

Giovannino N7 Paper Toy

Jane Turner

Memory, Family, and Self Giovanni Ciappelli,2014-04-10 The book deals with both a reconstruction of Tuscan family books' evolution and persistency, and several aspects of social history: reading and private libraries, domestic devotion, the memory of historical events. Starting with the Renaissance, the investigation broadens to the 17th-18th centuries and other forms of memory: private diaries and autobiographies. A final section is dedicated to the issue of memory in the egodocuments of early modern Europe.

Giovanni Segantini Beat Stutzer,Roland Wäspe,1999 The artist Giovanni Segantini was a leading member of the European avant-garde of his day. He was hailed as an 'innovator', a 'prophet' and a 'revolutionary': in an obituary one critic called him a Secession in his own right. His work was to be seen in public and private collections alike, and had a major effect on art in Europe at the time. Even the Futurists cited him as a role-model. This is the first ever Segantini monograph in English. It offers the public an opportunity to see important paintings and drawings by this artist, including his famous triptych La vita - La natura - La morte (Live - Nature - Death). With in-depth essays on the artist's oeuvre - from his early genre paintings, influenced by Realism, right up to his symbolic depictions of Nature in a Divisionist style - this publication is an up-to-date, comprehensive monograph on Giovanni Segantini.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Computer Vision – ECCV 2022 Shai Avidan,Gabriel Brostow,Moustapha Cissé,Giovanni Maria Farinella,Tal Hassner,2022-10-28 The 39-volume set, comprising the LNCS books 13661 until 13699, constitutes the refereed proceedings of the 17th European Conference on Computer Vision, ECCV 2022, held in Tel Aviv, Israel, during October 23–27, 2022. The 1645 papers presented in these proceedings were carefully reviewed and selected from a total of 5804 submissions. The papers deal with topics such as computer vision; machine learning; deep neural networks; reinforcement learning; object recognition; image classification; image processing; object detection; semantic segmentation; human pose estimation; 3d reconstruction; stereo vision; computational photography; neural networks; image coding; image reconstruction; object recognition; motion estimation.

The Craft of Art Georgia Museum of Art,1995 In this collection of nine essays some of the preeminent art historians in the United States consider the relationship between art and craft, between the creative idea and its realization, in Renaissance and Baroque Italy. The essays, all previously unpublished, are devoted to the pictorial arts and are accompanied by nearly 150 illustrations. Examining works by such artists as Michelangelo, Titian, Volterra, Giovanni di Paolo, and Annibale Carracci (along with aspects of the artists' creative processes, work habits, and aesthetic convictions), the essayists explore the ways in which art was conceived and produced at a time when collaboration with pupils, assistants, or independent masters was an accepted part of the artistic process. The consensus of the contributors amounts to a revision, or at least a qualification, of Bernard Berenson's interpretation of the emergent Renaissance ideal of individual genius as a measure of original artistic achievement: we must accord greater influence to the collaborative, appropriative conventions and practices of the craft workshop, which persisted into and beyond the Renaissance from its origins in the Middle Ages. Consequently, we must acknowledge the sometimes rather ordinary beginnings of some of the world's great works of art--an admission, say the contributors, that will open new avenues of study and enhance our understanding of the complex connections between invention and execution. With one exception, these essays were delivered as lectures in conjunction with the exhibition The Artists and Artisans of Florence: Works from the Horne Museum hosted by the Georgia Museum of Art in the fall of 1992.

Gold, Silver, and Bronze Jennifer Montagu,2023-10-17 An in-depth look at the exquisite metal sculpture of the Roman baroque Roman baroque sculpture is usually thought of in terms of large-scale statues in marble and bronze, tombs, or portrait busts. Smaller bronze statuettes are often overlooked, and the extensive production of sculptural silver—much of which is now lost but can be studied from drawings—is frequently omitted from the histories of art. In this book, Jennifer Montagu enriches our understanding of the sculpture of the period by investigating the bronzes that adorn the great tabernacles of Roman churches; gilded silver, both secular and ecclesiastical; elaborately embossed display dishes; and the production of medals. Concentrating on selected pieces by such master sculptors as Bernini and leading metal-workers such as Giovanni Giardini, Montagu examines the often tortuous relationship between patrons and artists and elucidates the relationship between those who provided the drawings or models and the craftsmen who executed the finished sculptures.

EVALITA Proceedings of the Eighth Evaluation Campaign of Natural Language Processing and Speech Tools for Italian Final Workshop AA.VV.,2024-01-17 EVALITA 2023 is an initiative of AILC (Associazione Italiana di Linguistica Computazionale) and it is endorsed by the Italian Association for Artificial Intelligence (AIxIA) and the Italian Association for Speech Sciences (AISV). As in the previous editions, EVALITA 2023 is organized along a set of selected tasks, which provide participants with opportunities to discuss and explore both emerging and traditional areas of Natural Language Processing and Speech for Italian. The participation is encouraged for teams working both in academic institutions and industrial organizations.
