Nazi UFOs S.D. Tucker,2022-10-24 Nazi UFOs tells the strange tale of how, following the first alleged flying saucer sightings made in the USA in 1947, a series of fantasists and neo-fascists came forward to create a media myth that the Nazis may have invented these incredible craft as a means for winning the Second World War, a plan which was tantalisingly close to completion before the Allies conquered Berlin in 1945. Today, the fantasy of Nazi UFOs has grown into an entire mythology in books, on TV and online. Did Germany back-engineer anti-gravity craft, and even a full-blown time-machine, by stripping technology from a crashed alien saucer? Did the SS secretly invent 'Green' technology for use in their star ship engines, and was this planet-saving discovery later suppressed at the behest of a sinister Big Oil conspiracy? Did Himmler try to develop 'lightning weapons' for use in aerial combat? By contrasting the fake military-industrial pseudo-histories of Nazi UFO theorists with details of real-life Nazi aerospace achievements, the author demonstrates both how this modern-day mythology came about and how it cannot possibly be more than fractionally true. For the first time, this fake 'alternative military history' is laid out in full. This book features an appealing cast of con-men and spies, complete madmen, real-life Nazis and completely made-up ones, operating right across the globe from South America to wartime Europe and Japan. A good example may be the 'mad professor', Viktor Schauberger, who actually genuinely did manage to gain a personal audience with Adolf Hitler in order to try and convince him that he had discovered and then exploited some amazing new source of natural 'free energy' which could make objects (such as saucers, in the opinion of some) float. Hitler dismissed his plan, but it does nonetheless show how close some bizarre schemes came to being implemented in Nazi Germany.

Hitler's Antarctic Base: the Myth and the Reality Colin Summerhayes,Peter Beeching,2016-05 Secrets of the Third Reich's Base in Antarctica A remarkable event occurred in 1999, but only specialists paid adequate attention to it. A research expedition discovered a virus in Antarctica; at that, neither people nor animals had immunity to the virus. After all, Antarctica is far away, for this very reason the virus cannot be dangerous for the rest of the planet, especially the dangerous discovery was deep in the permafrost. However, scientists say that against the background of a global warming threatening the Earth, the unknown virus can cause an awful catastrophe on the planet. Expert Tom Starmerue from the University of New York also shares the pessimistic forecasts of his colleagues. We don't know what the mankind will face in the South Pole in the nearest time due to the global warming. It is not ruled out that an unbelievable catastrophe may break out. Viruses protected with a protein cover survive even in the permafrost; as soon as the temperature gets warmer they will immediately start reproducing. American scientists treated the Antarctica discovery very seriously and even organized a special expedition that currently tests the ice for unknown viruses in order to develop an antidote in good time. What is the source of the virus in Antarctica where only penguins can survive in the ice? There is no answer to the question, specialists are at a loss. However, several theories concerning the problem have been put forward. We would like to touch upon the most interesting of them. A majority of scientists are inclined to believe that prehistoric forms of life probably survived in the permafrost. There are more versions that are interesting and sometimes quite unusual. Some specialists blame bonzes of the Third Reich for delivery of a secretly developed bacteriological weapon to Antarctica. And this theory arose not in a vacuum. It is known that already in 1938 Nazis suddenly became interested in Antarctica, they organized two expeditions to the area in 1938-1939. At first, planes of the Third Reich took detailed pictures of unexplored territories and then they dropped several thousands of metal pennons with swastika there. The whole of the explored territory was called Neuschwabenland and was considered a part of the Third Reich. After the expedition, Captain Ritscher reported to Field-Marshal Hering: The planes dropped the pennons each 25 kilometers; we covered the area of about 8.600 thousand square meters. 350 thousand square meters of them were photographed. In 1943, Grand Admiral Karl Donitz dropped a remarkable phrase: Germany's submarine fleet is proud that it created an unassailable fortress for the Fuhrer on the other end of the world. Submarines were mostly used for transportation of necessary freight to the place. The submarines also received passengers whose faces were hidden behind surgical bands. Wilhelm Bernhard was commander of one of the submarines, U-530; the submarine left the port of Kiel on April 13, 1945. When it reached the shores of Antarctica, 16 members from the crew built an ice cave and put boxes into the cave; it was allegedly said that the boxes contained relics of the Third Reich, including Hitler's documents and personal stuff. The operation was code named Valkyrie-2. When the operation was over on July 10, 1945, the submarine U-530 entered the Argentinean port of Mar-del-Plata and surrendered to the authorities. It is also supposed that another submarine from the formation, U-977, under the command of Heinz Scheffer, delivered the remains of Hitler and Braun to Neuschwabenland. It followed the route of the U-530 submarine and called at Antarctica. The sub arrived in Mar-del-Plata on Aug. 17, 1945.

