*Design Mom* Gabrielle Stanley Blair, 2015-04-07 New York Times best seller Ever since Gabrielle Stanley Blair became a parent, she's believed that a thoughtfully designed home is one of the greatest gifts we can give our families, and that the objects and decor we choose to surround ourselves with tell our family's story. In this, her first book, Blair offers a room-by-room guide to keeping things sane, organized, creative, and stylish. She provides advice on getting the most out of even the smallest spaces; simple fixes that make it easy for little ones to help out around the house; ingenious storage solutions for the never-ending stream of kid stuff; rainy-day DIY projects; and much, much more.

**History of the Persian Empire** A. T. Olmstead, 2022-08-29 Out of a lifetime of study of the ancient Near East, Professor Olmstead has gathered previously unknown material into the story of the life, times, and thought of the Persians, told for the first time from the Persian rather than the traditional Greek point of view. The fullest and most reliable presentation of the history of the Persian Empire in existence.—M. Rostovtzeff

Changing Planes Ursula K. Le Guin, Eric Beddow, 2014-03-04 Winner of the PEN/Malamud Award for Short Story A New York Times Notable Book In these "vivid, entertaining, philosophical dispatches" (San Francisco Chronicle), literary legend Le Guin weaves together influences as wide-reaching as Borges, *The Little Prince*, and *Gulliver's Travels* to examine feminism, tyranny, mortality and immortality, art, and the meaning—and mystery—of being human. Sita Dulip has missed her flight out of Chicago. But instead of listening to garbled announcements in the airport, she's found a method of bypassing the crowds at the desks, the nasty lunch, the whimpering children and punitive parents, and the blue plastic chairs bolted to the floor: she changes planes. Changing planes—not

airplanes, of course, but entire planes of existence—enables Sita to visit societies not found on Earth. As “Sita Dulip’s Method” spreads, the narrator and her acquaintances encounter cultures where the babble of children fades over time into the silence of adults; where whole towns exist solely for holiday shopping; where personalities are ruled by rage; where genetic experiments produce less than desirable results. With “the eye of an anthropologist and the humor of a satirist” (USA Today), Le Guin takes readers on a truly universal tour, showing through the foreign and alien indelible truths about our own human society.

**A Handbook of Gods and Goddesses of the Ancient Near East** Douglas R. Frayne, Johanna H. Stuckey, 2021-02-12 From the tragic young Adonis to Zašhapuna, first among goddesses, this handbook provides the most complete information available on deities from the cultures and religions of the ancient Near East, including Anatolia, Syria, Israel, Sumer, Babylonia, Assyria, and Elam. The result of nearly fifteen years of research, this handbook is more expansive and covers a wider range of sources and civilizations than any previous reference works on the topic. Arranged alphabetically, the entries range from multiple pages of information to a single line—sometimes all that we know about a given deity. Where possible, each record discusses the deity's symbolism and imagery, connecting it to the myths, rituals, and festivals described in ancient sources. Many of the entries are accompanied by illustrations that aid in understanding the iconography, and they all include references to texts in which the god or goddess is mentioned. Appropriate for both trained scholars and nonacademic readers, this book collects centuries of Near Eastern mythology into one volume. It will be an especially valuable resource for anyone interested in Assyriology, ancient religion, and the ancient Near East.

Making It Chris Lefteri, 2007-06-28 Review: Making it uses contemporary design as a vehicle to describe over 90 production techniques, both established and cutting-edge, so that the mysteries of the processes are revealed in an accessible way. This is the first book to approach the subject from a designer's point of view. The author has grouped the processes according to the shapes and physical dimensions of the finished product. Each process is introduced and described, and information boxes offer guidance on suitable production volumes, the costs involved, the speed of production, relevant materials and more.--BOOK JACKET

