes endpaper instructions for building a boat of your own. Kings, Queens and Pawns: An American Woman at the Front Mary Roberts Rinehart,2019-12-02 This collection by journalist and mystery writer Mary Roberts Rinehart contained her observations on her travels during 1914 when she went to Europe alone to cover World War I. She wonderfully describes everything from being received by King Albert in Belgium and recording his first certified statement on the war to meeting Winston Churchill and travelling to the English and French front lines as the first reporter allowed. Moreover, she made some interesting observations on the people, places and events she came across during her time there. Apart from being a travel book, this work was, more importantly, a humanitarian plea to Americans to join the war effort three years before the American Expeditionary Force set sail for Europe.
