Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Programmed to Kill David McGowan, 2004 The specter of the marauding serial killer has become a relatively common feature on the American landscape. Reactions to these modern-day monsters range from revulsion to morbid fascination--fascination that is either fed by, or a product of, the saturation coverage provided by print and broadcast media, along with a dizzying array of books, documentary films, websites, and Movies of the Week. The prevalence in Western culture of images of serial killers (and mass murderers) has created in the public mind a consensus view of what a serial killer is. Most people are aware, to some degree, of the classic serial killer 'profile.' But what if there is a much different 'profile'--one that has not received much media attention? In *Programmed to Kill*, acclaimed and always controversial author David McGowan takes a fresh look at the lives of many of America's most notorious accused murderers, focusing on the largely hidden patterns that suggest that there may be more to the average serial killer story than meets the eye. Think you know everything there is to know about serial killers? Or is it possible that sometimes what everyone 'knows' to be true isn't really true at all?

All Things Censored Mumia Abu-Jamal, 2001-06-05 More than 75 essays--many freshly composed by Mumia with the

cartridge of a ball-point pen, the only implement he is allowed in his death-row cell—embody the calm and powerful words of humanity spoken by a man on Death Row. Abu-Jamal writes on many different topics, including the ironies that abound within the U.S. prison system and the consequences of those ironies, and his own case. Mumia's composure, humor, and connection to the living world around him represents an irrefutable victory over the corrections system that has for two decades sought to isolate and silence him. The title, *All Things Censored*, refers to Mumia's hiring as an on-air columnist by National Public Radio's *All Things Considered*, and subsequent banning from that venue under pressure from law and order groups.

Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
