If It's Purple, Someone's Gonna Die: The Power of Color in Visual Storytelling Patti Bellantoni, 2012-10-02

If it's Purple, Someone's Gonna Die is a must-read book for all film students, film professionals, and others interested in filmmaking. This enlightening book guides filmmakers toward making the right color selections for their films, and helps movie buffs understand why they feel the way they do while watching movies that incorporate certain colors. Guided by her twenty-five years of research on the effects of color on behavior, Bellantoni has grouped more than 60 films under the spheres of influence of six major colors, each of which triggers very specific emotional states. For example, the author explains that films with a dominant red influence have themes and characters that are powerful, lusty, defiant, anxious, angry, or romantic and discusses specific films as examples. She explores each film, describing how, why, and where a color influences emotions, both in the characters on screen and in the audience. Each color section begins with an illustrated Home Page that includes examples, anecdotes, and tips for using or avoiding that particular color. Conversations with the author's colleagues-- including award-winning production designers Henry Bumstead (Unforgiven) and Wynn Thomas (Malcolm X) and renowned cinematographers Roger Deakins (The Shawshank Redemption) and Edward Lachman (Far From Heaven)--reveal how color is often used to communicate what is not said. Bellantoni uses her research and experience to

demonstrate how powerful color can be and to increase readers awareness of the colors around us and how they make us feel, act, and react. *Learn how your choice of color can influence an audience's moods, attitudes, reactions, and interpretations of your movie's plot *See your favorite films in a new light as the author points out important uses of color, both instinctive and intentional *Learn how to make good color choices, in your film and in your world.

Tom Cruise Andrew Morton, 2008-01-15 Andrew Morton uncovers the true story of the biggest celebrity of our age. Everyone knows Tom Cruise—or at least what he wants us to know. We know that the man behind the smile overcame a tough childhood to star in astonishing array of blockbusters: Top Gun, Rain Man, Born on the Fourth of July, A Few Good Men, Jerry Maguire, several Mission: Impossible movies, and more. We know he has taken artistic chances, too, earning him three Academy Award and Golden Globe nominations. But beyond that, the picture becomes a bit less clear... We know that Tom is a devoted follower of the Church of Scientology. We know that, despite persistent rumors about his sexuality, he has been married to Mimi Rogers, Nicole Kidman, and Katie Holmes. But it was not until he jumped on Oprah's couch to proclaim his love for Katie and denounced Brooke Shields for turning to the Nazi science of psychiatry that we began to realize how much we did not know about the charming, hardworking star. For all the headlines and the rumors, the real Tom Cruise has remained surprisingly hidden—until now.

100 Great War Movies Robert J. Niemi, 2018-04-04 This book serves as a fascinating guide to 100 war films from 1930 to the present. Readers interested in war movies will learn surprising anecdotes about these films and will have all their questions about the films' historical accuracy answered. This cinematic guide to war movies spans 800 years in its analysis of films from those set in the 13th century Scottish Wars of Independence (Braveheart) to those taking place during the 21st-century war in Afghanistan (Lone Survivor). World War II has produced the largest number of war movies and continues to spawn recently released films such as Dunkirk. This book explores those, but also examines films set during such conflicts as the Napoleonic Wars, the American Civil War, World War I, the Vietnam War, and the wars in Afghanistan and Iraq. The book is organized alphabetically by film title, making it easy to navigate. Each entry is divided into five sections: Background (a brief discussion of the film's genesis and financing); Production (information about how, where, and when the film was shot); Synopsis (a detailed plot summary); Reception (how the film did in terms of box office, awards, and reviews) and Reel History vs. Real History (a brief analysis of the film's historical accuracy). This book is ideal for readers looking to get a vivid behind-the-scenes look at the greatest war movies ever made.

SubUrbia Eric Bogosian, 1995 From playwright and bestselling author of Notes from the Underground comes a story of high school friends, lingering in

Burnfield long after graduation. While some see Burnfield as the suburban ideal of quiet comfort, the suffocating safe world only feeds their frustrations, and a night of drinking and partying careens recklessly toward violence, despair and death.

