Origami for Halloween Stéphane Gigandet, 2017-10-20 Learn

how to fold 10 original origami models including: - cute ghosts with a lot of personality but only a few easy folds, - an easy diamond eyes bat, - a skull that you can color and decorate like a Mexican Calavera, - Mr. and Mrs. Ghost, - a pumpkin box to store your candy, - and even a cool talking pumpkin and a spider web in 3D! All models come with full-color diagrams and instructions, and videos are available if you need help. Giving life to paper with just a few folds and your own interpretation The models in this book are easy to fold but have a lot of character, and they give a lot of room for interpretation: - You can personalize many of the models

and choose the size of eyes, teeth, arms and wings. - Most of the models do not require very precise folds. Small or big imperfections will make your model unique and give it personality! - Please experiment! Most of the models are quick to fold, so you can make them multiple times, and you can add or change a few folds to give your model a new touch. Folders of all levels - including kids and beginners - will thus be able to find pleasure from folding and interpreting the models in this book!
