*The Shallows: What the Internet Is Doing to Our Brains* Nicholas Carr, 2011-06-06 Finalist for the 2011 Pulitzer Prize in General Nonfiction: "Nicholas Carr has written a Silent Spring for the literary mind."—Michael Agger, Slate "Is Google making us stupid?" When Nicholas Carr posed that question, in a celebrated Atlantic Monthly cover story, he tapped into a well of anxiety about how the Internet is changing us. He also crystallized one of the most important debates of our time: As we enjoy the Net's bounties, are we sacrificing our ability to read and think deeply? Now, Carr expands his argument into the most compelling exploration of the Internet's intellectual and cultural consequences yet published. As he describes how human thought has been shaped through the centuries by "tools of the mind"—from the alphabet to maps, to the printing press, the clock, and the computer—Carr interweaves a fascinating account of recent discoveries in neuroscience by such pioneers as Michael Merzenich and Eric Kandel. Our brains, the historical and scientific evidence reveals, change in response to our experiences. The technologies we use to find, store, and share information can literally reroute our neural pathways. Building on the insights of thinkers from Plato to McLuhan, Carr makes a convincing case that every information technology carries an intellectual ethic—a set of assumptions about the nature of knowledge and intelligence. He explains how the printed book served to focus our attention, promoting deep and creative thought. In stark contrast, the Internet encourages the rapid, distracted sampling of small bits of information from many sources. Its ethic is that of the industrialist, an ethic of speed and efficiency, of optimized production and consumption—and now the Net is remaking us in its own image. We are becoming ever more adept at scanning and skimming, but what we are losing is our capacity for concentration, contemplation, and reflection. Part intellectual history, part popular science, and part cultural criticism, *The Shallows* sparkles with memorable vignettes—Friedrich Nietzsche wrestling with a typewriter, Sigmund Freud dissecting the brains of sea creatures, Nathaniel Hawthorne contemplating the thunderous approach of a steam locomotive—even as it plumbs profound questions about the state of our modern psyche. This is a book that will forever alter the way we think about media and our minds.

*A Lady Cyclist's Guide to Kashgar* Suzanne Joinson, 2012-05-22 It is 1923. Evangeline (Eva) English and her sister Lizzie are missionaries heading for the ancient city of Kashgar on the Silk Road. Though Lizzie is on fire with her religious calling, Eva's motives are not quite as noble, but with her green bicycle and a commission from a publisher to write *A Lady Cyclist's Guide to Kashgar*, she is ready for adventure. In present day London, a young woman, Frieda, returns from a long trip abroad to find a man sleeping outside her front door. She gives him a blanket and pillow and in the morning finds the bedding neatly folded and an exquisite drawing of a bird with a long feathery tail, some delicate Arabic writing, and a boat made out of a flock of seagulls on her wall. Tayeb, in flight from his Yemeni homeland, befriends Frieda and, when she learns she has inherited the contents of an apartment belonging to a dead woman she has never heard of, they embark on an unexpected journey together. *A Lady Cyclist's Guide to Kashgar* explores the fault lines that appear when traditions from different parts of an increasingly globalized world crash into each other. Beautifully written and peopled by a cast of unforgettable characters, the novel interweaves the stories of Frieda and Eva, gradually revealing the links between them, and the ways in which they each challenge and negotiate the restrictions of their societies as they make their hard-won way towards home.

**Simple Matters** Erin Boyle, 2016-01-12 More than a decluttering guide, this book "speaks to the heart and soul of the minimalist lifestyle . . . a must-have manual for serenity in the modern world!" (Anne Sage, author of *Sage Living*). For anyone looking to declutter, organize, and simplify, author Erin Boyle shares practical guidance and personal insights on small-space living and conscious consumption. At once pragmatic and philosophical, *Simple Matters* is an essential manual for anyone who wants to bring more purpose and sustainability to their daily lives. Boyle demonstrates how the benefits of "living small" are accessible to us all—whether we're renting a tiny apartment or purchasing a three-story house. Filled with personal essays, projects, and helpful advice on how to be inventive and resourceful in a tight space, *Simple Matters* shows that living simply is about making do with less and ending up with more: more free time, more time with loved ones, more savings, and more things of beauty.

Changing Planes Ursula K. Le Guin, Eric Beddow, 2014-03-04 Winner of the PEN/Malamud Award for Short Story A New York Times Notable Book In these "vivid, entertaining, philosophical dispatches" (*San Francisco Chronicle*), literary legend Le Guin weaves together influences as wide-reaching as Borges, *The Little Prince*, and *Gulliver's Travels* to examine feminism, tyranny, mortality and immortality, art, and the meaning—and mystery—of being human. Sita Dulip has missed her flight out of Chicago. But instead of listening to garbled announcements in the airport, she's found a method of bypassing the crowds at the desks, the nasty lunch, the whimpering children and punitive parents, and the blue plastic chairs bolted to the floor: she changes planes. Changing planes—not airplanes, of course, but entire planes of existence—enables Sita to visit societies not found on Earth. As "Sita Dulip's Method" spreads, the narrator and her acquaintances encounter cultures where the babble of children fades over time into the silence of adults; where whole towns exist solely for holiday shopping; where personalities are ruled by rage; where genetic experiments produce less than desirable results. With "the eye of an anthropologist and the humor of a satirist" (*USA Today*), Le Guin takes readers on a truly universal tour, showing through the foreign and alien

indelible truths about our own human society.