Steven Spielberg and Philosophy Dean A. Kowalski, 2008-11-21 "This lively collection of essays on the ideas underpinning his films enriches and enlarges our understanding of Spielberg's complex body of work." –Joseph McBride, author of *Steven Spielberg: A Biography* Few directors have had as powerful an influence on the film industry and the movie-going public as Steven Spielberg. Whatever the subject—dinosaurs, war, extra-terrestrials, slavery, the Holocaust, or terrorism—one clear and consistent touchstone is present in all of Spielberg's films: an interest in the human condition. In movies ranging from *Jaws* to *Schindler's List* to *Amistad* to *Jurassic Park*, he has brought to life some of the most popular heroes—and most despised villains—of all time. In *Steven Spielberg and Philosophy*, Dean A. Kowalski and some of the nation's most respected philosophers investigate Spielberg's art to illuminate the nature of humanity. The book explores rich themes such as cinematic realism, fictional belief, terrorism, family ethics, consciousness, virtue and moral character, human rights, and religion in Spielberg's work. Avid moviegoers and deep thinkers will discover plenty to enjoy in this collection.

Translation Goes to the Movies Michael Cronin, 2008-09-24 This highly

accessible introduction to translation theory, written by a leading author in the field, uses the genre of film to bring the main themes in translation to life. Through analyzing films as diverse as the Marx Brothers' *A Night at the Opera*, *The Star Wars Trilogies* and *Lost in Translation*, the reader is encouraged to think about both issues and problems of translation as they are played out on the screen and issues of filmic representation through examining the translation dimension of specific films. In highlighting how translation has featured in both mainstream commercial and arthouse films over the years, Cronin shows how translation has been a concern of filmmakers dealing with questions of culture, identity, conflict and representation. This book is a lively and accessible text for translation theory courses and offers a new and largely unexplored approach to topics of identity and representation on screen. *Translation Goes to the Movies* will be of interest to those on translation studies and film studies courses.

The governance of global entertainment media: state and inter-state media and cultural policies and regulations that govern the production, distribution and exhibition of entertainment media and enable or impede its cross-border flow. The new international division of cultural labor (NICL): the cross-border production of entertainment by cultural workers in asymmetrically interdependent media capitals, and economic and cultural concerns surrounding runaway productions and co-productions. The economic motivations and textual design features of globally popular entertainment forms such as blockbuster event films, TV formats, glocalised lifestyle brands and synergistic media. The cross-cultural reception and effects of TV shows and films. The World Wide Web, digitization and convergence culture.

TiVo Hacks Raffi Krikorian, 2003-08-22 TiVo Hacks helps you get the most out of your TiVo personal video recorder. Armed with just a screwdriver and basic understanding of PC hardware (or willingness to learn), preeminent hackability awaits. This book includes hacks for changing the order of recorded programs, activating the 30-second skip to blaze through commercials, upgrading TiVo's hard drive for more hours of recording, use of TiVo's Home Media Option to remotely schedule a recording via the Web, log in to the serial port for command-line access to programming data, log files, closed-captioning data, display graphics on the TiVo screen, and even play MP3s. Readers who use advanced hacks to put TiVo on their home network via the serial port, Ethernet, USB, or wireless (with 802.11b WiFi) will watch a whole new world open up. By installing various open source software packages, you can use TiVo for mail, instant messaging, caller-ID, and more. It's also easy to run a web server on TiVo to schedule recordings, access lists of recorded shows, and even display them on a web site. While TiVo gives viewers personalized control of their TVs, TiVo Hacks gives users personalized control of TiVo. Note: Not all TiVos are the same. The original TiVo, the

Series 1, is the most hackable TiVo out there; it's a box thrown together with commodity parts and the TiVo code is running on open hardware. The Series 2 TiVo, the most commonly sold TiVo today, is not open. You won't see hacks in this book that involve modifying Series 2 software.

