100 Principles of Game Design DESPAIN,2012-12-18 Game designers spend their lives solving extraordinary problems and facing mind-bending paradoxes. It's their job to make a meticulous plan for "spontaneous fun" players will want to experience over and over again. Pressure is heaped on with demands for innovation and blockbuster status. So designers find themselves facing an abyss of problems, pressure, and possibilities, armed only with their brains and an assortment of design principles they picked up over years of experience. For the first time, 100 Principles of Game Design gathers some of the best of these big ideas into one toolkit. Seasoned designers will be glad they don't have to hold it all in their heads anymore, and beginning design students can use the book to learn the tools of the trade. When the going gets tough, everyone can turn to this book for guidance, inspiration, or just to remind them of what works. Collected from every popular school of thought in game design, these core principles are organized by theme: innovation, creation, balancing, and troubleshooting. • Includes advances from the world's leading authorities on game design, some explained by the creators themselves • A reference book of finite, individual principles for easy access, providing a jumping off point for further research • Principles originating in fields as diverse as architecture, psychiatry, and economics, but shown here as they apply to game design • Richly designed with illustrations and photos, making each principle easy to understand and memorable • Timeless approach includes feedback loops, game mechanics, prototyping, economies of scale, user-centered design, and much more Professional designers and instructors at one of the world's leading game design institutions lay out the building blocks of diverse knowledge required to design even the simplest of games.

Psychopathia Sexualis Richard von Krafft-Ebing,2011-10-04 Lustmurder, necrophilia, pederasty, coprophilia, fetishism, bestiality, transvestism and transsexuality, rape and mutilation,

sado-masochism, exhibitionism All these and numerous other psychosexual proclivities are detailed in the 238 case histories that make up Richard von Krafft-Ebing's legendary *Psychopathia Sexualis*. This landmark text in the study of sexual mania and deviation is presented in a new, modern translation highlighting the cases chosen by Krafft-Ebing to appear in the 12th and final edition of the book, the culmination of his life's work. An essential reference book for those interested in the development of medical and psychiatric diagnosis of sexual derangement, the *Psychopathia Sexualis* will also prove a fascinating document to anyone drawn to the darker side of human sexuality and behaviour. Cases range from Sergeant Bertrand and Jack the Ripper to the most obscure and extreme instances of perversion known to 19th century psychiatrists and criminologists.

Against a Dark Background Iain M. Banks, 2009-07-01 Sharrow was once the leader of a personality-attuned combat team in one of the sporadic little commercial wars in the civilization based around the planet Golter. Now she is hunted by the Huhsz, a religious cult which believes that she is the last obstacle before the faith's apotheosis, and her only hope of escape is to find the last of the apocalyptically powerful Lazy Guns before the Huhsz find her. Her journey through the exotic Golterian system is a destructive and savage odyssey into her past, and that of her family and of the system itself.

Halo: The Flood William C. Dietz, 2019-01-01 The bestselling adaptation of the iconic video game *Halo: Combat Evolved* featuring the Master Chief—part of the expanded universe based on the award-winning video game series! 2552. Having barely escaped the final battle for Reach against the vast alien alliance known as the Covenant, the crew of the Pillar of Autumn, including

Spartan John-117—the Master Chief—and his AI companion Cortana, is forced to make a desperate escape into slipspace. But their destination brings them to an ancient mystery and an even greater struggle. In this far-flung corner of the universe floats a magnificently massive, artificial ringworld. The crew's only hope of survival is to crash-land on its surface and take the battle opposing the Covenant to the ground. But they soon discover that this enigmatic ringworld is much more than it seems. Built one hundred thousand years ago by a long-lost civilization known as the Forerunners, this “Halo” is worshipped by the Covenant—a sacred artifact they hope will complete their religious quest for supposed transcendence, and they will stop at nothing to control it. Engaging in fierce combat, Master Chief and Cortana will go deep into the Halo construct and uncover its dark secret and true purpose—even as a monstrous and far more vicious enemy than the Covenant emerges to threaten all sentient life on Halo and the galaxy beyond...

The Scar China Miéville, 2002-06-25 A mythmaker of the highest order, China Miéville has emblazoned the fantasy novel with fresh language, startling images, and stunning originality. Set in the same sprawling world of Miéville's Arthur C. Clarke Award-winning novel, *Perdido Street Station*, this latest epic introduces a whole new cast of intriguing characters and dazzling creations. Aboard a vast seafaring vessel, a band of prisoners and slaves, their bodies remade into grotesque biological oddities, is being transported to the fledgling colony of New Crobuzon. But the journey is not theirs alone. They are joined by a handful of travelers, each with a reason for fleeing the city. Among them is Bellis Coldwine, a renowned linguist whose services as an interpreter grant her passage—and escape from horrific punishment. For she is linked to Isaac Dan der Grimnebulin, the brilliant renegade scientist who has unwittingly unleashed a nightmare upon New Crobuzon. For Bellis, the plan is clear: live among the new frontiersmen of the colony until it is safe to return

home. But when the ship is besieged by pirates on the Swollen Ocean, the senior officers are summarily executed. The surviving passengers are brought to Armada, a city constructed from the hulls of pirated ships, a floating, landless mass ruled by the bizarre duality called the Lovers. On Armada, everyone is given work, and even Remades live as equals to humans, Cactae, and Cray. Yet no one may ever leave. Lonely and embittered in her captivity, Bellis knows that to show dissent is a death sentence. Instead, she must furtively seek information about Armada's agenda. The answer lies in the dark, amorphous shapes that float undetected miles below the waters—terrifying entities with a singular, chilling mission. . . . China Miéville is a writer for a new era—and *The Scar* is a luminous, brilliantly imagined novel that is nothing short of spectacular. **BONUS:** This edition contains an excerpt from China Miéville's *Embassytown*.

The theocratic military alliance known as the Covenant is showing no mercy as it continues to assault every human world it encounters, but in the way lies humanity's greatest champion, the super-soldier Spartan John-117—the Master Chief.
