"The Sting of Death" and Other Stories Toshio Shimao,2020-06-01 Until a recent "boom," Shimao Toshio, writer of short fiction, critic, and essayist, was not widely known, even in Japan. He has never won the Akutagawa or the Naoki Prize, and none of his works had previously appeared in English translation. He is less well known than other writers (Yasuoka Shotaro, Kojima Nobuo, and Shono

Junzo) with whom he has associated and whose works have been liberally translated into English. Yet, there are those who consider him to be one of the best contemporary writers in Japan. This volume by no means exhausts the scope of Shimao's fiction. There are no stories here, for instance, about childhood or student life, and none of his many travel stories. Some of his most famous stories-- When we Never Left Port, for example--have not been included. But the stories presented here do offer a considerable variety of style, from the pristine storybook language of *The Farthest Edge of the Islands*, to the young intellectual's jargon of *Everyday Life in a Dream*, to the visionary, hysterical, occasionally ritualistic prose of the sick wife stories, to the sober, difficult, almost ponderous narration of *This Time That Summer*. Shimao's approach to his material varies as well. *Everyday Life in a Dream* is the only representative here of a large number of stories usually called surrealist by the critics, stories whose plots progress by the logic of dreams. The individual experience of real life are lived through a combination of conscious and unconscious perception. These stories are the least approachable and the least charming to the casual reader, but they serve, among other things, to highlight patterns in the more realistic fiction. *The Farthest Edge of the Islands* is a symbolic heightening of reality in another way, a romantic fairy tale beginning at the extremity of experience, at the farthest edge of the world. The other stories are presented as precise, close chronicles of reality by a participant in that reality whose attention never waivers and who never allows himself to avert his eyes from a world that he sees as his responsibility and in a sense his fault. All but the first story, *The Farthest Edge of the Islands*, which is in third-person narration, are told in the first person by the character who plays Shimao's role in the life that inspired the fiction.

Christian Converts and Social Protests in Meiji Japan Irwin Scheiner, 2020-06-01 Nowhere has there been a discussion of the confusion necessarily generated by the rapidity of the change or of the agony created in the lives of many whose attitudes, expectations, and even success depended on the continuance of now abolished institutions. Historians have ignored the settled conditions of most samurai and instead concentrated on the study of the minority of activist samurai leaders who, with the backing of only a few Han (feudal domains) sought to overthrow the old order and whose success in doing so has made the study of the modernization of Japan the prime concern of historians. The history of the Meiji period may have been an overall political and industrial success story, but for a fuller understanding of the conditions of that success it is also necessary to understand what it was really like for the members of the old elite to be estranged from the proponents of revolution and what many members did to assure their own social and psychological position in a world they had not expected. In this book the author attempts to show that the impact of the Meiji Restoration destroyed the meaningfulness of the Confucian doctrine for these declassé samurai. Through Christianity, the samurai attempted to revive their status in society by finding a doctrine that offered a meaningful path to power. But in doing so, they had to accept a new theory of social relations. Ultimately, as the convert's understanding of society became totally informed by the Christian doctrine, they accepted a transcendent authority that brought them into conflict with society about them. Therefore, to understand the development of a Christian opposition in Meiji society we must begin with the conversion experience itself. [intro]

Shock and Naturalization in Contemporary Japanese Literature Carl Cassegård, 2007-03-29 This study introduces the concepts of naturalization and naturalized modernity, and uses them as tools for understanding the way modernity has been

experienced and portrayed in Japanese literature since the end of the Second World War.

Peasants, Pilgrims, and Sacred Promises Laura Stark, 2002-06-27 Lying on the border between eastern and western Christendom, Orthodox Karelia preserved its unique religious culture into the 19th and 20th centuries, when it was described and recorded by Finnish and Karelian folklore collectors. This colorful array of rituals and beliefs involving nature spirits, saints, the dead, and pilgrimage to monasteries represented a unique fusion of official Church ritual and doctrine and pre-Christian ethnic folk belief. This book undertakes a fascinating exploration into many aspects of Orthodox Karelian ritual life: beliefs in supernatural forces, folk models of illness, body concepts, divination, holy icons, the role of the ritual specialist and healer, the divide between nature and culture, images of forest, the cult of the dead, and the popular image of monasteries and holy hermits. It will appeal to anyone interested in popular religion, the cognitive study of religion, ritual studies, medical anthropology, and the folk traditions and symbolism of the Balto-Finnic peoples.

Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed,

Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

The Gilded Buddha Alex R. Furger, 2017 This book celebrates in words and images the traditional metal crafts practised for over a thousand years by the creators of religious Buddhist statues in Nepal. The skills of these artisans are nurtured with deep respect for tradition, regarding religion, iconography and technology. Wax modellers, mould makers, casters, fire-gilders and chasers are among the specialists of the Newar ethnic group, whose work is characterised to this day by a melding of age-old technology, great skill, religious observance and contemplation. There are numerous books and exhibition catalogues dedicated to Buddhist art and iconography but little was available about the craft of the artists who turn the religious imagery into metal casts. This book fills this gap, with a thoroughly documented and historical account of the development of this archaic technology. The well-informed text and comprehensive photographic coverage constitute the only up-to-date account and full documentation of an art that is 1300 years old but dying out: the ritual production of Buddhist statues in the lost wax casting technique. The author, Dr. Alex Furger, is an archaeologist who has studied ancient metallurgy and metalworking techniques over the past four decades. He spent twenty-five years at the head of the Roman site of Augusta Raurica and lives in Basel (Switzerland). He is the author of over 130 articles in scientific journals and twelve books in the field of culture history. The fieldwork for this book led him repeatedly to Nepal, where he met and interviewed dozens of craftsmen in their workshops. This book is addressed to readers interested in culture history, travellers to Asia, collectors of statues of Buddha, (avocational) metalworkers, historians of technology, Buddhists, ethnologists, archaeologists, art historians, scholars of Asia and to libraries and museums.

Myth and Mentality Anna-Leena Siikala, 2019-01-10 The recent fascination in Finnish folklore studies with popular thought and the values and emotions encoded in oral tradition began with the realisation that the vast collections of the Finnish folklore archives still have much to offer the modern-day researcher. These archive materials were not only collected by scholars, but also by the ordinary rural populace interested in their own traditions, by performers and their audiences. With its myriad voices, this body of source material thus provides new avenues for the researcher seeking to penetrate popular thought. What does oral tradition tell us about the way its performers think and feel? What sorts of beliefs and ideas are transmitted in traditional songs and narratives? Perspectives from the study of mentalities and cultural cognition research provide a framework for investigating these issues. This collection of articles works from the premise that the cultural models which shape mentalities give rise to manifest expressions of culture, including folklore. These models also become embedded in the representations appearing in folklore, and are handed down from one generation to the next. The topics of the book cover age-old myths and world views, concepts of witchcraft and the Devil stretching back to the Middle Ages, and the values and collective emotions of Finnish and Hungarian agrarian communities.

Japanese Fairy Tales Yei Theodora Ozaki, 2023-07-19 This collection of Japanese fairy tales is the outcome of a suggestion made to me indirectly through a friend by Mr. Andrew Lang. They have been translated from the modern version written by Sadanami Sanjin. These stories are not literal translations, and though the Japanese story and all quaint Japanese expressions have been faithfully preserved, they have been told more with the view to interest young readers of the West than the technical student of folk-lore. Grateful acknowledgment is due to Mr. Y. Yasuoka, Miss Fusa Okamoto, my brother Nobumori Ozaki, Dr. Yoshihiro Takaki, and Miss Kameko

Yamao, who have helped me with translations. The story which I have named “The Story of the Man who did not Wish to Die” is taken from a little book written a hundred years ago by one Shinsui Tamenaga. It is named Chosei Furo, or “Longevity.” “The Bamboo-cutter and the Moon-child” is taken from the classic “Taketari Monogatari,” and is NOT classed by the Japanese among their fairy tales, though it really belongs to this class of literature. The pictures were drawn by Mr. Kakuzo Fujiyama, a Tokio artist. In telling these stories in English I have followed my fancy in adding such touches of local color or description as they seemed to need or as pleased me, and in one or two instances I have gathered in an incident from another version. At all times, among my friends, both young and old, English or American, I have always found eager listeners to the beautiful legends and fairy tales of Japan, and in telling them I have also found that they were still unknown to the vast majority, and this has encouraged me to write them for the children of the West...FROM THE BOOKS.
