At the Crossroads of Sahelian Conflicts Savannah de Tessières,2018 In addition to an analysis of the types of armed violence that prevail in Niger, including terrorism, communal conflict, and armed banditry, this Report examines arms trafficking in the country and the illicit possession of weapons by civilians, as well as by armed entities and terrorist groups. The Report also provides an overview of the responses to insecurity in Niger by the national authorities, their international partners, and non-state actors, and discusses the main impacts of insecurity on the country. Finally, the Report also includes an Annexe listing all illicit small-calibre ammunition documented by the Small Arms Survey in Niger in 2016 and 2017, the type of armed actors from which it was seized, and information regarding where else in the Sahel it is also in use, shedding significant light on trends in the illicit movement of military materiel in the region.

But what will it take to fight and survive on the battlefields of tomorrow? What will those combat arenas consist of, and where will they be? And what will our nation's fighting men and women carry with them into battle? Future Weapons is a compendium of the weapons of war that may accompany our soldiers in the near and far future, as well as an insightful look at the soldier, sailor, and airman of today and tomorrow. All manner of military hardware is covered, as well as information about cutting-edge technology that will become standard in weapons to come, the possibility of robotic soldiers, vehicles, protective armor, and the prospects of fighting a war in both space and cyberspace.

Afghanistan, Arms and Conflict Michael Vinay Bhatia,Mark Sedra,2008-05-05 This is the first book to provide a comprehensive assessment of small arms and security-related issues in post-9/11 Afghanistan. It includes case studies which reveal the findings of in-depth field research on hitherto neglected regions of the country, and provides a distinctive balance of thematic analysis, conceptual models and empirical research. Exploring various facets of armed violence and measures to tackle it, the volume provides significant insight into broader issues such as the efficacy of international assistance, the ‘shadow’ economy, warlordism, and the Taliban-led insurgency. In an effort to deconstruct and demystify Afghanistan’s alleged ‘gun culture’, it also explores some of the prevailing obstacles and opportunities facing the country in its transition period. In so doing, the book offers valuable lessons to the state-builders of Afghanistan as well as those of other countries and regions struggling to emerge from periods of transition. This book will be of much interest to all students of Afghanistan, small arms, insurgency, Asian Studies, and conflict studies in general.
