*Empires of the Silk Road* Christopher I. Beckwith,2009-03-16 The first complete history of Central Eurasia from ancient times to the present day, *Empires of the Silk Road* represents a fundamental rethinking of the origins, history, and significance of this major world region. Christopher Beckwith describes the rise and fall of the great Central Eurasian empires, including those of the Scythians, Attila the Hun, the Turks and Tibetans, and Genghis Khan and the Mongols. In addition, he explains why the heartland of Central Eurasia led the world economically, scientifically, and artistically for many centuries despite invasions by Persians, Greeks, Arabs, Chinese, and others. In retelling the story of the Old World from the perspective of Central Eurasia, Beckwith provides a new understanding of the internal and external dynamics of the Central Eurasian states and shows how their people repeatedly revolutionized Eurasian civilization. Beckwith recounts the Indo-Europeans' migration out of Central Eurasia, their mixture with local peoples, and the resulting development of the Graeco-Roman, Persian, Indian, and Chinese civilizations; he details the basis for the thriving economy of premodern Central Eurasia, the economy's disintegration following the region's partition by the Chinese and Russians in the eighteenth and nineteenth centuries, and the damaging of Central Eurasian culture by Modernism; and he discusses the significance for world history of the partial reemergence of Central Eurasian nations after the collapse of the Soviet Union. *Empires of the Silk Road* places Central Eurasia within a world historical framework and demonstrates why the region is central to understanding the history of civilization.

**Power, Protection and Magic in Thailand** Craig J. Reynolds,2019-10-22 This biographical study of an unusual southern policeman explores the relationship between religion and power in Thailand during the early twentieth century when parts of the country were remote and banditry was rife. Khun Phan (1898–2006), known as Lion Lawman, sometimes used rather too much lethal force in carrying out his orders. He was the most famous graduate of a monastic academy in the mid-south, whose senior teachers imparted occult knowledge favoured by fighters on both sides of the law. Khun Phan imbibed this knowledge to confront the risks and uncertainty that lay ahead and bolster his confidence and self-reliance for his struggle with adversaries. Against the background of national events, the story is rooted in the mid-south where the policeman was born and died. Based on a wide range of works in Thai language, on field trips to the region and on interviews with local and regional scholars as well as the policeman's descendants, this generously illustrated book, accompanied by short video clips, brings to life the distinctive environment of the lakes district on the Malay Peninsula.

**Industry 4.0 for SMEs** Dominik T. Matt,Vladimír Modrák,Helmut Zsifkovits,2020-01-03 This open access book explores the concept of Industry 4.0, which presents a considerable challenge for the production and service sectors. While digitization initiatives are usually integrated into the central corporate strategy of larger companies, smaller firms often have problems putting Industry 4.0 paradigms into practice. Small and medium-sized enterprises (SMEs) possess neither the human nor financial resources to systematically investigate the potential and risks of introducing Industry 4.0. Addressing this obstacle, the international team of authors focuses on the development of smart manufacturing concepts, logistics solutions and managerial models specifically for SMEs. Aiming to provide methodological frameworks and pilot solutions for SMEs during their digital transformation, this innovative and timely book will be of great use to scholars researching technology management, digitization and small business, as well as practitioners within manufacturing companies.

