Vogue on: Elsa Schiaparelli Judith Watt,2012-09-13 Shocking, witty and eccentric, the designs of Elsa Schiaparelli are among the most innovative and influential in the history of fashion. Black gloves with golden fingernails, buttons shaped like lips, trompe l'oeil images, brightly coloured zips and perfume bottles in the shape of a torso would not be out of place in fashion today, but they were created by Schiaparelli in the 1930s. A true original, she collaborated with artists such as Salvador Dali and Man Ray, pioneered the runway show and designed costumes for film-stars from Mae West to Marlene Dietrich. She used film and stage as a publicity vehicle for her label, and her advertising graphics were far ahead of their time. Through the photographs and illustrations of Vogue that championed Schiaparelli from the first picture of her revolutionary Bow-knot sweater in 1927 to the Surrealist Tears dress and Shoe hat of the late 1930s, Elsa Schiaparelli presents the enduring legacy of this daring and visionary designer. Vogue, the international fashion bible, has charted the careers of designers through the decades. Its unique archive of photographs, taken by the leading photographers of the day from Cecil Beaton to Mario Testino, and original illustrations, together with its stable of highly respected fashion writers, make Vogue the most authoritative and prestigious source of reference on fashion. With a circulation of over 160,000 and a readership of over 1,400,000, no brand is better positioned to present a library on the great fashion designers of the modern age.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Claude Monet Claire Joyes,Claude Monet,1985 For forty-three years Monet lived and painted at Giverny and he created there one of the loveliest gardens ever known. For the first time, in this book both the gardens Monet planted and the gardens as they have been lovingly restored by Gérald Van der Kemp are seen together. In his introduction Van der Kemp tells how he brought the badly neglected garden and house back to their original condition. The restored gardens are beautifully photographed by Jena Barhto. In her fascinating essay, Claire Joyes captures Monet's vigor and great love of life, his temper and his famous cuisine. To accompany the essay the Monet family has contributed many period photographs of the irascible old master. The gardens inspired some of Monet's greatest painting -- the Water Lilies, (the Nymphea) the Grand Allée. Seeing them side by side with the gardens as they are now and as they were is a great delight, and with Claire Joyes' text the book is an important aid in understanding Monet both as man and as painter. -- From publisher's description.

Lucifer's Halo Joseph Michael Linsner, 2009 Dawn is the goddess of birth and rebirth.
