Hoosiers and the American Story Madison, James H.,Sandweiss, Lee Ann,2014-10-01 A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America’s westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana’s stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Research Methods in Psychology John J. Shaughnessy,Eugene B. Zechmeister,Jeanne S. Zechmeister,2009 Research Methods in Psychology provides a comprehensive and readable introduction to methods for undergraduates. Employing a multi-method approach and exposing students to real examples of published research throughout the text, the authors provide students with the tools necessary to do good and ethical research in psychology and to understand the research they learn about in psychology courses and in the media. A wealth of pedagogical aids serve to break down the aversion and phobia that many students bring to a methods course. The 8th edition boasts a wealth of new examples with nearly 50 of the research examples from 2004-2007 and more than half of those from 2006 and 2007. So, as students read this methods text, they will also be learning about cutting-edge research in psychology.

Textbook Amy Krouse Rosenthal Amy Krouse Rosenthal,2020-04-14 The bestselling author of Encyclopedia an Ordinary Life returns with a literary experience that is unprecedented, unforgettable, and explosively human. Ten years after her beloved, groundbreaking Encyclopedia of an Ordinary Life, #1 New York Times bestselling author Amy Krouse Rosenthal delivers a book full of her distinct blend of nonlinear narrative, wistful reflections, and insightful wit. It is a mighty, life-affirming work that sheds light on all the ordinary and extraordinary ways we are connected. Like she did with Encyclopedia of an Ordinary Life, Amy Krouse Rosenthal ingeniously adapts a standard format—a textbook, this time—to explore life’s lessons and experiences into a funny, wise, and poignant work of art. Not exactly a memoir, not just a collection of observations, Textbook Amy Krouse Rosenthal is a beautiful exploration into the many ways we are connected on this planet and speaks to the awe, bewilderment, and poignancy of being alive. “...a groundbreaking new twist on the traditional literary experience... Textbook is a delightful collection of interesting scenarios that directly point to life lessons. Rosenthal manages to spotlight grand moments and everyday moments with equal curiosity, proving that it can be both a privilege — and petrifying — to peek into one’s humanity.”—Associated Press “Rosenthal is a marvel... a talented storyteller with an experimental flair for formatting... This engaging, playful, and clever glimpse into one woman’s life offers lots of photographs, graphic illustrations, and diagrams, resulting in a book that will make readers smile as their notions of story delivery expand.” —Booklist

James Joyce and the Burden of Disease Kathleen Ferris, 2021-10-21 James Joyce's near blindness, his peculiar gait, and his death from perforated ulcers are commonplace knowledge to most of his readers. But until now, most Joyce scholars have not recognized that these symptoms point to a diagnosis of syphilis. Kathleen Ferris traces Joyce's medical history as described in his correspondence, in the diaries of his brother Stanislaus, and in the memoirs of his acquaintances, to show that many of his symptoms match those of tabes dorsalis, a form of neurosyphilis which, untreated, eventually leads to paralysis. Combining literary analysis and medical detection, Ferris builds a convincing case that this dread disease is the subject of much of Joyce's autobiographical writing. Many of this characters, most notably Stephen Dedalus and Leopold Bloom, exhibit the same symptoms as their creator: stiffness of gait, digestive problems, hallucinations, and impaired vision. Ferris also demonstrates that the themes of sin, guilt, and retribution so prevalent in Joyce's works are almost certainly a consequence of his having contracted venereal disease as a young man while frequenting the brothels of Dublin and Paris. By tracing the images, puns, and metaphors in *Ulysses* and *Finnegans Wake*, and by demonstrating their relationship to Joyce's experiences, Ferris shows the extent to which, for Joyce, art did indeed mirror life.

The Ballad of the Lone Medievalist Kisha G. Tracy, John P. Sexton, 2018 Working medievalists are often the only scholar of the Middle Ages in a department, a university, or a hundred-mile radius. While working to build a body of focused scholarly work, the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return. As a result, overtasked and single medievalists often find it challenging to advocate for their work and field. As other responsibilities and expectations crowd in, we come to feel disconnected from the projects and subjects that sustain our intellectual passion. An insidious isolation even from one another creeps in, and soon, even attending a conference of fellow medievalists can become a lonely experience. Surrounded by scholars with greater institutional support, lower teaching loads, or more robust research agendas, we may feel alienated from our work - the work to which we've dedicated our careers. The Lone Medievalist (the collaborative community and the book) is intended as an antidote to the problem of professional isolation. It is offered in the spirit of common weal that marks the ideals (if not always the realities) of so many of the communities we study - agricultural, professional, national, notional, and of course, monastic. The Ballad of the Lone Medievalist isn't only about scholarship, or teaching, or institutional life, or the pursuit of new learning - it's about all of them. The essays in this volume address all aspects of the professional and intellectual life of medievalists. Though many of us acknowledge and address the challenges in being Lone Medievalists, these essays are not intended as voces clamantium; they are offered to provide strategies, camaraderie, and an occasional bit of inspiration. They are a call to action, a sharing of hard-won wisdom, and a helping hand - and, above all, a reminder that we are not alone.

Reading Stephen King Brenda Miller Power, Jeffrey D. Wilhelm, 1997 This collection of essays grew out of the Reading Stephen King Conference held at the University of Maine in 1996. Stephen King's books have become a lightning rod for the tensions around issues of including mass market popular literature in middle and high school English classes and of who chooses what students read. King's fiction is among the most popular of pop literature, and among the most controversial. These essays spotlight the ways in which King's work intersects with the themes of the literary canon and its construction and maintenance, censorship in public schools, and the need for adolescent readers to be able to choose books in school reading programs. The essays and their authors are: (1) Reading Stephen King: An Ethnography of an Event (Brenda Miller Power); (2) I Want to Be Typhoid Stevie (Stephen King); (3) King and Controversy in Classrooms: A Conversation between Teachers and Students (Kelly Chandler and others); (4) Of Cornflakes, Hot Dogs, Cabbages, and King (Jeffrey D. Wilhelm); (5) The 'Wanna Read' Workshop: Reading for Love (Kimberly Hill Campbell); (6) When 'IT' Comes to the Classroom (Ruth Shagoury Hubbard); (7) If Students Own Their Learning, What Do Teachers Do? (Curt Dudley-Marling); (8) Disrupting Stephen King: Engaging in Alternative Reading Practices (James Albright and Roberta F. Hammett); (9) Because Stories Matter: Authorial Reading and the Threat of Censorship (Michael W. Smith); (10) Canon Construction Ahead (Kelly Chandler); (11) King in the Classroom (Michael R. Collings); (12) King's Works and the At-Risk Student: The Broad-Based Appeal of a Canon Basher (John Skretta); (13) Reading the Cool Stuff: Students Respond to 'Pet Sematary' (Mark A. Fabrizio); (14) When Reading Horror Subliterature Isn't So Horrible (Janice V. Kristo and Rosemary A. Bamford); (15) One Book Can Hurt You...But a Thousand Never Will (Janet S. Allen); (16) In the Case of King: What May Follow (Anne E. Pooler and Constance M. Perry); and (17) Be Prepared: Developing a Censorship

Policy for the Electronic Age (Abigail C. Garthwait). Appended are a joint manifesto by National Council of Teachers of English (NCTE) and International Reading Association (IRA) concerning intellectual freedom; an excerpt from a teacher's guide to selected horror short stories of Stephen King; and the conference program. Contains a 152-item reference list of literary works.(NKA)
