**European Pack for Visiting Auschwitz-Birkenau Memorial and Museum** Alicja Białecka, 2010-01-01 Taking groups of students To The Auschwitz-Birkenau Memorial and Museum is a heavy responsibility, but it is a major contribution to citizenship if it fosters understanding of what Auschwitz stands for, particularly when the last survivors are at the end of their lives. It comes with certain risks, however. This pack is designed for teachers wishing to organise student visits to authentic places of remembrance, and For The guides, academics and others who work every day with young people at Auschwitz. There is nothing magical about visiting an authentic place of remembrance, and it calls for a carefully thought-out approach. To avoid the risk of inappropriate reactions or the failure to benefit from a large investment in travel and accommodation, considerable preparation and discussion is necessary before the visit and serious reflection afterwards. Teachers must prepare students for a form of learning they may never have met before. This pack offers insights into the complexities of human behaviour so that students can have a better understanding of what it means to be a citizen. How are they concerned by what happened at Auschwitz? is the unprecedented process of exclusion that was practised in the Holocaust still going on in Europe today? in what sense is it different from present-day racism and anti-Semitism? the young people who visit Auschwitz in the next few years will be witnesses of the last witnesses, links in the chain of memory. Their generation will be the last to hear the survivors speaking on the spot. The Council of Europe, The Polish Ministry of Education And The Auschwitz-Birkenau Memorial and Museum are jointly sponsoring this project aimed at preventing crimes against humanity through Holocaust remembrance teaching.

**Shadow Mountain** Renee Askins, 2004-01-06 After forming an intense bond with Natasha, a wolf cub she raised as part of her undergraduate research, Renée Askins was inspired to found the Wolf Fund. As head of this grassroots organization, she made it her goal to restore wolves to Yellowstone National Park, where they had been eradicated by man over seventy years before. In this intimate account, Askins recounts her courageous fifteen-year campaign, wrangling along the way with Western ranchers and their political allies in Washington, enduring death threats, and surviving the anguish of illegal wolf slayings to ensure that her dream of restoring Yellowstone's ecological balance would one day be realized. Told in powerful, first-person narrative, Shadow Mountain is the awe-inspiring story of her mission and her impassioned meditation on our connection to the wild.

**Capybara** José Roberto Moreira, Katia Maria P.M.B. Ferraz, Emilio A. Herrera, David W.

Macdonald, 2012-08-16 The capybara is the neotropical mammal with the highest potential for production and domestication. Amongst the favorable characteristics for domestication we can list its high prolificacy, rapid growth rate, a herbivorous diet, social behavior and relative tameness. The genus (with only two species) is found from the Panama Canal to the north of Argentina on the east of the Andes. Chile is the only country in South America where the capybara is not found. The species is eaten all over its range, especially by poor, rural and traditional communities engaged in subsistence hunting. On the other hand, in large urban settlements wildlife is consumed by city dwellers as a delicacy. The sustainable management of capybara in the wild has been adopted by some South American countries, while others have encouraged capybara rearing in captivity.
