Uproarious Cynthia Willett, Julie A. Willett, 2019 Placing theorists in conversation with comedians, *Uproarious* offers a full-frontal approach to the very foundation of comedy and its profound political impact. Here Cynthia Willett and Julie Willett address the four major theories of humor—superiority, relief, incongruity, and social play—through the lens of feminist and game-changing comics Wanda Sykes, Margaret Cho, Hannah Gadsby, Hari Kondabolu, and Tig Notaro.--

Having Your Say J. R. Shackleton, David S. Oderberg, Philip Booth, Nick Cowen, Stephen Davies, Claire Fox, Dennis Hayes, Victoria Hewson, Leo Kears, Jacob Mchangama, 2021-07 Today should be a Golden Age for free speech – with technology providing more ways of communicating ideas and opinions than ever before. Yet we’re actually witnessing a growing wave of restrictions on freedom of thought and expression. In *Having Your Say* a variety of authors – academics, philosophers, comedians and more – stress the fundamental importance of free speech, one of the cornerstones of classical liberalism. And they provide informed and incisive insights on this worrying trend, which threatens to usher in a new, intolerant and censorious era.

Big Farms Make Big Flu Rob Wallace, 2016-06-30 The first collection to explore infectious disease, agriculture, economics, and the nature of science together Thanks to breakthroughs in production and food science, agribusiness has been able to devise new ways to grow more food and get it more places more quickly. There is no shortage of news items on hundreds of thousands of hybrid poultry—each animal genetically identical to the next—packed together in megabarns, grown out in a matter of months, then slaughtered, processed and shipped to the other side of the globe. Less well known are the deadly pathogens mutating in, and emerging out of, these specialized agro-environments. In fact, many of the most dangerous new diseases in humans can be traced back to such food systems, among them *Campylobacter*, Nipah virus, Q fever, hepatitis E, and a variety of novel influenza variants. Agribusiness has known for decades that packing thousands of birds or livestock together results in a monoculture that selects for such disease. But market economics doesn't punish the companies for growing Big Flu—it punishes animals, the environment, consumers, and contract farmers. Alongside growing profits, diseases are permitted to emerge, evolve, and spread with little check. “That is,” writes evolutionary biologist Rob Wallace, “it pays to produce a pathogen that could kill a billion people.” In *Big Farms Make Big Flu*, a collection of dispatches by turns harrowing and thought-provoking, Wallace tracks the ways influenza and other pathogens emerge from an agriculture controlled by multinational corporations. Wallace details, with a precise and radical wit, the latest in the science of agricultural epidemiology, while at the same time

juxtaposing ghastly phenomena such as attempts at producing featherless chickens, microbial time travel, and neoliberal Ebola. Wallace also offers sensible alternatives to lethal agribusiness. Some, such as farming cooperatives, integrated pathogen management, and mixed crop-livestock systems, are already in practice off the agribusiness grid. While many books cover facets of food or outbreaks, Wallace's collection appears the first to explore infectious disease, agriculture, economics and the nature of science together. *Big Farms Make Big Flu* integrates the political economies of disease and science to derive a new understanding of the evolution of infections. Highly capitalized agriculture may be farming pathogens as much as chickens or corn.

