Desert Warfare: German Experiences In World War II [Illustrated Edition]

Major General Alfred Toppe,2014-08-15 Includes 112 photos/illustrations and 21 maps. The German Afrika Korps blazed a trail across the deserts of North Africa under their dashing leader Erwin Rommel, the Desert Fox, although finally defeated by far superior Allied Forces they set the gold standard for desert operations. This book is of great historical value and even in the present day it is still considered of great value by the American military who still seek for improvements in their ways of desert doctrine... “Analysts continue to assess the data from Operations Desert Shield and Desert Storm as a means of improving the military’s ability to function efficiently in desert terrain...The information gleaned from this effort will enhance the already considerable body of knowledge on the subject derived from the historical record...When contributions in the latter category are located or rediscovered, they should be given the dissemination they merit... “Such is the purpose of publishing *Desert Warfare: German Experiences in World*

War II...Organized by Major General Alfred Toppe and written with the assistance of nine German commanders who served in North Africa, the manuscript...represents a collaborative attempt to determine "as many factors as possible which exerted a determining influence on desert warfare," Issues addressed include planning, intelligence, logistics, and operations. Described and analyzed are the German order of battle, the major military engagements in North Africa, and the particular problems of terrain and climate in desert operations. Not unlike many of the U.S. units engaged in the war with Iraq, the Germans in North Africa learned about combat operations in the desert only after they arrived on the scene and confronted the desert on its own terms. For this reason alone, as well as for the insights it offers, Desert Warfare requires the serious consideration of those responsible for preparing the U.S. military for any future conflict in desert terrain."

Changing Planes Ursula K. Le Guin, Eric Beddow, 2014-03-04 Winner of the PEN/Malamud Award for Short Story A New York Times Notable Book In these "vivid, entertaining, philosophical dispatches" (San Francisco Chronicle), literary legend Le Guin weaves together influences as wide-reaching as Borges, *The Little Prince*, and *Gulliver's Travels* to examine feminism, tyranny, mortality and immortality, art, and the meaning—and mystery—of being human. Sita Dulip has missed her flight out of Chicago. But instead of listening to garbled announcements in the airport, she's found a method of bypassing the crowds at the desks, the nasty lunch, the whimpering children and punitive parents, and the blue plastic chairs bolted to the floor: she changes planes. Changing planes—not airplanes, of course, but entire planes of existence—enables Sita to visit societies not found on Earth. As "Sita Dulip's Method" spreads, the narrator and her acquaintances encounter cultures where the babble of children fades over time into the silence of adults; where whole towns exist solely for holiday shopping; where personalities are ruled by rage; where genetic experiments produce less than desirable results. With "the eye of an anthropologist and the humor of a satirist" (USA Today), Le Guin takes readers on a truly universal tour, showing through the foreign and alien indelible truths about our own human society.

The Mehweb language Michael Daniel, Nina Dobrushina , Dmitry Ganenkov , 2019-10-23 This book is an investigation into the grammar of Mehweb (Dargwa, East Caucasian also known as Nakh-Daghestanian) based on several years of team fieldwork. Mehweb is spoken in one village community in Daghestan, Russia, with a population of some 800 people. In many ways, Mehweb is a typical East Caucasian language: it has a rich inventory of consonants; an extensive system of spatial forms in nouns and converbs and volitional forms in verbs; pervasive gender-number agreement; and ergative alignment in case marking and in gender agreement. It is also a typical language of the Dargwa branch, with symmetrical verb inflection in the imperfective and perfective paradigm and extensive use of spatial encoding for experiencers. Although Mehweb is clearly close to the northern varieties of Dargwa, it has been long isolated from the main body of Dargwa varieties by speakers of Avar and Lak. As a result of both independent internal evolution and contact with its neighbours, Mehweb developed some deviant properties, including accusatively aligned egophoric agreement, a split in the feminine class, and the typologically rare grammatical categories of verificative and apprehensive. But most importantly, Mehweb is where our friends live.

battles were won and lost and how the men that fought went on to change the world.

A Grammar of Warrongo Tasaku Tsunoda, 2012-01-01 Warrongo is an extinct Australian Aboriginal language that used to be spoken in northeast Australia. This volume is largely based on the rich data recorded from the last fluent speaker. It details the phonology, morphology and syntax of the language. In particular, it provides a truly scrutinizing description of syntactic ergativity - a phenomenon that is rare among the world's language. It also shows that, unlike some other Australian languages, Warrongo has noun phrases that are configurational. Overall this volume shows what can be documented of a language that has only one speaker.

The Craft of Creativity Matthew A. Cronin, Jeffrey Loewenstein, 2018-04-17 Creativity has long been thought of as a personal trait, a gift bestowed on some and unachievable by others. While we laud the products of creativity, the stories behind them are often abridged to the elusive aha! moment, the result of a momentary stroke of genius. In *The Craft of Creativity* Matthew A. Cronin and Jeffrey Loewenstein present a new way to understand how we innovate. They emphasize the importance of the journey and reveal the limitations of focusing on outcomes. Drawing on a wide range of scholarship, their own research, and interviews with professionals and learners who employ creativity in the arts, engineering, business, and more, Cronin and Loewenstein argue that creativity is a cognitive process that hinges on changing one's perspective. It's a skill that anyone can hone, and one that benefits from thinking with others and over time. Breaking new ground in the discussion about how we innovate, this book provides strategies that everyone can use to be more creative.

