Time Song Julia Blackburn, 2019-08-06 Julia Blackburn has always collected things that hold stories about the past, especially the very distant past: mammoth bones, little shells that happen to be two million years old, a flint shaped as a weapon long ago. Shortly after her husband's death, Blackburn became fascinated with Doggerland, the stretch of land that once connected Great Britain to Continental Europe but is now subsumed by the North Sea. She was driven to explore the lives of the people who lived there—studying its fossil record, as well as human artifacts that have been

unearthed near the area. In *Time Song*, Blackburn brings us along on her journey to discover what Doggerland left behind, introducing us to the paleontologists, archaeologists, fishermen and fellow Doggerland enthusiasts she meets along the way. She sees the footprints of early humans fossilized in the soft mud of an estuary alongside the scattered pockmarks made by rain falling eight thousand years ago. She visits a cave where the remnants of a Neanderthal meal have turned to stone. In Denmark she sits beside Tollund Man, who seems to be about to wake from a dream, even though he had lain in a peat bog since the start of the Iron Age. As Doggerland begins to come into focus, what emerges is a profound meditation on time, a sense of infinity as going backward and an intimation of the immensity of everything that has already passed through its time on earth and disappeared.

Thin Places Kerri ní Dochartaigh, 2022-04-12 An Indie Next Selection for April 2022 An Indies Introduce Selection for Winter/Spring 2022 A Junior Library Guild Selection Both a celebration of the natural world and a memoir of one family's experience during the Troubles, *Thin Places* is a gorgeous braid of "two strands, one wondrous and elemental, the other violent and unsettling, sustained by vividly descriptive prose" (*The Guardian*). Kerri ní Dochartaigh was born in Derry, on the border of the North and South of Ireland, at the very height of the Troubles. She was brought up on a council estate on the wrong side of town—although for her family, and many others, there was no right side. One parent was Catholic, the other was Protestant. In the space of one year, they were forced out of two homes. When she was eleven, a homemade bomb was thrown through her bedroom window. Terror was in the very fabric of the city, and for families like ní Dochartaigh's, the ones who fell between the cracks of identity, it seemed there was no escape. In *Thin Places*, a luminous blend of memoir, history, and nature writing, ní Dochartaigh explores how nature kept her sane and helped her heal, how violence and poverty are never more than a stone's throw from beauty and hope, and how we are, once again, allowing our borders to become hard and terror to creep back in. Ní Dochartaigh asks us to reclaim our landscape through language and study, and remember that the land we fight over is much more than lines on a map. It will always be ours, but—at the same time—it never really was.

Claudia Roden As a nation of food-lovers we have been munching on fruit and veg, drinking tea and coffee and adorning our dishes with oils and spices for generations, but have you ever stopped to wonder how our most beloved foods came to be the way they are now? Strawberry, why three-quarters of Britain's late-18th-century intake of tea was sold on the black market, and what Sigmund Freud found so fascinating about eel genitalia. Encyclopedia of Ephemera Michael Twyman, 2018-10-24 The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives -- or ephemera -- may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day-to-day life. The Encyclopedia of Ephemera is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era, when disposable paper items such as trade cards, die-cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple slips of paper can speak volumes about status, taste, customs, and taboos, revealing the very roots of popular culture.
