If It's Purple, Someone's Gonna Die: The Power of Color in Visual Storytelling Patti Bellantoni, 2012-10-02 If it's Purple, Someone's Gonna Die is a must-read book for all film students, film professionals, and others interested in filmmaking. This enlightening book guides filmmakers toward making the right color selections for their films, and helps movie buffs understand why they feel the way they do while watching movies that incorporate certain colors. Guided by her twenty-five years of research on the effects of color on behavior, Bellantoni has grouped more than 60 films under the spheres of influence of six major colors, each of which triggers very specific emotional states. For example, the author explains that films with a dominant red influence have themes and characters that are powerful, lusty, defiant, anxious, angry, or romantic and discusses specific films as examples. She explores each film, describing how, why, and where a color influences emotions, both in the characters on screen and in the audience. Each color section begins with an illustrated Home Page that includes examples, anecdotes, and tips for using or avoiding that particular color. Conversations with the author's colleagues--including award-winning production designers Henry Bumstead (Unforgiven) and Wynn Thomas (Malcolm X) and renowned cinematographers Roger Deakins (The Shawshank Redemption) and Edward Lachman (Far From Heaven)--reveal how color is often used to

communicate what is not said. Bellantoni uses her research and experience to demonstrate how powerful color can be and to increase readers awareness of the colors around us and how they make us feel, act, and react. \*Learn how your choice of color can influence an audience's moods, attitudes, reactions, and interpretations of your movie's plot \*See your favorite films in a new light as the author points out important uses of color, both instinctive and intentional \*Learn how to make good color choices, in your film and in your world.

**Steven Spielberg and Philosophy** Dean A. Kowalski, 2008-11-21 “This lively collection of essays on the ideas underpinning his films enriches and enlarges our understanding of Spielberg’s complex body of work.” —Joseph McBride, author of *Steven Spielberg: A Biography* Few directors have had as powerful an influence on the film industry and the movie-going public as Steven Spielberg. Whatever the subject—dinosaurs, war, extra-terrestrials, slavery, the Holocaust, or terrorism—one clear and consistent touchstone is present in all of Spielberg’s films: an interest in the human condition. In movies ranging from *Jaws* to *Schindler’s List* to *Amistad* to *Jurassic Park*, he has brought to life some of the most popular heroes—and most despised villains—of all time. In *Steven Spielberg and Philosophy*, Dean A. Kowalski and some of the nation’s most respected philosophers investigate Spielberg’s art to illuminate the nature of humanity. The book explores rich themes such as cinematic realism, fictional belief, terrorism, family ethics, consciousness, virtue and moral character, human rights, and religion in Spielberg’s work. Avid moviegoers and deep thinkers will discover plenty to enjoy in this collection.

**Silent Hill** Bernard Perron, 2012-01-03 *Silent Hill: The Terror Engine*, the second of the two inaugural studies in the Landmark Video Games series from series editors Mark J. P. Wolf and Bernard Perron, is both a close analysis of the first three Silent Hill games and a general look at the whole series. Silent Hill, with its first title released in 1999, is one of the most influential of the horror video game series. Perron situates the games within the survival horror genre, both by looking at the history of the genre and by comparing Silent Hill with such important forerunners as *Alone in the Dark* and *Resident Evil*. Taking a transmedia approach and underlining the designer's cinematic and literary influences, he uses the narrative structure; the techniques of imagery, sound, and music employed; the game mechanics; and the fiction, artifact, and gameplay emotions elicited by the games to explore the specific fears survival horror games are designed to provoke and how the experience as a whole has made the Silent Hill series one of the major landmarks of video game history.

*Ecological Literature and the Critique of Anthropocentrism* Bryan L. Moore, 2017-10-14 This book is an analysis of literary texts that question, critique, or subvert anthropocentrism, the notion that the universe and everything in it exists for humans. Bryan Moore examines ancient Greek and Roman texts; medieval to twentieth-century European texts; eighteenth-century French philosophy; early to contemporary American texts and poetry; and science fiction to demonstrate a historical basis for the questioning of anthropocentrism and contemplation of responsible environmental stewardship in the twenty-first century and beyond. *Ecological Literature and the Critique of Anthropocentrism* is essential reading for ecocritics and ecofeminists. It will also be

useful for researchers interested in the relationship between science and literature, environmental philosophy, and literature in general.