Sanna Kannisto, 2020-06-08 Kannisto photographs birds in the style of classic wildlife illustrations, capturing the delicate beauty of her avian subjects in painterly detail. Finnish nature photographer Sanna Kannisto (born 1974) considers herself both a scientist and an artist, and her images of birds in particular are unmatched in their analytical beauty and compositional perfection. Perched delicately on disembodied tree branches and brilliantly lit against a white background, Kannisto's avian subjects resemble classic wildlife illustrations or specimens in a museum, highlighting every exquisite feature. This level of detail provides an opportunity for viewers to study up close the creatures they may only have ever seen at a distance: the chartreuse feathers of the European greenfinch seem to practically glow, while the plumage of a willow tit in flight unfurls into a geometrically perfect arc. In every picture, the deep black eyes of the birds penetrate the camera's gaze with a distinct personality. This collection of photographs is a fascinating volume for hobbyist birdwatchers, photography fans and anyone invested in the conservation of wildlife.

The Barcelona Pavilion by Mies van der Rohe Dietrich Neumann, 2020-12-07 While Mies van der Rohe's pavilion at the International Exposition in Barcelona in 1929 went unnoticed by most of the visitors to the fairgrounds, contemporary critics enthusiastically hailed it as the most convincing statement of the Modern Age. This book presents 100 selected texts about this much discussed building, written then and now: from the opening speech by the Spanish king, to newspaper articles and private letters, voices of contemporary architects, architecture critics and historians, and even a text by artist Ai

Weiwei, who created an installation in the outdoor area of the pavilion in 2010. Thus the history of this building's reception depicts a dazzling picture and inconceivable breadth, including statements by such eminent authors as Frank Lloyd Wright, Leonardo Benevolo, Rem Koolhaas, Peter Eisenman.

Italian Light Tanks Filippo Cappellano, Pier Paolo Battistelli, 2012-06-20 The Italian army, unlike those of the British and French, did not use tanks in combat during World War I and, by November 1918, only one training unit equipped with French Schneider and Renault tanks had been formed. Consequently, during the 1920s the Italian army had just one single tank type in its armoured inventory – the Fiat 3000. Only in 1927 was the first tank unit formed as a branch of the infantry and not as an independent organization, while the cavalry rejected the idea of both tanks and armoured cars and decided to stand by the use of horses for its mounted units. Between 1933 and March 1939, a further 2,724 CV 33 / L 3 tanks were built, 1,216 of which were exported all over the world. By the time Italy entered the war in June 1940, the army had 1,284 light tanks, 855 of which were in combat units, including three armoured divisions. Variants of the CV 33 / L 3 tanks included flame-throwers, bridge-layers, recovery vehicles, and a radio command tank. Some L 3 tanks were still in use in 1945, by both the Germans and the German-allied Italian units of the Repubblica Sociale.

The History of al-Ṭabarī Vol. 30 Abū Jaʿfar Muḥammad ibn Jarīr al-Ṭabarī, 1989-01-01 This volume of al-Ṭabarī's History covers nearly a quarter of a century, and after covering the very brief caliphate of al-Hādī, concentrates on that of Hārūn al-Rashīd. During these years, the caliphate was in a state of balance with its external foes; the great enemy, Christian Byzantium, was regarded with respect by the Muslims, and the two great powers of the Near East treated each other essentially as equals, while the Caucasian and Central Asian frontiers were held against pressure from the Turkish peoples of Inner Eurasia. The main stresses were internal, including Shī'ite risings on behalf of the excluded house of 'Alī, and revolts by the radical equalitarian Khārijites; but none of these was serious enough to affect the basic stability of the caliphate. Hārūn al-Rashīd's caliphate has acquired in the West, under the influence of a misleading picture from the Arabian Nights, a glowing image as a golden age of Islamic culture and letters stemming from the Caliph's patronage of the exponents of these arts and sciences. In light of the picture of the Caliph which emerges from al-Ṭabarī's pages, however, this image seems to be distinctly exaggerated. Al-Rashīd himself does not exhibit any notable signs of administrative competence, military leadership or intellectual interests beyond those which convention demanded of a ruler. For much of his reign, he left the business of government to the capable viziers of the Barmakīd family--the account of whose spectacular fall from power forms one of the most dramatic features of al-Ṭabarī's narratives here--and his decision to divide the Islamic empire after his death between his sons was to lead subsequently to a disastrous civil war. Nevertheless, al-Ṭabarī's story is full of interesting sidelights on the lives of those involved in the court circle of the time and on the motivations which impelled medieval Muslims to seek precarious careers there. A discounted price is available when purchasing the entire 39-volume History of al-Ṭabarī set. Contact SUNY Press for more information.