Soucouyant David Chariandy, 2007-09-01 A "soucouyant" is an evil spirit in Caribbean lore, a reminder of past transgressions that refuse to diminish with age. In this beautifully told novel that crosses borders, cultures, and generations, a young man returns home to care for his aging mother, who suffers from dementia. In his efforts to help her and by turn make amends for their past estrangement from one another, he is compelled to re-imagine his mother's stories for her before they slip completely into darkness. In delicate, heartbreaking tones, the names for everyday things fade while at the same time a beautiful, haunted life, stained by grief, is slowly revealed. The Deeper the Roots Michael Tubbs, 2021-11-16 "Insightful, emotional, and enraging. By sharing his story in gripping detail, Michael Tubbs embodies an old feminist tradition whereby the personal is political. He empowers us to fight for equal opportunities for our communities, and encourages us to amass the courage to overcome loss and injustice." —Ibram X. Kendi, National Book Award-winning author of *Stamped from the Beginning* and *How to Be an Antiracist* The making of a visionary political leader—and a blueprint for a more equitable country "Don't tell nobody our business," Michael Tubbs's mother often told him growing up. For Michael, that meant a lot of things: don't tell anyone about the day-to-day struggle of being Black and broke in Stockton, CA. Don't tell anyone the pain of having a father incarcerated for 25 years to life. Don't tell anyone about living two lives, the brainy bookworm and the kid with the newest Jordans. And also don't tell anyone about the particular joys of growing up with three "moms"—a Nana who never let him miss church, an Auntie who'd take him to the library any time, and a mother, "She-Daddy", who schooled him in the wisdom of hip-hop and taught him never to take no for an answer. So for a long time Michael didn't tell anyone his story, but as he went on to a scholarship at Stanford and an internship in the Obama White House, he began to realize the power of his experience, the need for his perspective in the halls of power. By the time he returned to Stockton to become, in 2016 at age 26, its first Black mayor and the youngest-ever mayor of a major American city, he knew his story meant something. *The Deeper the Roots* is a memoir astonishing in its candor, voice, and clarity of vision. Tubbs shares with us the city that raised him, his family of badass women, his life-changing encounters with Oprah Winfrey and Barack Obama, the challenges of governing in the 21st century and everything in between—en route to unveiling his compelling vision for America rooted in his experiences in his hometown.

Intellectual Empathy Maureen Linker, 2014-06-01 A guide for facilitating discussions about socially divisive issues for students, educators, business managers, and community leaders

The Dolphin Way Shimi Kang, 2014-05-01 In this inspiring book, Harvard-trained child and adult psychiatrist and expert in human motivation Dr. Shimi Kang provides a guide to the art and science of inspiring children to develop their own internal drive and a lifelong love of learning. Drawing on the latest neuroscience and behavioral research, Dr. Kang shows why pushy “tiger parents” and permissive “jellyfish parents” actually hinder self-motivation. She proposes a powerful new parenting model: the intelligent, joyful, playful, highly social dolphin. Dolphin parents focus on maintaining balance in their children’s lives to gently yet authoritatively guide them toward lasting health, happiness, and success. As the medical director for Child and Youth Mental Health community programs in Vancouver, British Columbia, Dr. Kang has witnessed firsthand the consequences of parental pressure: anxiety disorders, high stress levels, suicides, and addictions. As the mother of three children and as the daughter of immigrant parents who struggled to give their children the “best” in life—Dr. Kang’s mother could not read and her father taught her math while they drove around in his taxicab—Dr. Kang argues that often the simplest “benefits” we give our children are the most valuable. By trusting our deepest intuitions about what is best for our kids, we will in turn allow them to develop key dolphin traits to enable them to thrive in an increasingly complex world: adaptability, community-mindedness, creativity, and critical thinking. Life is a journey through ever-changing waters, and dolphin parents know that the most valuable help we can give our children is to assist them in developing their own inner compass. Combining irrefutable science with unforgettable real-life stories, *The Dolphin Way* walks readers through Dr. Kang’s four-part method for cultivating self-motivation. The book makes a powerful case that we are not forced to choose between being permissive or controlling. The third option—the option that will prepare our kids for success in a future that will require adaptability—is the dolphin way.

Cultural Studies As Critical Theory Ben Agger, 2014-05-01 Examines the field of cultural studies and argues for its relevance in addressing the enormous impact of popular culture and mass media today. Islandborn Junot Díaz, 2018-03-13 From New York Times bestseller and Pulitzer Prize winner Junot Díaz comes a debut picture book about the magic of memory and the infinite power of the imagination. A 2019 Pura Belpré Honor Book for Illustration Every kid in Lola's school was from somewhere else. Hers was a school of faraway places. So when Lola's teacher asks the students to draw a picture of where their families immigrated from, all the kids are excited. Except Lola. She can't remember The Island—she left when she was just a baby. But with the help of her family and friends, and their memories—joyous, fantastical, heartbreaking, and frightening—Lola's imagination takes her on an extraordinary journey back to The Island. As she draws closer to the heart of her family's story, Lola comes to understand the truth of her abuela's words: “Just because you don't remember a place doesn't mean it's not in you.” Gloriously illustrated and lyrically written, *Islandborn* is a celebration of creativity, diversity, and our imagination's boundless ability to connect us—to our families, to our past and to ourselves.