Secret Journey to Planet Serpo Len Kasten,2013-05-05 Documents how 12 people, as part of a top-secret U.S. government program, traveled to the planet Serpo and lived there for 13 years • Based on the debriefing of the Serpo team and the diary of the expedition's commander • Explains how the aliens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems • Reveals how our government has an ongoing relationship with the Serpo aliens On July 16, 1965, a massive alien spacecraft from the Zeta Reticuli star system landed at the Nevada test site north of Las Vegas. Following a plan set in

motion by President Kennedy in 1962, the alien visitors known as the Ebens welcomed 12 astronaut-trained military personnel aboard their craft for the 10-month journey to their home planet, Serpo, 39 light-years away. In November 2005, former and current members of the Defense Intelligence Agency--directed by Kennedy to organize the Serpo exchange program--came forward to reveal the operation, including details from the 3,000-page debriefing of the 7 members of the Serpo team who returned after 13 years on the planet. Working with the DIA originators of the Serpo project and the diary kept by the expedition's commanding officer, Len Kasten chronicles the complete journey of these cosmic pioneers, including their remarkable stories of life on an alien planet, superluminal space travel, and advanced knowledge of alien technologies. He reveals how the Ebens presented the U.S. with "The Yellow Book"--a complete history of the universe recorded holographically, allowing the reader to view actual scenes from pre-history to the present. He explains how the Ebens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems--knowledge still classified. Exposing the truth of human-alien interaction and interplanetary travel, Kasten reveals not only that the Ebens have returned to Earth eight times but also that our government continues to have an ongoing relationship with them--a relationship with the potential to advance the human race into the future.

Hidden Agenda Mike Bara, 2016-10-14 Space expert Mike Bara looks at the secret space program of the American military that has been going on for over 60 years. Bara looks the Army Ballistic Missile Agency (TM)s proposed Project Horizon which was a study to determine the feasibility of constructing a scientific / military base on the Moon. On June 8, 1959, a group at the Army Ballistic Missile Agency (ABMA) produced for the U.S. Department of the Army a report entitled Project Horizon, A U.S. Army Study for the Establishment of a Lunar Military Outpost. The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Wernher von Braun, head of ABMA, appointed Heinz-Hermann Koelle to head the project team at Redstone Arsenal. Their plans called for 147 early Saturn A-class rocket launches to loft spacecraft components for assembly in low Earth orbit at a spent-tank space station. A lunar landing-and-return vehicle would have shuttled up to 16 astronauts at a time to the base and back. While officially Project Horizon was scrapped by the military, or was it? Bara looks into the secret space program, the possibility of secret bases on the Moon and many rumors surrounding the military (TM)s secret projects in space. The book will ask and answer many questions. Was Wernher von Braun involved in the Roswell crash investigation? Why did he suddenly become fascinated with highly advanced theoretical physics propulsion systems during the Apollo years, and why did all of this public research suddenly oego black in the early 1960s? Did NASA and the Pentagon know and expect to find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the TV cameras in order to hide their explorations of one of these bases? What was the top secret oeChapel Bell experiment on Apollo 16? Has teleportation been developed from captured alien technology and used to transport humans to secret NASA/DOD bases on Mars? Do space shuttle videos taken in the 1990s show proof of a highly advanced secret US space fleet? Does hacker Gary Mackinnon (TM)s discovery of defense department documents identifying oenon-terrestrial officers serving in space mean that the US has secret space platforms designed to fight a war with an alien race? And, have these secret military space platforms been photographed by civilian observers here on Earth?

