**Paint by Sticker Kids: Zoo Animals** Workman Publishing,2016-09-20 Find the sticker, peel the sticker, place the sticker. And sticker by sticker, a koala appears! Or an elephant, frog, red panda, puffin, peacock, snake, giraffe, tiger, or gorilla. (And no mess to clean up!) Designed for children ages 5 and up, Paint by Sticker Kids: Zoo Animals uses low-poly art—a computer style that renders 3-D images out of polygon shapes—and removable color stickers so that kids can create 10 vibrant works of art. The stickers are larger, as befits the younger audience, and the card stock pages are perforated for easy removal, making them suitable for displaying.

**The Art of Gundam Wing** ,2001 A deluxe collection of artwork from the animated series, Gundam Wing, with scenes from the animation and full-color illustrations by the original Japanese artists.

**Paint by Sticker Kids: Dinosaurs** Workman Publishing,2020-07-21 Paint by Sticker Kids just gets

stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid's favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don't forget about the king of them all: a ferocious T-Rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without them even thinking they're doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!
