One Little Bag: An Amazing Journey Henry Cole,2020-04-07 An evocative wordless picture book that is a loving tribute to mindful living on our precious planet. * Beautifully effective. -- Kirkus Reviews, starred review* Deeply profound... compelling... emotionally resonant. -- School Library Journal, starred review* Elevating the life of an ephemeral object to the time scale of love across generations. -- Publishers Weekly, starred review From a tall tree growing in the forest--to the checkout counter at the grocery store--one little bag finds its way into the hands of a young boy on the eve of his first day of school. And so begins an incredible journey of one little bag that is used and reused and reused again. In a three-generation family, the bag is transporter of objects and keeper of memories. And when Grandfather comes to the end of his life, the family finds a meaningful new way for the battered, but much-loved little bag to continue its journey in the circle of life.

The Doll's Alphabet Camilla Grudova,2017-10-17 This doll's eye view is a total delight and surveys a world awash with shadowy wit and exquisite collisions of beauty and the grotesque. —Helen Oyeyemi, author of *Boy, Snow, Bird* Down to its most particular details, *The Doll's Alphabet* creates an individual world—a landscape I have never encountered before, which now feels like it was been waiting to be captured, and waiting to captivate, all along. —Sheila Heti, author of *How Should a Person Be* Marvellous. Grudova understands that the best writing has to pull off the hardest aesthetic trick—it has to be both memorable and fleeting. —Deborah Levy, author of *Hot Milk Dolls*, sewing machines, tinned foods, mirrors, malfunctioning bodies—by constantly reinventing ways to engage with her obsessions and motifs, Camilla Grudova has built a universe that's highly imaginative, incredibly original, and absolutely discomfiting. The stories in *The Doll's Alphabet* are by turns child-like and naive, grotesque and very dark: the marriage of Margaret Atwood and Angela Carter. Camilla Grudova lives in Toronto. She holds a degree in Art History and German from McGill University, Montreal. Her fiction has appeared in *The White Review* and *Granta*.

Pirate Cinema Cory Doctorow,2012-10-02 From the New York Times bestselling author of *Little Brother*, Cory Doctorow, comes *Pirate Cinema*, a new tale of a brilliant hacker runaway who finds himself standing up to tyranny. Trent McCauley is sixteen, brilliant, and obsessed with one thing: making movies on his computer by reassembling footage from popular films he downloads from the net. In the dystopian near-future Britain where Trent is growing up, this is more illegal than ever; the punishment for being caught three times is that your entire household's access to the internet is cut off for a year, with no appeal. Trent's too clever for that too happen. Except it does, and it nearly destroys his family. Shamed and shattered, Trent runs away to London, where he slowly learns the ways of staying alive on the streets. This brings him in touch with a demimonde of artists and activists who are trying to fight a new bill that will criminalize even more harmless internet creativity, making felons of millions of British citizens at a stroke. Things look bad. Parliament is in power of a few wealthy media conglomerates. But the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Annals of Gullibility Stephen Greenspan,2008-12-30 The first book to provide a comprehensive look at the problem of gullibility, this groundbreaking work covers how and why we are fooled in areas that range from religion, politics, science, and medicine, to personal finance and relationships. First laying the groundwork by showing gullibility at play in the writings of historic authors we all know, developmental psychologist

Stephen Greenspan follows with chapters that describe social duping across the gamut of human conduct. From people who pour bucks into investment scams, to those who follow the faith of scientologists, believe in fortunetellers, or champion unfounded medicine akin to snake oil, we all know someone who has been duped. A lot of us have been duped ourselves, out of naive trust. It's not a matter of low intelligence that moves us to, without evidence, believe the words of politicians, salesmen, academics, lawyers, military figures, or cult leaders, among others. Greenspan shows us the four broad reasons we become drawn into gullible behavior, and he presents ways people can become less gullible. Greenspan takes us into the vast realm of gullibility from the fictional Pied Piper to the historical Trojan Horse, then through modern-day military maneuvers, political untruths, police and criminal justice scams, and financial and love lies. While there have been earlier books focused on liars and manipulators of all sorts, this is the first to focus on the gullible who are their victims, and how the gullible can become less likely to be taken again.