**Imaginary Apparatus** McLain Clutter, 2015 During John V. Lindsay's Mayoral tenure in New York 1966-73, the city created innovative policy intended to draw on-location media production to New York's streets. Simultaneously, the New York City Planning Commission and associated offices produced a wealth of documents that reflect conceptual and aesthetic influences of various visual media. American architect McLain Clutter undertook to analyse to what remarkable extent the effects of these two areas of

political ambition were interrelated. In his new book *Imaginary Apparatus*, Clutter describes the relationship between New York City and its mediated representation at the conjuncture of these circumstances, tracing the interrelation of their attendant cultural, economic and aesthetic valences. The second part of the book explores the legacy of Lindsay's policies by analysing their effects on New York City's built environment. Clutter illustrates his argument with a large selection of photographs and film-stills, many of them previously unpublished, and with original documents from various archives. This ground-breaking new book is rounded out with a DVD featuring 'What is the City but the People?', the film version of the study 'Plan for New York City' of 1969, a unique document that has never before been publicly available.

**The Encyclopedia of Stanley Kubrick** Gene D. Phillips, Rodney Hill, 2002 Surveys the director's life and career with information on his films, key people in his life, technical information, themes, locations, and film theory.

*The Film Sense* Sergei Eisenstein, 1947 A renowned Soviet director discusses his theory of film as an artistic medium which must appeal to all senses and applies it to an analysis of sequences from his major movies.

**White Noise** Don DeLillo, 1999-06-01 A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an airborne toxic event that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

*Talking to Robots* David Ewing Duncan, 2019-07-16 Award-winning journalist David Ewing Duncan considers 24 visions of possible human-robot futures—Incredible scenarios from Teddy Bots to Warrior Bots, and Politician Bots to Sex Bots—Grounded in real technologies and possibilities and inspired by our imagination. What robot and AI systems are being built and imagined right now? What do they say about us, their creators? Will they usher in a fantastic new future, or destroy us? What do some of our greatest thinkers,

from physicist Brian Greene and futurist Kevin Kelly to inventor Dean Kamen, geneticist George Church, and filmmaker Tiffany Shlain, anticipate about our human-robot future? For even as robots and A.I. intrigue us and make us anxious about the future, our fascination with robots has always been about more than the potential of the technology—it's also about what robots tell us about being human.

Pay It Forward Catherine Ryan Hyde, 2000-10 For use in schools and libraries only. When Trevor's social studies teacher gives the class an extra-credit assignment challenging his students to design a plan to change society, Trevor decides to start a goodwill chain.

**Post-9/11 Horror in American Cinema** Kevin J. Wetmore, Jr., 2012-03-22 The horror film is meant to end in hope: Regan McNeil can be exorcized. A hydrophobic Roy Scheider can blow up a shark. Buffy can and will slay vampires. Heroic human qualities like love, bravery, resourcefulness, and intelligence will eventually defeat the monster. But, after the 9/11, American horror became much more bleak, with many films ending with the deaths of the entire main cast. Post-9/11 Horror in American Cinema illustrates how contemporary horror films explore visceral and emotional reactions to the attacks and how they underpin audiences' ongoing fears about their safety. It examines how scary movies have changed as a result of 9/11 and, conversely, how horror films construct and give meaning to the event in a way that other genres do not. Considering films such as Quarantine, Cloverfield, Hostel and the Saw series, Wetmore examines the transformations in horror cinema since 9/11 and considers not merely how the tropes have changed, but how our understanding of horror itself has changed.

**Reel Life Lessons ... So Far** Rico Rodriguez, Laura Morton, 2012-11-06 “I love to entertain people and make them laugh. Whether through Manny or by just being myself, making people laugh is the greatest feeling in the world. Getting an opportunity to do that at my age has taught me a lot. So, I started this journal as a reminder of the most important real and 'reel' life lessons that I hope to never forget. ” Barely into his teen years, Rico Rodriguez is living his dream, playing the hilarious and infectious character Manny Delgado on ABC's Emmy Award-winning sitcom Modern Family. As his on-screen alter ego, Rico dispenses wisdom with a maturity far beyond his age. In Reel Life Lessons...So Far, he shares his own thoughts about growing up, facing life's challenges, and the importance of family. Written in a simple, lighthearted manner and filled with witty and engaging anecdotes about Rico's life on and off the set—or, as he puts it, life with his real family and his reel family, Reel Life Lessons...So Far reflects a sense of warmth and charm that will remind readers of all ages about the true kid inside us all.
