Wonderful Life with the Elements Bunpei
Yorifuji, 2012-09-12 From the brilliant mind of Japanese
artist Bunpei Yorifuji comes *Wonderful Life with the
Elements*, an illustrated guide to the periodic table that
gives chemistry a friendly face. In this super periodic table,
every element is a unique character whose properties are
represented visually: heavy elements are fat, man-made
elements are robots, and noble gases sport impressive
afros. Every detail is significant, from the length of an
element's beard to the clothes on its back. You'll also learn
about each element's discovery, its common uses, and
other vital stats like whether it floats—or explodes—in
water. Why bother trudging through a traditional periodic
table? In this periodic paradise, the elements are people
too. And once you've met them, you'll never forget them.

Twelve Years a Slave Solomon Northup, 2024-01-04
Filmatized in 2013 and the official recipient of three
Oscars, Solomon Northup's powerful slave narrative
'*Twelve Years a Slave*' depicts Nortup's life as he is sold
into slavery after having spent 32 years of his life living as
a free man in New York. Working as a travelling musician,
Northup goes to Washington D.C, where he is kidnapped,
sent to New Orleans, and sold to a planter to suffer the
relentless and brutal life of a slave. After a dozen years,
Northup escapes to return to his family and pulls no
punches, as he describes his fate and that of so many other
black people at the time. It is a harrowing but vitally
important book, even today. For further reading on this
subject, try '*Uncle Tom's Cabin*' by Harriet Beecher Stowe.
Solomon Northup (c.1807-c.1875) was an American
abolitionist and writer, best remembered for his powerful

race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Obiter Dicta Erick Verran, 2021-10-14 Stitched together over five years of journaling, *Obiter Dicta* is a commonplace book of freewheeling explorations representing the transcription of a dozen notebooks, since painstakingly reimaged for publication. Organized after Theodor Adorno's *Minima Moralia*, this unschooled exercise in aesthetic thought--gleefully dilettantish, oftentimes dangerously close to the epigrammatic--interrogates an array of subject matter (although inescapably circling back to the curiously resemblant histories of Western visual art and instrumental music) through the lens of drive-by speculation. Erick Verran's approach to philosophical inquiry follows the brute-force literary technique of Jacques Derrida to exhaustively favor the material grammar of a signifier over hand-me-down meaning, juxtaposing outer semblances with their buried systems and our etched-in-stone intuitions about color and

illusion, shape and value, with lessons stolen from seemingly unrelatable disciplines. Interlarded with extracts of Ludwig Wittgenstein but also Wallace Stevens, Cormac McCarthy as well as Roland Barthes, this cache of incidental remarks eschews what's granular for the biggest picture available, leaving below the hyper-specialized fields of academia for a bird's-eye view of their crop circles. *Obiter Dicta* is an unapologetic experiment in intellectual dot-connecting that challenges much long-standing wisdom about everything from illuminated manuscripts to Minecraft and the evolution of European music with lyrical brevity; that is, before jumping to the next topic.

Africa from the Sixteenth to the Eighteenth Century Bethwell A. Ogot, 1992 The result of years of work by scholars from all over the world, The UNESCO General History of Africa reflects how the different peoples of Africa view their civilizations and shows the historical relationships between the various parts of the continent. Historical connections with other continents demonstrate Africa's contribution to the development of human civilization. Each volume is lavishly illustrated and contains a comprehensive bibliography. This fifth volume of the acclaimed series covers the history of the continent from the beginning of the sixteenth century to the close of the

eighteenth century in which two themes emerge: first, the continuing internal evolution of the states and cultures of Africa during this period second, the increasing involvement of Africa in external trade--with major but unforeseen consequences for the whole world. In North Africa, we see the Ottomans conquer Egypt. South of the Sahara, some of the larger, older states collapse, and new power bases emerge. Traditional religions continue to coexist with both Christianity (suffering setbacks) and Islam (in the ascendancy). Along the coast, particularly of West Africa, Europeans establish a trading network which, with the development of New World plantation agriculture, becomes the focus of the international slave trade. The immediate consequences of this trade for Africa are explored, and it is argued that the long-term global consequences include the foundation of the present world-economy with all its built-in inequalities.

Arc Light Eric Harry, 2013-01-22 In a scenario terrifyingly close to today's headlines, Harry's debut novel opens with a North Korean invasion of South Korea that leads, through a series of tragic errors and decisions, to a Russian nuclear attack on military bases in the U.S. Like techno-thriller master Tom Clancy, Harry offers a sprawling narrative that focuses on a small army of soldiers, politicians and their families, American and Russian. National Security Advisor Greg Lambert must keep and tell secrets that may lead to Armageddon; Reservist David Chandler must leave his pregnant wife in order to drive a tank; U.S. President Walter Livingston, eager for peace, must endure the ignominy of impeachment; Russian General Yuri Razov must deal with the consequences of his initial decision to launch nuclear missiles. Ground, air and submarine battles alternate with scenes of anarchy stateside as exhausted leaders are

forced to make instant decisions that might snuff out humanity forever. With a masterful grasp of military strategy and geopolitics, Harry moves his characters through nightmares of blood and death; his intricately detailed scenes of nuclear devastation are particularly horrifying. Told through a series of rapid-fire climaxes, this novel, a political and military cautionary tale of considerable power and conviction, will keep readers riveted. —Publishers Weekly

The Polish Campaign, 1939 Steve Zaloga, W. Victor Madej, 1990-12-31 The Polish Campaign of 1939 was the first violent demonstration of the effectiveness of the Blitzkrieg tactics of the German Army. This book takes little-known Polish documentary sources to provide a look at the battles from the perspective of the Polish Army.