Conspiracy Journal Presents The New Expanded Edition Of A Book That Has Caused Considerable Controversy Since It was Originally Published In The 1970s. This edition is not endorsed by: The Publisher Or Any Known UFOlogist, Conspiracy Buff, or the Space Brothers. The author of this book and his friends say they started to delve into the UFO mystery and what they discovered is truly amazing. They circulated their finds over the years to an ever-increasing number of contacts. Whenever more reports of UFO crews speaking Germany and behaving like German soldiers or of sightings and documentation showing a UFO landing gear imprint in a clear swastika shape reached the authors, they took a closer look. There now appeared a distinguishable pattern, in proper time and date sequence, they hinted at a possible connection between the appearance of UFOs in large numbers and Hitler's possible survival and escape from Berlin. All publishers that were approached turned down the controversial nature of this manuscript. Only through the efforts of a dedicated group of individuals has this manuscript finally been published for all the world to see. Against threats and persecution, this incredible book details previously unpublished engineering drawings and illustrations of prototypes of the Secret Nazi Ships first invented toward the end of WWII. First Platoon Annie Jacobsen,2022-01-25 A powerful story of war in our time, of love of country, the experience of tragedy, and a platoon at the center of it all. This is a story that starts off close and goes very big. The initial part of the story might sound familiar at first: it is about a platoon of mostly nineteen-year-old boys sent to Afghanistan, and an experience that ends abruptly in catastrophe. Their part of the story folds into the next: inexorably linked to those soldiers and never comprehensively reported before is the U.S. Department of Defense's quest to build the world's most powerful biometrics database, with the ability to identify, monitor, catalog, and police people all over the world. First Platoon is an American saga that illuminates a transformation of society made possible by this new technology. Part war story, part legal drama, it is about identity in the age of identification. About humanity—physical bravery, trauma, PTSD, a yearning to do right and good—in the age of biometrics, which reduce people to iris scans, fingerprint scans, voice patterning, detection by odor, gait, and more. And about the power of point of view in a burgeoning surveillance state. Based on hundreds of formerly classified documents, FOIA requests, and exclusive interviews, First Platoon is an investigative exposé by a master chronicler of government secrets. First Platoon reveals a post-9/11 Pentagon whose identification machines have grown more capable than the humans who must make sense of them. A Pentagon so powerful it can cover up its own internal mistakes in pursuit of endless wars. And a people at its mercy, in its last moments before a fundamental change so complete it might be impossible to take back.

Inside the Secret Space Programs Herbert Dorsey,2017-02-15 Inside the Secret Space Programs is a continuation of two previous works by the Author, Herbert G. Dorsey III - Secret Science and the Secret Space Program, and The Covert Colonization of Our Solar System. The previous two books, document the progress of antigravity propulsion, from the German Vril Society and their Jentsigsflugmaschine [otherworld flying machine], in 1923 and Thomas Townsend Brown's experiments with gravitators at about the same time, to the present black projects inside companies like Lockheed Martin, Northrup Grumman, Boeing Aerospace, and North American, which create antigravity craft for the Air Force, Navy and some private corporations like the secretive Interplanetary Corporate Conglomerate (ICC). As more information becomes available from persons, like Corey Goode, William Tompkins, and Tony Rodrigues and others who worked in the secret space programs is revealed, a better picture of what goes on inside these programs is made possible. Sufficient new information has been revealed to warrant a new book on the subject. And remarkably, the new information, not only to a large degree, reinforces the information revealed in the previous two books, but also adds important information on subjects like where these kilometers long space craft are being built on this planet and how is it being financed. If you are interested in learning more about is really going on out in space, the covert colonizing, militarization, manufacturing and mining of Mars, other planets, moons and asteroids in our Solar system and even in other star systems, or you are curious about the technology used and how it works, this would be an excellent book to study.

Beyond Esoteric Brad Olsen,2021-01-14 Nothing in this world works the way you think it does; there is always more to the story. Be aware that there is a war for your mind and your soul. Corporations have taken over governments in a new form of Fascism that now incorporates high technology and artificial intelligence. The survival of the human race may depend on breaking the Embargo of truth, and collectively developing an ÜberMind. But truth always resonates! Beyond Esoteric takes off the kids gloves, and exposes the control grid extending its tentacles across the planet. The word occult means nothing more than to study the realm of the hidden. So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information of how the world works and how to manifest reality is something you do not need to know. Everything we think we know about the world and the universe in which we live, whatever we have been led to believe concerning the course of human history, could very well be completely wrong, distorted and misinformed. The 19th century teachers of the occult could never have imagined The Ultimate Journey of the 21st century we now face, one that extends far Beyond Esoteric.

