Despised Paul Embery,2020-11-18 The typical contemporary Labour MP is almost certain to be a university-educated Europhile who is more comfortable in the leafy enclaves of north London than the party's historic heartlands. As a result, Labour has become radically out of step with the culture and values of working-class Britain. Drawing on his background as a firefighter and trade unionist from Dagenham, Paul Embery argues that this disconnect has been inevitable since the Left political establishment swallowed a poisonous brew of economic and social liberalism. They have come to despise traditional working-class values of patriotism, family and faith and instead embraced globalisation, rapid demographic change and a toxic, divisive brand of identity politics. Embery contends that the Left can only revive if it speaks once again to the priorities of working-class people by combining socialist economics with the cultural politics of belonging, place and community. No one who wants to really understand why our politics has become so dysfunctional and what the Left can do to fix it can afford to miss this authentic, insightful and passionate book.

Under the Sea Origami Duy Nguyen,2005 From a slithering electric eel to a ferocious barracuda, Duy Nguyen shows you simple paper folding techniques for crafting extraordinary sea creatures. These striking projects, specially designed for Under the Sea Origami, are fun to make using Nguyen's instructions. You don't have to dive under the sea to spot dolphins because these mammals enjoy jumping out of the water. Your origami model will emulate this graceful leaping motion once you create its intricately-folded arched back, fins, and snout. With a long, wide body and whip-like tail, the stingray is a most distinctive-looking fish. It appears to be in mid-flight even though it's nimbly swimming in the water. The hammerhead shark is easily recognized by the shape of its skull. A large tail, made by using mountain and valley folds, rises dramatically to give the hammerhead a great silhouette. The origami blue shark, on the other hand, will attract attention because of its large gaping mouth! To complete the swordfish, you'll need to attach two pieces of folded paper together. Anyone might be frightened by the appearance of a creature that has a swordlike beak and pointy head, unless it was made of paper like this one is! The squid is as fun to create as the swordfish. Its creepy tentacles will take shape after you cut the valley-folded tail into layers. You will find that these unusual origami projects are among the most original ever designed. Book jacket.

Jungle Animal Origami Duy Nguyen,2004 Explains how to create numerous jungle animals, including vultures, gorillas, lions, zebras, gazelles, and elephants.
