Expanded Animation Jeremiah Diephuis, Jürgen Hagler, Alexander Wilhelm, Michael Lankes, 2019-04-30 The symposium Expanded Animation was initiated in 2013 and offered a first approach to the expanded field of computer animation. In the meantime, it has become an established part of the Ars Electronica Animation Festival and the international competition Prix Ars Electronica Computer Animation. Every year under an overarching theme, the symposium has researched the field of technology and art, animation and aesthetics, investigated the collapsing boundaries in digital animation and explored positions and future trends. Much like the first conferences on computer animation at Ars Electronica in the 1980s, practice and theory are equally important. The richly illustrated publication Expanded Animation. The Anthology features contributions from speakers and artist positions from the past five years and presents an overview of the prize winners in Computer Animation.

Hidden Alliances Elisabeth Schimana, 2020-02-18 Where are all of the women in the avant-garde electronic music scene? Anyone who thinks they do not exist is totally wrong. It is, however, a fact that hardly anyone has done

any research on them or written about them. Wondering about a world allegedly lacking in female electronic musicians, Elisabeth Schimana began a search in the late 1990s and the initial results of her research went into her performance Portrait 01 - Die Futuristin (Portrait 01 - the female futurists). Her research brought her into the sphere of electronic music, which culminated in the founding of the IMA- Institute for Media Archaeology. Now, this publication presents twenty female artists and their work. The artists create a somewhat different picture of the creation and development of electronic music. This illustrated volume is as intriguing as it is fascinating, and, above all, a significant portrait of this new history.

Interface Cultures Christa Sommerer, Laurent Mignonneau, Dorothee King, 2015-07-31 From media art archeology to contemporary interaction design - the term interface culture is based on a vivid and ongoing discourse in the fields of interactive art, interaction design, game design, tangible interfaces, auditory interfaces, fashionable technologies, wearable devices, intelligent ambiances, sensor technologies, telecommunication and new experimental forms of human-machine, human-human and machine-machine interactions and the cultural discourse surrounding them. This book's aim is to give an overview of the current state of interactive art and interface technology as well as an outlook on new forms of hybridization in art, media, scientific research and every-day media applications.

Memphis Noir Laureen P. Cantwell, Leonard Gill, 2015-11-03 "A collection of

stories celebrating the underbelly of the city, its ghosts, and the characters that give Memphis its rich patina of blues.” –Memphis Flyer The Home of the Blues knows how darkness can permeate a person’s soul—and what it can drive you to do. It’s the soundtrack to a city that’s made up of equal parts hope and despair, past and present, death and rebirth. On the streets of Memphis, noir hits the right note. Memphis Noir features stories by city standouts Richard J. Alley, David Wesley Williams, Dwight Fryer, Jamey Hatley, Adam Shaw, Penny Register-Shaw, Kaye George, Arthur Flowers, Suzanne Berube Rorhus, Ehi Ike, Lee Martin, Stephen Clements, Cary Holladay, John Bensko, Sheree Renée Thomas, and Troy L. Wiggins. “A remarkable picture of contemporary Memphis emerges in this Akashic noir volume . . . Something for everyone.” –Publishers Weekly “Covers train cars and Beale Street, hoodoo and segregation, Nathan Bedford Forrest and, of course, Graceland, and even includes a graphic novella.” –Memphis Flyer “Captures the subtlety of the Memphis ethos, where blacks and whites, rich and poor, are intimately entwined. The collection—fifteen stories by some of the city’s finest writers—bleeds the blues and calls down the dark powers that permeate this capital of the Delta.” –The Commercial Appeal (Memphis) “The new anthology Memphis Noir is replete with murders, ghosts, gangsters, a sharp-toothed baby, Boss Crump, and high water on the bluff.” –Memphis Magazine

the Introduction. This excellent volume conceives of Baldwin as a figure crucial to discussions of whiteness, sexuality, and globalization. The times are ripe for the valuable reconsideration of Baldwin that *James Baldwin Now* provides. --Jennifer DeVere Brody, George Washington University