Brothers of the Snake Dan Abnett, 2012-01-06 The Iron Snakes Chapter has sworn a pledge to protect the Reef Stars from ruin, whatever the cost. Sergeant Priad and the Damocles Squad battle to preserve humanity against the myriad foes that threaten to destroy it.

Mechanicum Graham McNeill, 2018-08-28 Book nine

in the New York Times bestselling series This is a reissue of 9781849708173 As the flames of treachery spread outwards through the Imperium, Horus mobilises those forces who are loyal to him, and plots to subvert or destroy those who stand against him. A battle is being fought for the heart and soul of all the Imperial forces – the Astartes, the Imperial Army, the Titan Legions and more. In this epic story, author Graham McNeill tells the story of the civil war on Mars, and the genesis of the Dark Mechanicum.

Sons of the Emperor: An Anthology John French, Nick Kyme, L J Goulding, Guy Haley, Graham McNeill, Gav Thorpe, Dan Abnett, Aaron Dembski-Bowden, 2020-03-03 An amazing collection of Horus Heresy Primarch short stories, penned by a host of best selling authors. A must have for all fans of Horus Heresy! From their shadowed origins to the desperate battles that ensued when half of them rebelled against their father, the Sons of the Emperor – the vaunted primarchs – were among the greatest of humanity's champions, warriors without peer and heroes whose deeds became legend. From the Angel Sanguinius, who took the sole brunt of his Legion's most brutal acts, to Vulkan, whose humanity made him unique amongst his brothers, and from dour Perturabo, architect, inventor and murderous warlord, to Horus, whose shining light was eclipsed only by the darkness that grew within his soul, this anthology covers eight of the primarchs and their greatest – or darkest – deeds. CONTENTS The Passing of Angels by John French The Abyssal Edge by Aaron Dembski-Bowden Mercy of the Dragon by Nick Kyme Shadow of the Past by Gav Thorpe The Emperor's Architect by Guy Haley Prince of Blood by L J Goulding The Ancient Awaits by Graham McNeill Misbegotten by Dan Abnett

Dead Sky, Black Sun Graham McNeill, 2015-09-08 Book three in Black Library's iconic Ultramarines series

returns The Ultramarines are the epitome of a Space Marine Chapter. Warriors without peer, their name is a byword for discipline and honour, and their heroic deeds are legendary. Exiled from the Ultramarines Chapter, former captain Uriel Ventris and his battle-brother Pasanus embark upon a deadly quest into the heart of darkness – the daemon world of Medrengard. There, they must destroy a facility creating new warriors for the Traitor Legions – but Warsmith Honsou and his Iron Warriors stand in their way. Can the Ultramarines complete their mission and redeem their honour, or will they join the ranks of the lost and the damned? This edition also includes the prequel short story ‘Consequences’, in which Uriel and Pasanus face trial for their breaches of the Codex Astartes, with their lives on the line.

Achtung-Panzer! Heinz Guderian, 1937 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

How to Pass OSCP Series: Windows Privilege Escalation Step-By-Step Guide Alan Wang,2020-11-13

This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more.

Around Sherman Annette Swan,2022-06-06 When Sherman's first settler, Dearing Dorman, came to live in the town in 1823, he laid claim to land that was plentiful with trees and rich soil. With the opening of the Erie Canal in 1825, more settlers started making their way to this area of Chautauqua County, helping the town of Sherman to grow rapidly. And with French Creek running through the township, it seemed only logical that the village of Sherman would start to take shape near the creek. Sherman's history runs deep through these early settlers and is evident in the town's commitment to keep its history and traditions alive through the Yorker Museum and annual Sherman School Alumni Reunion and Sherman Day celebrations.

Kazuo Shinohara Seng Kuan,2019-06 One of the greatest and most influential architects of Japan's postwar generation, Shinohara Kazuo (1925-2006) has remained virtually unknown outside the small community of devoted followers. As one of the leaders of architectural movement Metabolism, Shinohara achieved cult-figure stature with sublimely beautiful, purist houses that break away from Japan's postwar suburban architecture. Perhaps the most iconic of Shinohara's works, House of White (1964-66), rearranges a familiar design palette: a square plan, a pointed roof, white walls, and a symbolic heart pillar-to give the almost oceanic spaciousness through abstraction. The underlying formalism in Shinohara's architecture-its basic explorations of geometry and color-lends his work a poetic quality that fuses simplicity and surprise, the ordered and the unexpected. This volume brings together new scholarship from the foremost specialists on

Shinohara and Japan's modern architecture. New perspectives and historical frameworks range from the development of the small house as a building type in postwar Japan to Shinohara's engagement with French critical theory. Hitherto unpublished archival drawings and personal travel photographs by Shinohara complement the essays. AUTHOR: Seng Kuan holds a PhD in architectural history from Harvard University and teaches at Harvard Graduate School of Design and the Chinese University of Hong Kong. SELLING POINTS: * Kazuo Shinohara (1925-2006) was a Japanese architect who developed a cult following for his purist houses. He helped develop the architectural movement, Metabolism which is characterized by pure white spaces and megastructures. One of his most well known buildings is House of White. * This book brings together new scholarship from the foremost specialists on Shinohara. * This book deals with Japanese modern architecture which is very influential around the world. * This volume includes previously unpublished archival drawings and personal travel photographs of Shinohara.