Death and Salvation in Ancient Egypt Jan Assmann, 2011-11-14 Human beings, the acclaimed Egyptologist Jan Assmann writes, are the animals that have to live with the knowledge of their death, and culture is the world they create so they can live with that knowledge. In his new book, Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole. Drawing on the unfamiliar genre of the death liturgy, he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt. Assmann describes in detail nine different images of death: death as the body being torn apart, as social isolation, the notion of the court of the dead, the dead body, the mummy, the soul and ancestral spirit of the dead, death as separation and transition, as homecoming, and as secret. *Death and Salvation in Ancient Egypt* also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual.

Thinking with Things Esther Pasztory, 2005-08-01 At its heart, Pasztory's thesis is simple and yet profound. She asserts that humans create things (some of which modern Western society chooses to call art) in order to work out our ideas - that is, we literally think with things. Pasztory draws on examples from many societies to argue that the art-making impulse is primarily cognitive and only secondarily aesthetic. She demonstrates that art always reflects the specific social context in which it is created, and that as societies become more complex, their art becomes more rarefied.--Jacket.

In the Dream House Carmen Maria Machado, 2019-11-05 A revolutionary memoir about domestic abuse by the award-winning author of *Her Body*

and Other Parties In the Dream House is Carmen Maria Machado's engrossing and wildly innovative account of a relationship gone bad, and a bold dissection of the mechanisms and cultural representations of psychological abuse. Tracing the full arc of a harrowing relationship with a charismatic but volatile woman, Machado struggles to make sense of how what happened to her shaped the person she was becoming. And it's that struggle that gives the book its original structure: each chapter is driven by its own narrative trope—the haunted house, erotica, the bildungsroman—through which Machado holds the events up to the light and examines them from different angles. She looks back at her religious adolescence, unpacks the stereotype of lesbian relationships as safe and utopian, and widens the view with essayistic explorations of the history and reality of abuse in queer relationships. Machado's dire narrative is leavened with her characteristic wit, playfulness, and openness to inquiry. She casts a critical eye over legal proceedings, fairy tales, Star Trek, and Disney villains, as well as iconic works of film and fiction. The result is a wrenching, riveting book that explodes our ideas about what a memoir can do and be.

Tinker Belles and Evil Queens Sean P. Griffin, 2000-02-01 From its Magic Kingdom theme parks to its udderless cows, the Walt Disney Company has successfully maintained itself as the brand name of conservative American family values. But the Walt Disney Company has also had a long and complex relationship to the gay and lesbian community that is only now becoming visible. In *Tinker Belles and Evil Queens*, Sean Griffin traces the evolution of this interaction between the company and gay communities, from the 1930s use of Mickey Mouse as a code phrase for gay to the 1990s Gay Nights at the Magic Kingdom. Armed with first-person accounts from Disney audiences, Griffin demonstrates how Disney animation, live-action films, television series, theme parks, and merchandise provide varied motifs and characteristics that readily lend themselves to use by gay culture. But Griffin delves further to explore the role of gays and lesbians within the company, through an examination of the background of early studio personnel, an account of sexual activism within the firm, and the story of the company's own concrete efforts to give recognition to gay voices and desires. The first book to address the history of the gay community and Disney, *Tinker Belles and Evil Queens* broadly examines the ambiguous legacy of how modern consumerism and advertising have affected the ways lesbians and gay men have expressed their sexuality. Disney itself is shown as sensitive to gay and lesbian audiences, while exploiting those same audiences as a niche market with strong buying power. Finally, Griffin demonstrates how queer audiences have co-opted Disney products for themselves and in turn how Disney's corporate strategies have influenced our very definitions of sexuality.

Tolentino is a peerless voice of her generation, tackling the conflicts, contradictions, and sea changes that define us and our time. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. *Trick Mirror* is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine's journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino's sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, *Trick Mirror* is an instant classic of the worst decade yet. FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY
