Stryker Combat Vehicles Gordon L. Rottman,2012-09-20 The eight-wheeled (8x8) Stryker combat light armored vehicle was adopted by the US Army in 2002 to provide a comparatively rapidly deployable contingency force with armor protection, tactical mobility, and heavy firepower, as well as advanced command, control communications, computer, intelligence, surveillance, and reconnaissance (C4ISR) capabilities. Covering the first new US Army release since the M1 Abrams MBT, this book details the conception, ongoing development and deployment of one of the most highly anticipated new AFVs in recent years, including its service in Iraq and the ensuing controversy surrounding the Stryker's varying successes.

**US Army Paratrooper in the Pacific Theater 1943-45**

Gordon L. Rottman,2012-11-20 The two major Army units that operated in the Pacific - the 11th Airborne Division and the 503rd Parachute Regimental Combat Team (PRCT) launched small-scale operations on extremely difficult, if not, outright dangerous, terrain, while also conducting amphibious assaults, fighting on jungled hills, swamps and mud. The two units were very different, with the 503rd PRCT being reserved for special purpose missions and the 11th Airborne Division occupying a more traditional role. This title will deal with the background to these two units and their training, before detailing the specific equipment used in the theatre and, finally and most importantly, the combat experience at a personal level of the US Army Paratrooper in the Pacific.