The Cosmic War Joseph P. Farrell,2012-12-05 There is ample evidence across our solar system of cataclysmic and catastrophic destruction events. The asteroid belt, for example, may be the remains of an exploded planet! The known planets are scarred from incredible impacts, and teeter in their orbits due to causes heretofore inadequately explained. Rejecting the naturalist and materialist assumptions of catastrophism forwarded by other researchers, Farrell asserts that it is time to take the ancient myths of a Cosmic War in the heavens seriously. Incorporating extraterrestrial artifacts, cutting-edge ideas in contemporary physics, and the texts of ancient myths into his argument, Farrell maintains that an ancient interplanetary war was fought in our own solar system with weapons of extraordinary power and sophistication. In doing so, he offers a solution to an enigma that has long mystified researchers, disclosing a cause of that ancient war, the means by which it was waged, and the real nature of the secret technology behind the ancient "Tablets of Destinies." It is all here, folks! The history of the Exploded Planet hypothesis, and what mechanism can actually explode a planet. The role of plasma cosmology, plasma physics (even plasma paleophysics) and scalar physics. The ancient texts telling of such destructions: from Sumeria (Tiamat's destruction by Marduk), Egypt (Edfu and the Mars connections), Greece (Saturn's role in the War of the Titans) and the ancient Americas.

Die Glocke "The Bell" S.E. Bolden,2020-11-09 In the last year of World War II, most of Germany realized defeat was imminent. Facing the overwhelming power and equipment of the Allies, Hitler authorized the construction of Wunderwaffe (wonder weapons). This story offers an explanation of the focus on the "Die Glocke"

project. There were other Wunderwaffe projects but “The Bell” was the one most-cloaked in secrecy. If its powers could be harnessed by the Nazis, it could be the bargaining chip to bring the Allies to the negotiating table and improve the surrender terms of the Third Reich. Its powers were believed to be so staggering that at the end of World War II, all of the scientists and laborers working on “Die Glocke” were murdered. The bell, General Hans Kammler (SS general in charge of the Die Glocke project), two Nazi U-boats, and many Nazi war criminals ended up missing. This work of fiction attempts to explain this mystery.

Legacy Robert Maxxim,2014-06-24 A novel 30 years in the making, Legacy is a story, set in the future, of mankind's previous sojourns through this and countless other worlds, as experienced by the author. It describes one man's incredible journey through several lifetimes as far back as a million years, his blunders and triumphs, and the many worlds and places where these experiences took place. The book also highlights advanced scientific and spiritual concepts, written in lyrical, romantic prose. But most of all, it is a powerful love story deeply rooted in his unquenchable, desperate search through the vastness of space and time for his one; his soul mate. In Episode I, the main character, a geologist on Mars, stumbles upon benign underground Martian civilizations and establishes a close relationship with a Martian woman who, unbeknown to him, is his long lost one. Theirs is love at first sight, yet kept secret from each other. Martians, and envoys from other worlds, offer to teach Earth the true science of life, but wicked parties hastily draw plans to deceive and exploit aliens. He holds true to his alien friends and his one, in spite of endless guile. Lifestyles change, weapons vanish, and love fosters on Earth under alien guidance. But his heart must also change by facing horrible deeds he committed in past lives he now ignores. Of these, none compare in iniquity to his role as The Destroyer; a cosmic oppressor that terrorized the galaxy in the name of an evil space Alliance based in Orion.

The Hunt for Zero Point Nick Cook,2007-12-18 This riveting work of investigative reporting and history exposes classified government projects to build gravity-defying aircraft--which have an uncanny resemblance to flying saucers. The atomic bomb was not the only project to occupy government scientists in the 1940s. Antigravity technology, originally spearheaded by scientists in Nazi Germany, was another high priority, one that still may be in effect today. Now for the first time, a reporter with an unprecedented access to key sources in the intelligence and military communities reveals suppressed evidence that tells the story of a quest for a discovery that could prove as powerful as the A-bomb. The Hunt for Zero Point explores the scientific speculation that a zero point of gravity exists in the universe and can be replicated here on Earth. The pressure to be the first nation to harness gravity is immense, as it means having the ability to build military planes of unlimited speed and range, along with the most deadly weaponry the world has ever seen. The ideal shape for a gravity-defying vehicle happens to be a perfect disk, making antigravity tests a possible explanation for the numerous UFO sightings of the past 50 years. Chronicling the origins of antigravity research in the world's most advanced research facility, which was operated by the Third Reich during World War II, The Hunt for Zero Point traces U.S. involvement in the project, beginning with the recruitment of former Nazi scientists after the war. Drawn from interviews with those involved with the research and who visited labs in Europe and the United States, The Hunt for Zero Point journeys to the heart of the twentieth century's most puzzling unexplained phenomena.