Post-Pop Cinema Jesse Fox Mayshark, 2007-05-30 Starting in the early 1990s, artists such as Quentin Tarantino, David Foster Wallace, and Kurt Cobain contributed to a swelling cultural tide of pop postmodernism that swept through music, film, literature, and fashion. In cinema in particular, some of the arts most fundamental aspects—stories, characters, and genres, for instance—assumed such a trite and trivialized appearance that only rarely could they take their places on the screen without provoking an inward smirk or a wink from the audience. Out of this highly self-conscious and world-weary environment, however, a new group of filmmakers began to develop as the decade wore on, with a new set of styles and sensibilities to match. In *Post-Pop Cinema* author Jesse Fox Mayshark takes us on a film-by-film tour of the works of these filmmakers—including Wes and P. T. Anderson, Sofia Coppola, Richard Linklater, Alexander Payne, and David O. Russell—and seeks to reveal how a common pool of styles, collaborators, and personal connections helps them to confront the unifying problem of meaning in American film. Wes Anderson's *Bottle Rocket* (1996) and Paul Thomas Anderson's *Boogie Nights* (1997) were ultimately about their characters' lives—even though their characters often dealt with highly contrived environments and situations. And

soon after Wes Anderson scored his first success, others like David O. Russell (Flirting With Disaster, Three Kings), the screenwriter Charlie Kaufman (who collaborated with Spike Jonze on such projects as Being John Malkovich and Adaptation), Alexander Payne (Election, Sideways), Richard Kelly (Donnie Darko), and Sofia Coppola (Lost in Translation) began to tread their own paths over this same ground. Although these men and women represent a wide range of styles and subject matter, all their films revolve in different ways around the difficulty of establishing and maintaining connections. This theme of connection also runs deeper than the films made: the directors share actors (Mark Wahlberg, Bill Murray, Ben Stiller, Jason Schwartzman), collaborators (the musician Jon Brion) and sometimes even personal connections (Spike Jonze starred in Russell's Three Kings, and was married to Coppola). Together these filmmakers form a loose and distinctly American school of filmmaking, one informed by postmodernism but not in thrall to it, and one that every year becomes more important to the world of cinema both within and beyond the United States.

War Letters Andrew Carroll, 2008-06-23 In 1998, Andrew Carroll founded the Legacy Project, with the goal of remembering Americans who have served their nation and preserving their letters for posterity. Nearly two hundred of them comprise this amazing collection -- including never-before-published letters that appear in the new afterword. Here are letters from the Civil War, World

War I, World War II, Korea, the Cold War, Vietnam, the Persian Gulf war, Somalia, and Bosnia -- dramatic eyewitness accounts from the front lines, poignant expressions of love for family and country, insightful reflections on the nature of warfare. Amid the voices of common soldiers, marines, airmen, sailors, nurses, journalists, spies, and chaplains are letters by such legendary figures as Gen. William T. Sherman, Clara Barton, Theodore Roosevelt, Ernie Pyle, Gen. Douglas MacArthur, Julia Child, Gen. Norman Schwarzkopf, and Gen. Benjamin O. Davis Sr. Collected in War Letters, they are an astonishing historical record, a powerful tribute to those who fought, and a celebration of the enduring power of letters.

Simple But Not Easy Richard Oldfield,2011-09-30 Described by the author as a slightly autobiographical and heavily biased book about investing, Simple But Not Easy has plenty of interest to the experienced professional, and is

aimed also at the interested amateur investor. The theme of the book is that investment is simpler than non-professionals think it is in that the rudiments can be expressed in ordinary English, and picked up by anybody. It is not a science. But investment is also difficult. People on the outside tend to think that anyone on the inside should be able to do better than the market indices. This is not so. Picking the managers who are likely to do better is a challenge. Richard Oldfield begins with a candid confession of some of his worst mistakes and what they have taught him. He discusses the different types of investment, why fees matter, and the importance of measuring performance properly. He also outlines what to look for, and what not to look for in an investment manager, when to fire a manager, and how to be a successful client.