One of the most prolific and influential African American writers, James Baldwin was for many a harbinger of hope, a man who traversed the genres of art-writing novels, essays, and poetry. *James Baldwin Now* takes advantage of the latest interdisciplinary work to understand the complexity of Baldwin's vision and contributions without needing to name him as exclusively gay, expatriate, black, or activist. It was, in fact, Baldwin who said, it is quite impossible to write a worthwhile novel about a Jew or a Gentile or a Homosexual, for people refuse... to function in so neat and one-dimensional a fashion. McBride has gathered a unique group of new scholars to interrogate Baldwin's life, his presence, and his political thought and work. *James Baldwin Now* finally addresses the man who spoke, and continues to speak, so eloquently to crucial issues of the twentieth century.

Triplanetary E. E. Smith, 2023-06-30 Hundreds of millions of years ago, two near-omnipotent alien races encountered each other, beginning a conflict that will shape the history of the entire universe. The benevolent Arisians covertly influence humanity, hoping to create a people capable of one day defeating the vile Eddorians, who are waging their own campaign for the fate of civilization on Earth. This sets the stage for a clash between the Triplanetary League of the inner solar system, the enigmatic pirate-scientist Roger, and the Nevians, interlopers whose first appearance wreaks havoc among the other parties. Triplanetary is the first of Edward E. “Doc” Smith’s Lensman series, an early and influential entry in the space opera genre. Originally serialized in Amazing Stories in 1934 as a stand-alone story,

Triplanetary was collected in book form in 1948 with six new chapters and numerous additions, changing the story to be a prequel to the rest of the Lensman series.

Computer War Mack Reynolds, 2019-10-24 The odds were right for victory. The problem with computer warfare is that the computer is always logical while the human enemy is not - or doesn't have to be. And that's what the Betastani enemy were doing—nothing that the Alphaland computers said they would. Those treacherous foemen were avoiding logic and using such unheard-of devices as surprise and sabotage, treason and trickery. They even had Alphaland's Deputy of Information believing Betastani propaganda without even realizing it. Of course he still thought he was being loyal to Alphaland, because he thought that one and one must logically add up to two. And that kind of thinking could make him the biggest traitor of them all.

The Iron Dream Norman Spinrad, 2014-06-30 Norman Spinrad's 1972 alternate history, gives us both a metafictional what-if novel and a cutting satire of one of the 20th century's most evil regimes . . . In 1919, a young Austrian artist by the name of Adolf Hitler immigrated to the United States to become an illustrator for the pulp magazines and, eventually, a Hugo Award-winning SF author. This volume contains his greatest work, *Lord of the Swastika*: an epic post-apocalyptic tale of genetic 'true man' Feric Jagger and his quest to purify the bloodline of humanity by ruthlessly slaughtering races of the genetically impure - a quest Norman Spinrad expertly skewers through ironic imagery and over-the-top rhetoric. Spinrad hoped to expose some unpalatable truths about much of SF and Fantasy literature and its uncomfortable relationship with fascist ideologies - an aim that was not always apparent to neo-fascist readers. In order to make his aims clear to the hard-of-understanding, Spinrad added an imaginary critical analysis by a fictional literary scholar, Homer Whipple, of New York University.

Second Stage Lensmen Edward Elmer Smith, 2021-08-30 In the 'Second Stage Lensmen', Kimball and Clarissa's impending marriage is put on hold as the Boskonian organization, thought to be destroyed, resurfaces, threatening civilization. Earth faces an imminent attack, prompting the Lensmen to develop new defenses against the enemy's destructive weapons. Kinnison embarks on a perilous mission to Lyrane, a planet ruled by powerful women, suspected of having ties to Boskone. As the battle intensifies, Kinnison

discovers a shocking truth about Boskonian's leadership and must lead the Galactic Patrol in a desperate struggle for control over both galaxies.