*The History of al-Ṭabarī Vol. 30* Abū Jaʿfar Muḥammad ibn Jarīr al-Ṭabarī, 1989-01-01 This volume of al-Ṭabarī's History covers nearly a quarter of a century, and after covering the very brief caliphate of al-Hādī, concentrates on that of Hārūn al-Rashīd. During these years, the caliphate was in a state of balance with its external foes; the great enemy, Christian Byzantium, was regarded with

respect by the Muslims, and the two great powers of the Near East treated each other essentially as equals, while the Caucasian and Central Asian frontiers were held against pressure from the Turkish peoples of Inner Eurasia. The main stresses were internal, including Shī'ite risings on behalf of the excluded house of 'Alī, and revolts by the radical equalitarian Khārijites; but none of these was serious enough to affect the basic stability of the caliphate. Hārūn ar-Rashīd's caliphate has acquired in the West, under the influence of a misleading picture from the Arabian Nights, a glowing image as a golden age of Islamic culture and letters stemming from the Caliph's patronage of the exponents of these arts and sciences. In light of the picture of the Caliph which emerges from al-Ṭabarī's pages, however, this image seems to be distinctly exaggerated. Al-Rashīd himself does not exhibit any notable signs of administrative competence, military leadership or intellectual interests beyond those which convention demanded of a ruler. For much of his reign, he left the business of government to the capable viziers of the Barmakīd family--the account of whose spectacular fall from power forms one of the most dramatic features of al-Ṭabarī's narratives here--and his decision to divide the Islamic empire after his death between his sons was to lead subsequently to a disastrous civil war. Nevertheless, al-Ṭabarī's story is full of interesting sidelights on the lives of those involved in the court circle of the time and on the motivations which impelled medieval Muslims to seek precarious careers there. A discounted price is available when purchasing the entire 39-volume History of al-Ṭabarī set. Contact SUNY Press for more information.

The Optimist Creed Christian D. Larson, 2012-05-24 The first-ever collection of writings by Christian D. Larson, author of the famous "Optimist Creed" and one of the twentieth-century's pioneers of motivational thought. Contemporary research has shown that optimistic people experience longer and healthier lives, better relationships, and higher incomes. Generations before

such findings, however, inspirational writer Christian D. Larson showed an amazing grasp of the life-changing power of gratitude and optimism. Today, Larson is known worldwide for his powerful meditation, "The Optimist Creed," and other classics of spiritual living. But no single volume has collected his greatest writings. Here, at last, is a long-overdue anthology that makes Larson's foundational writings available to the countless readers who already know his name and work. Like no one else of his day, Larson understood the metaphysical and psychological dimensions of grateful living – or, as he famously put it, "an attitude of gratitude." Affirmative thought, Larson reasoned, sets in motion unseen forces, both spiritual and psychical, and aids in manifesting our desires. The Optimist Creed features complete editions of Larson's most deeply affecting works, each redesigned and reset. It contains: The Pathway of Roses; Your Forces and How to Use Them (the work that features his original "Optimist Creed"); Mastery of Self; The Ideal Made Real; and Just Be Glad.

**The Grand Alliance** Winston S. Churchill, 2010-06-30 The British, Soviets, and Americans unite in this chapter of the six-volume WWII history by the legendary prime minister and Nobel Prize recipient. The Grand Alliance describes the end of an extraordinary period in British military history, in which Britain stood alone against Germany. Two crucial events brought an end to Britain's isolation. First was Hitler's decision to attack the Soviet Union, opening up a battle front in the East

and forcing Stalin to look to the British for support. The second was the bombing of Pearl Harbor. US support had long been crucial to the British war effort, and here, Winston Churchill documents his efforts to draw the Americans to aid, including correspondence with President Roosevelt. This book is part of the six-volume account of World War II told from the unique viewpoint of a British prime minister who led his nation in the fight against tyranny. In addition to the correspondence with FDR, the series is enriched with extensive primary sources. We are presented with not only Churchill's retrospective analysis of the war, but also memos, letters, orders, speeches, and telegrams, day-by-day accounts of reactions as the drama intensifies. Throughout these volumes, we listen as strategies and counterstrategies unfold in response to Hitler's conquest of Europe, planned invasion of England, and assault on Russia, in a mesmerizing account of the crucial decisions made as the fate of the world hangs in the balance. "A masterly piece of historical writing . . . complete with humor and wit." —The New Yorker
