The Gymnasium Mark Malamud,2018-01-11 A Hellenistic god who can't escape his past. A rock band whose music is so bad it paralyzes from the waist down. A black-market vegetable genetically-modified for self-abuse. These are just a few of the stories of melancholy and wonder inside THE GYMNASIUM, an exercise in literary taxidermy by the author of *FLOAT THE POOCH*. By re-stuffing what goes in-between the opening and closing lines of classic works by Milan Kundera, Philip K. Dick, Thomas Wolfe, Ian Fleming, and others, Mark Malamud has assembled nineteen new and wholly-original fictions. THE GYMNASIUM demonstrates re-sampling isn't just for music. - re/ART At turns funny, sad, serious, and surreal - none of these stories will let you down. - Robert Kramer A roller-coaster of styles and voices, all anchored to the simple but powerful idea of re-imagining someone else's words as your own. - Storybook

Leadership for a Better World NCLP (National Clearinghouse for Leadership Programs), 2016-11-14 The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese and Japanese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues. Please note that The Social Change Model: Facilitating Leadership Development (978-1-119-24243-7) is intended to be used as a Facilitator's Guide to Leadership for a Better World, 2nd Edition in seminars, workshops, and college classrooms. The Kiss List Maya Hughes,2022-03-03 If I were on fire, she'd break out the marshmallows. It's not that we don't like each other, more like hate with the fury of a thousand suns. But it wasn't always that way. I still remember how her lips tasted. How they felt pressed against mine. How I wanted more. How I still crave her. Our disastrous night together ended with her storming out, me wondering if I'd ever be able to show my face on campus again and us as bitter enemies. When a campus competition is announced to find the most in love couple, she's the last person I thought I'd turn to for help. But the prize could change both our lives. An internship for her and a chance to finally connect with my father. It's too hard to resist. Just like her heated glares and tempting curves. To win, we've got to prove to everyone we're a couple. Head over heels, can't keep our hands off each other in love. Fake the hell out of it for our chance at glory. Maybe we're a little too good at selling it to the whole campus because the lines haven't just been blurred, they've gone up in flames. Can I convince her I want us to be together for real and keep the prize? Or will I lose them both?

It will attract readers who enjoyed Andy Weir's lunar crime caper *Artemis*." -- Library Journal, starred review A realistic and chilling vision of life on the Moon, where dust kills as easily as the vacuum of space...but murder is even quicker—a fast-paced, cinematic science fiction thriller, this debut novel combines the inventiveness of *The Martian*, the intrigue of *The Expanse*, and the thrills of *Red Rising*. The Moon smells like gunpowder. Every lunar

walker since Apollo 11 has noticed it: a burnt-metal scent that reminds them of war. Caden Dechert, the chief of the U.S. mining operation on the edge of the Sea of Serenity, thinks the smell is just a trick of the mind—a reminder of his harrowing days as a Marine in the war-torn Middle East back on Earth. It's 2072, and lunar helium-3 mining is powering the fusion reactors that are bringing Earth back from environmental disaster. But competing for the richest prize in the history of the world has destroyed the oldest rule in space: Safety for All. When a bomb kills one of Dechert's diggers on Mare Serenitatis, the haunted veteran goes on the hunt to expose the culprit before more blood is spilled. But as Dechert races to solve the first murder in the history of the Moon, he gets caught in the crosshairs of two global powers spoiling for a fight. Reluctant to be the match that lights this powder-keg, Dechert knows his life and those of his crew are meaningless to the politicians. Even worse, he knows the killer is still out there, hunting. In his desperate attempts to save his crew and prevent the catastrophe he sees coming, the former Marine uncovers a dangerous conspiracy that, with one spark, can ignite a full lunar war, wipe out his team . . . and perhaps plunge the Earth back into darkness.

The government has dispatched Amanda McKee - the technopath codenamed Livewire - to investigate the ruins of a secret facility formerly run by Toyo Harada, the most powerful telepath on Earth and her former mentor. In his quest for world betterment at any cost, Harada sought out and activated many potential psiots like himself. Those who survived, but whose powers he deemed to have no value to his cause, were hidden away at this installation. But Livewire, having studied Harada's greatest strengths and learned his deepest weaknesses, senses opportunity where he once saw failure. A young girl who can talk to birds... A boy who can make inanimate objects gently glow... To others, these are expensive disappointments. But, to Livewire, they are secret weapons...in need of a leader. Now, as a mechanized killer called Rex-0 seeks to draw them out, Livewire and her new team of cadets will be forced to put their powers into action...in ways they never could have imagined...
