The Ocean and Cryosphere in a Changing Climate Intergovernmental Panel on Climate Change (IPCC),2022-05-19 The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.

**Drop the Stones** Carlos A. Rodríguez,2017-09-19 When a woman caught in the act of adultery was thrown down at Jesus' feet, the bloodthirsty crowd filled their hands with rocks and demanded she be put to death. That confrontation still reverberates in our lives today. Surely we can relate with the shame of the woman and her exposed sin. Unfortunately, we can also relate with the hypocritical crowd, reveling in the rejection of "the other." But can we fully relate with Christ, the God who intervened to save her? For those who've become wary of tired and sometimes even offensive Christian dogmatism, Carlos Rodríguez may be the spark that ignites the flames of faith in the true Jesus. He tells it like it is, with a desire to motivate those who feel ready to engage the world around them, not through political or religious agendas, but through grace and love. Drop the Stones invites followers of Jesus to drop their religious rocks, and, with open hands, engage in the rewarding lifestyle of a Jesus-styled love.

**The Rise and Fall of the Plantation Complex** Philip D. Curtin,1998-02-13 Over a period of several centuries, Europeans developed an intricate system of plantation agriculture overseas that was quite different from the agricultural system used at home. Though the plantation complex centered on the American tropics, its influence was much wider. Much more than an economic order for the Americas, the plantation complex had an important place in world history. These essays concentrate on the intercontinental impact.

**The Black Jacobins** C.L.R. James,2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791–1803 “One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” —The New York Times Book Review The Black Jacobins, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

**Caciques and Cemi Idols** José R. Oliver,2009-05-10 Takes a close look at the relationship between humans and other (non-human) beings that are imbued with cemí power, specifically within the Taíno inter-island cultural sphere encompassing Puerto Rico and Hispaniola Cemís are both portable artifacts and embodiments of persons or spirit, which the Taínos and other natives of the Greater Antilles (ca. AD 1000-1550) regarded as numinous beings with supernatural or magic powers. This volume takes a close look at the relationship between humans and other (non-human) beings that are imbued with cemí power, specifically within the Taíno inter-island cultural sphere encompassing Puerto Rico and Hispaniola. The relationships address the important questions of identity and personhood of the cemí icons and their human “owners” and the implications of cemí gift-giving and gift-taking that sustains a complex web of relationships between caciques (chiefs) of Puerto Rico and Hispaniola. Oliver provides a careful analysis of the four major forms of cemís—three-pointed stones, large stone heads, stone collars, and elbow stones—as well as face masks, which provide an interesting contrast to the stone heads. He finds evidence for his interpretation of human and cemí interactions from a critical review of 16th-century Spanish ethnohistoric documents, especially the *Relación Acerca de las Antigüedades de los Indios* written by Friar Ramón Pané in 1497–1498 under orders from Christopher Columbus. Buttressed by examples of native resistance and syncretism, the volume discusses the iconoclastic conflicts and the relationship between the icons and the human beings. Focusing on this and on the various contexts in which the relationships were enacted, Oliver reveals how the cemís were central to the exercise of native political power. Such cemís were considered a direct threat to the hegemony of the Spanish conquerors, as these potent objects were seen as allies in the native resistance to the onslaught of Christendom with its icons of saints and virgins.

*Freedom in the World* 2006 Freedom House,2006 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192

countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

**When Less Becomes More** Emily Ley, 2019-11-12 Women today are more fatigued, burned out, and overwhelmed than ever. You may feel like your life is frantic—that you're running on empty. In *When Less Becomes More*, you'll learn how to live a life of more in a world that often overwhelms to the point of burnout. Smartphones constantly ping and alert and demand your attention. And social media can eat up hours of your days with mindless scrolling and tapping while leaving you feeling empty and lonely. Add to that family commitments, work that is accessible around the clock, and overscheduling, and you have a life that can feel out of control. In *When Less Becomes More*, Emily Ley, author of the bestselling *Grace, Not Perfection* and *Growing Boldly*, takes you on a journey out of that empty place and shows you how to fill your wells with the nourishment that only true connection can provide. She also presents some radical concepts that push against the tethers of modern life, with the promise that more of the good stuff comes when we say yes to less of what keeps us empty: Less Noise, More Calm Less Fake, More Real Less Rush, More Rhythm Less Liking, More Loving Less Distraction, More Connection Less Chasing, More Cherishing Less Stuff, More Treasures Getting to more might require some outside-the-box changes, some unraveling of the patterns you have adopted, and some reworking of the day to day. Build a life based on your core values instead of slipping into a life dictated by society or what's normal. Because you weren't made for normal. You were made for more—for a life of fullness, dreaming, and lasting joy.

*Regions and Powers* Barry Buzan, Ole Wæver, 2003-12-04 This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.

**Capitalism and Slavery** Eric Williams, 2014-06-30 Slavery helped finance the Industrial Revolution in England. Plantation owners, shipbuilders, and merchants connected with the slave trade accumulated vast fortunes that established banks and heavy industry in Europe and expanded the reach of capitalism worldwide. Eric Williams advanced these powerful ideas in *Capitalism and Slavery*, published in 1944. Years ahead of its time, his profound critique became the foundation for studies of imperialism and

economic development. Binding an economic view of history with strong moral argument, Williams's study of the role of slavery in financing the Industrial Revolution refuted traditional ideas of economic and moral progress and firmly established the centrality of the African slave trade in European economic development. He also showed that mature industrial capitalism in turn helped destroy the slave system. Establishing the exploitation of commercial capitalism and its link to racial attitudes, Williams employed a historicist vision that set the tone for future studies. In a new introduction, Colin Palmer assesses the lasting impact of Williams's groundbreaking work and analyzes the heated scholarly debates it generated when it first appeared.

*Crossing the Mangrove* Maryse Conde,2011-03-02 In this beautifully crafted, Rashomon-like novel, Maryse Conde has written a gripping story imbued with all the nuances and traditions of Caribbean culture. Francis Sancher--a handsome outsider, loved by some and reviled by others--is found dead, face down in the mud on a path outside Riviere au Sel, a small village in Guadeloupe. None of the villagers are particularly surprised, since Sancher, a secretive and melancholy man, had often predicted an unnatural death for himself. As the villagers come to pay their respects they each--either in a speech to the mourners, or in an internal monologue--reveal another piece of the mystery behind Sancher's life and death. Like pieces of an elaborate puzzle, their memories interlock to create a rich and intriguing portrait of a man and a community. In the lush and vivid prose for which she has become famous, Conde has constructed a Guadeloupean wake for Francis Sancher. Retaining the full color and vibrance of Conde's homeland, *Crossing the Mangrove* pays homage to Guadeloupe in both subject and structure.