*Desert Warfare: German Experiences In World War II [Illustrated Edition]* Major General Alfred Toppe,2014-08-15 Includes 112 photos/illustrations and 21 maps. The German Afrika Korps blazed a trail across the deserts of North Africa under their dashing leader Erwin Rommel, the Desert Fox, although finally defeated by far superior Allied Forces they set the gold standard for desert operations. This book is of great historical value and even in the present day it is still considered of great value by the American military who still seek for improvements in their ways of desert doctrine... "Analysts continue to assess the data from Operations Desert Shield and Desert Storm as a means of improving the military's ability to function efficiently in desert terrain...The information gleaned from this effort will enhance the already considerable body of knowledge on the subject derived from the historical record...When contributions in the latter category are located or rediscovered, they should be given the dissemination they merit... "Such is the purpose of publishing Desert Warfare: German Experiences in World War II...Organized by Major General Alfred Toppe and written with the assistance of nine German commanders who served in North Africa, the manuscript...represents a collaborative attempt to determine "as many factors as possible which exerted a determining influence on desert warfare," Issues addressed include planning, intelligence, logistics, and operations. Described and analyzed are the German order of battle, the major military engagements in North Africa, and the particular problems of terrain and climate in desert operations. Not unlike many of the U.S. units engaged in the war with Iraq, the Germans in North Africa learned about combat operations in the desert only after they arrived on the scene and confronted the desert on its own terms. For this reason alone, as well as for the insights it offers, Desert Warfare requires the serious consideration of those responsible for preparing the U.S. military for any future conflict in desert terrain."

**The Meursault Investigation** Kamel Daoud,2015-06-02 A New York Times Notable Book of 2015 "A tour-de-force reimagining of Camus's *The Stranger*, from the point of view of the mute Arab victims." —The New Yorker He was the brother of "the Arab" killed by the infamous Meursault, the antihero of Camus's classic novel. Seventy years after that event, Harun, who has lived since childhood in the shadow of his sibling's memory, refuses to let him remain anonymous: he gives his brother a story and a name—Musa—and describes the events that led to Musa's casual murder on a dazzlingly sunny beach. In a bar in Oran, night after night, he ruminates on his solitude, on his broken heart, on his anger with men desperate for a god, and on his disarray when faced with a country that has so disappointed him. A stranger among his own people, he wants to be granted, finally, the right to die. *The Stranger* is of course central to Daoud's story, in which he both endorses and criticizes one of the most famous novels in the world. A worthy complement to its great predecessor, *The Meursault Investigation* is not only a profound meditation on Arab identity and the disastrous effects of colonialism in Algeria, but also a stunning work of literature in its own right, told in a unique and affecting voice.

**A Grammar of Warrongo** Tasaku Tsunoda, 2011-12-23 Warrongo is an extinct Australian Aboriginal language that used to be spoken in northeast Australia. This volume is largely based on the rich data recorded from the last fluent speaker. It details the phonology, morphology and syntax of the language. In particular, it provides a truly scrutinizing description of syntactic ergativity - a phenomenon that is rare among the world's language. It also shows that, unlike some other Australian languages, Warrongo has noun phrases that are configurational. Overall this volume shows what can be documented of a language that has only one speaker.

Phrase Structure and Grammatical Relations in Tagalog Paul Kroeger, 1993-07-30 Over the last twenty years or so, most of the work on the syntax of Philippine languages has been focused on the question of whether or not these languages can be said to have grammatical subjects, and if so which argument of a basic transitive clause should be analysed as being the subject. Paul Kroeger's contribution to this debate asserts that grammatical relations such as subject and object are syntactic notions, and must be identified on the basis of syntactic properties, rather than by semantic roles or discourse functions. A large number of syntactic processes in Tagalog uniquely select the argument which bears the nominative case. On the other hand, the data which have been used in the debate to assert the ambiguity of subjecthood are best analysed in terms of semantic rather than syntactic constraints. Together these facts support an analysis that takes the nominative argument as the subject. Kroeger examines the history of the subjecthood debate and uses data from Tagalog to test the theories that have been put forth. His conclusions entail consequences for certain linguistic concepts and theories, and lead Kroeger to assert that grammatical relations are not defined in terms of surface phrase structure configurations, contrary to the assumptions of many approaches to syntax including the Government-Binding theory. Paul Kroeger is presently doing fieldwork in Austronesian languages and teaching linguistics to fieldworkers from around the world.
