The Willpower Instinct Kelly McGonigal, 2013-12-31 Based on Stanford University psychologist Kelly McGonigal's wildly popular course *The Science of Willpower*, *The Willpower Instinct* is the first book to explain the science of self-control and how it can be harnessed to improve our health, happiness, and productivity. Informed by the latest research and combining cutting-edge insights from psychology, economics, neuroscience, and medicine, *The Willpower Instinct* explains exactly what willpower is, how it works, and why it matters. For example, readers will learn:

- Willpower is a mind-body response, not a virtue. It is a biological function that can be improved through mindfulness, exercise, nutrition, and sleep.
- Willpower is not an unlimited resource. Too much self-control can actually be bad for your health.
- Temptation and stress hijack the brain's systems of self-control, but the brain can be trained for greater willpower
- Guilt and shame over your setbacks lead to giving in again, but self-forgiveness and self-compassion boost self-control.
- Giving up control is sometimes the only way to gain self-control.
- Willpower failures are contagious—you can catch the desire to overspend or overeat from your friends—but you can also catch self-control from the right role models.

In the groundbreaking tradition of *Getting Things*

Done, *The Willpower Instinct* combines life-changing prescriptive advice and complementary exercises to help readers with goals ranging from losing weight to more patient parenting, less procrastination, better health, and greater productivity at work.

Let's Pretend This Never Happened Jenny Lawson, 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Contesting Stereotypes and Creating Identities Andrew J. Fuligni, 2007-05-31 Since the end of legal segregation in schools, most research on educational inequality has focused on economic and other structural obstacles to the academic achievement of disadvantaged groups. But in *Contesting Stereotypes and Creating Identities*, a distinguished group of psychologists and social scientists argue that stereotypes about the academic potential of some minority groups remain a significant barrier to their achievement. This groundbreaking volume examines how low institutional and cultural expectations of minorities hinder their academic success, how these stereotypes are perpetuated, and the ways that minority students attempt to empower themselves by redefining their identities. The contributors to *Contesting Stereotypes and Creating Identities* explore issues of ethnic identity and educational inequality from a broad range of disciplinary perspectives, drawing on historical analyses, social-psychological experiments, interviews, and observation. Meagan Patterson and Rebecca Bigler show that when teachers label or segregate students according to social categories (even in subtle ways), students are more likely to rank and stereotype one another, so educators must pay attention to the implicit or unintentional ways that they emphasize group differences. Many of the contributors contest John Ogbu's theory that African Americans have developed an "oppositional culture" that devalues academic effort as a form of "acting white." Daphna Oyserman and Daniel Brickman, in their study of black and Latino youth, find evidence that strong identification with their ethnic group is actually associated with higher academic motivation among minority youth. Yet, as Julie Garcia and Jennifer Crocker find in a study of African-American female college students, the desire to disprove negative stereotypes about race and gender can lead to anxiety, low self-esteem, and excessive, self-defeating levels of effort, which impede learning and academic success. The authors call for educational institutions to diffuse these threats to minority students' identities by emphasizing that intelligence is a malleable rather than a fixed trait. *Contesting Stereotypes and Creating Identities* reveals the many hidden ways that educational opportunities are denied to some social groups. At the same time, this probing and wide-ranging anthology provides a fresh perspective on the creative ways that these groups challenge stereotypes and attempt to participate fully in the educational system.

What Women Fear Angie Smith, 2011-08-31 A woman's faith in God is challenged by the first question Satan asks Eve in the Bible: Did God really say you can't eat from any tree in the garden? That seed of doubt and the story it begins to unfold breed a concept of fear still haunting each of us on some level every day—the idea that our actions could ruin something beautiful, and God might not have control of things. In *What Women Fear*, acclaimed writer and speaker Angie Smith admits, fear is a major part of my testimony and talks openly about her treatment for anxiety as a child. Giving a voice to the problem, she says, I truly believe every single one of us struggles with some type of fear, whether it's fear of flying or fear of being 'found out.' Maybe you don't worry about dying, but you get sick thinking about the fact that you might fail. Rather than suggesting that those who truly love the Lord would never fear, Angie blends her own experiences with those of men and women from throughout Scripture to help us start dealing more effectively with these true, human emotions. Whether it's a constant What if?, a nagging fear of abandonment or betrayal, fear of your own or someone else's death, fear of trusting God's plan, or even the fear that God's existence is a lie, Angie will walk you through stories of others who have simultaneously loved God and struggled with fear. Join Angie and discover how to let Jesus redeem this struggle as only He can, that He will be glorified, and you will be transformed! Endorsements Angie Smith has the rare gift to write a non-fiction page-turner as good as any fiction book I've read. As her words tumbled out in raw honesty, fresh hope spread before me. Her teachings on fear are comforting, practical, and gut honest. I can't wait for you to read this life-changing book. *What Women Fear* is one of my favorites this year. Honestly, I think it will stay next to my bed for a very long time. Lysa TerKeurst, New York Times best-selling author of *Made to Crave* You don't have to be around Angie Smith very long to fall in love with her. She is funny and transparent with a passionate love for Christ. In *What Women Fear* Angie holds up a mirror so that we can see ourselves from every angle, the thoughts we display on the front shelves of our lives and those we hide. The greatest gift tucked into this book is the overwhelming picture of the mercy of our God who understands our fears and invites us to stand beside Him in the rain and let His love wash us clean. Sheila Walsh, author of *The Shelter of God's Promises* Whatever high wire you're walking right now, there really is nobody you want at the other end of the line like Angie Smith. And this rare gem of a book is like a steadying, sure hand taking you right into His presence in ways you never imagined. Vivid, profoundly biblical, yet girlfriend real with just-the-medicine-you-need-funny, every page is reviving hope for every woman. Simply, Angie Smith is a Bible teacher for such a time as this. Ann Voskamp, New York Times best-selling author of *One Thousand Gifts*

How Emotions Are Made Lisa Feldman Barrett, 2017-03-07 Preeminent psychologist Lisa Barrett lays out how the brain constructs emotions in a way that could revolutionize psychology, health care, the legal system, and our understanding of the human mind. "Fascinating . . . A thought-provoking journey into emotion science."—The Wall

Street Journal "A singular book, remarkable for the freshness of its ideas and the boldness and clarity with which they are presented."—Scientific American "A brilliant and original book on the science of emotion, by the deepest thinker about this topic since Darwin."—Daniel Gilbert, best-selling author of *Stumbling on Happiness* The science of emotion is in the midst of a revolution on par with the discovery of relativity in physics and natural selection in biology. Leading the charge is psychologist and neuroscientist Lisa Feldman Barrett, whose research overturns the long-standing belief that emotions are automatic, universal, and hardwired in different brain regions. Instead, Barrett shows, we construct each instance of emotion through a unique interplay of brain, body, and culture. A lucid report from the cutting edge of emotion science, *How Emotions Are Made* reveals the profound real-world consequences of this breakthrough for everything from neuroscience and medicine to the legal system and even national security, laying bare the immense implications of our latest and most intimate scientific revolution.