Ants Among Elephants Sujatha Gidla, 2017-07-18 Like one in six people in India, Sujatha Gidla was born an untouchable. While most untouchables are illiterate, her family was educated by Canadian missionaries in the 1930s, making it possible for Gidla to attend elite schools and move to America at the age of twenty-six. It was only then that she saw how extraordinary -- and yet how typical -- her family history truly was. Her mother and uncles were born in the last days of British colonial rule. They

grew up in a world marked by poverty and injustice, but also full of possibility. The Independence movement promised freedom. Yet for untouchables and other poor people, little changed. In rich, novelistic prose, *Ants Among Elephants* tells Gidla's extraordinary family story detailing her uncle's emergence as a poet and revolutionary and her mother's struggle for emancipation through education.

The Sasquatch Hunter's Almanac Sharma Shields, 2015-01-27 A multigenerational tale tells the story of the Roebuck family whose patriarch, Eli, is consumed by the hunt for the mythical, elusive sasquatch he claims to have encountered in his youth. Original.

Interspecies Ethics Cynthia Willett, 2014-08-05 *Interspecies Ethics* explores animals' vast capacity for agency, justice, solidarity, humor, and communication across species. The social bonds diverse animals form provide a remarkable model for communitarian justice and cosmopolitan peace, challenging the human exceptionalism that drives modern moral theory. Situating biosocial ethics firmly within coevolutionary processes, this volume has profound implications for work in social and political thought, contemporary pragmatism, Africana thought, and continental philosophy. *Interspecies Ethics* develops a communitarian model for multispecies ethics, rebalancing the overemphasis on competition in the original Darwinian paradigm by drawing out and stressing the cooperationist aspects of evolutionary theory through mutual aid. The book's ethical vision offers an alternative to utilitarian, deontological, and virtue ethics, building its argument through rich anecdotes and clear explanations of recent scientific discoveries regarding animals and their agency. Geared toward a general as well as a philosophical audience, the text illuminates a variety of theories and contrasting approaches, tracing the contours of a postmoral ethics.

American Ghost Hannah Nordhaus, 2015-03-10 "A haunting story about the long reach of the past." —Maureen Corrigan, NPR's *Fresh Air* "In this intriguing book, [Nordhaus] shares her journey to discover who her immigrant ancestor really was—and what strange alchemy made the idea of her linger long after she was gone." —People La Posada—"place of rest"—was once a grand Santa Fe mansion. It belonged to Abraham and Julia Staab, who emigrated from Germany in the mid-nineteenth century. After they died, the house became a hotel. And in the 1970s, the hotel acquired a resident ghost—a sad, dark-eyed woman in a long gown. Strange things began to happen there: vases moved, glasses flew, blankets were ripped from beds. Julia Staab died in 1896—but her ghost, they say, lives on. In *American Ghost*, Julia's great-great-granddaughter, Hannah Nordhaus, traces her ancestor's transfiguration from nineteenth-century Jewish bride to modern phantom. Family diaries, photographs, and newspaper clippings take her on a riveting journey through three hundred years of German history and the American immigrant experience. With the help of historians, genealogists, family members, and ghost hunters, she weaves a masterful, moving story of fin-de-siècle Europe and pioneer life, villains and visionaries, medicine and spiritualism, imagination and truth, exploring how lives become legends, and what those legends tell us about who we are.

The Ghost Daughter Maureen O'Leary, 2016-07-01 Angel barely survives the Loma Prieta earthquake of October, 1989, only to be told that she was stolen from her real mother when she was a small child. While Angel's adopted mother Judith languishes in prison, Angel struggles to come to terms with her new reality, her birth mother flees her dark past, and a police detective tries to distinguish the truth from the lies.