**Architects of Buddhist Leisure** Justin Thomas McDaniel,2017-04-01 Buddhism, often described as an austere religion that condemns desire, promotes denial, and idealizes the contemplative life, actually has a thriving leisure culture in Asia. Creative religious improvisations designed by Buddhists have been produced both within and outside of monasteries across the region—in Nepal, Japan, Korea, Macau, Hong Kong, Singapore, Laos, Thailand, and Vietnam. Justin McDaniel looks at the growth of Asia's culture of Buddhist leisure—what he calls “socially disengaged Buddhism”—through a study of architects responsible for monuments, museums, amusement parks, and other sites. In conversation with noted theorists of material and visual culture and anthropologists of art, McDaniel argues that such sites highlight the importance of public, leisure, and spectacle culture from a Buddhist perspective and illustrate how “secular” and “religious,” “public” and “private,” are in many ways false binaries. Moreover, places like Lek Wiriyaphan's Sanctuary of Truth in Thailand, Suối Tiên Amusement Park in Saigon, and Shi Fa Zhao's multilevel museum/ritual space/tea house in Singapore reflect a growing Buddhist ecumenism built through repetitive affective encounters instead of didactic sermons and sectarian developments. They present different Buddhist traditions, images, and aesthetic expressions as united but not uniform, collected but not concise: Together they form a gathering, not a movement. Despite the ingenuity of lay and ordained visionaries like Wiriyaphan and Zhao and their colleagues Kenzo Tange, Chan-soo Park, Tadao Ando, and others discussed in this book, creators of Buddhist leisure sites often face problems along the way. Parks and museums are complex adaptive systems that are changed and influenced by budgets, available materials, local and global economic conditions, and visitors. Architects must often compromise and settle at local optima, and no matter what they intend, their buildings will develop lives of their own. Provocative and theoretically innovative, *Architects of Buddhist Leisure* asks readers to question the very category of “religious” architecture. It challenges current methodological approaches in religious studies and speaks to a broad audience interested in modern art, architecture, religion, anthropology, and material culture. **School Leadership - International Perspectives** Stephan Huber,2009-12-24 Recent research into school effectiveness has corroborated the theory that the school leader plays a pivotal role making their school a successful institution, and is most often cited as the key factor in a school's development. Reflecting the importance it is given in the today's education landscape, this book explores the latest trends in school leadership from both theoretical and practical perspectives. Each chapter provides insight into an aspect of current research, with detailed case studies coming from as far afield as Hong Kong and Canada. In the context of the ever-increasing burden of responsibility placed on education management to safeguard and enhance the quality of education they provide, school leadership is now a core concern of policy makers. In addition, most countries are undertaking fundamental education reforms that will have a major influence on the nature of school leadership. Offering the most up-to-date research on this central issue, this book will both inform and shape the debate.

**Urban Air Pollution in Asian Cities** Dieter Schwela, Gary Haq, Cornie Huizenga, Wha-Jin Han, Herbert Fabian, May Ajero., 2012-05-16 Air pollution has become part of the daily existence of many people who work, live and use the streets in Asian cities. Each day millions of city dwellers breathe air polluted with concentrations of chemicals, smoke and particles that dramatically exceed World Health Organization guideline values. Deteriorating air quality has resulted in significant impacts on human health and environment in Asia. This book provides a comprehensive and comparative assessment of the current status and challenges in urban air pollution management in 20 cities in the Asian region. It examines the effects on human health and the environment and future implications for planning, transport and energy sectors. National and local governments have begun to develop air quality management strategies to address the deterioration in urban air quality; however, the scope and effectiveness of such strategies vary widely. This book benchmarks these air quality management strategies, examines successes and failures in these cities and presents strategies for improving air quality management in cities across Asia and the rest of our rapidly urbanizing world. Information on air quality in Asia is clearly presented with easy-to-read city profiles, tables and graphs. This is an essential resource for all those concerned with urban air quality management, not just in Asia but in cities across our rapidly urbanizing world. Cities covered Bangkok, Beijing, Busan, Colombo, Dhaka, Hanoi, Ho Chi Minh City, Hong Kong, Jakarta, Kathmandu, Kolkata, Metro Manila, Mumbai, New Delhi, Seoul, Shanghai, Singapore, Surabaya, Taipei and Tokyo

**Modelling and Analysis of Sustainability Related Issues in New Era** Wen-Hsien Tsai, 2019-06-24 The purpose of this Special Issue is to investigate topics related to sustainability issues in the new era, especially in Industry 4.0 or other new manufacturing environments. Under Industry 4.0, there have been great changes with respect to production processes, production planning and control, quality assurance, internal control, cost determination, and other management issues. Moreover, it is expected that Industry 4.0 can create positive sustainability impacts along the whole value chain. There are three pillars of sustainability, including environmental sustainability, economic sustainability, and social sustainability. This Special Issue collects 15 sustainability-related papers from various industries that use various methods or models, such as mathematical programming, activity-based costing (ABC), material flow cost accounting, fuel consumption model, artificial intelligence (AI)-based fusion model, multi-attribute decision model (MADM), and so on. These papers are related to carbon emissions, carbon tax, Industry 4.0, economic sustainability, corporate social responsibility (CSR), etc. The research objects come from China, Taiwan, Thailand, Oman, Cyprus, Germany, Austria, and Portugal. Although the research presented in this Special Issue is not exhaustive, this Special Issue provides abundant, significant research related to environmental, economic, and social sustainability. Nevertheless, there still are many research topics that require our attention to solve problems of sustainability.

**The Long Discourses of the Buddha** ,2005-06-10 This book offers a complete translation of the Digha Nikaya, the long discourses of the Buddha, one of the major collections of texts in the Pali Canon, the authorized scriptures of Theravada Buddhism. This collection--among the oldest records of the historical Buddha's original teachings, given in India two and a half thousand years ago--consists of thirty-four longer-length suttas, or discourses, distinguished as such from the middle-length and shorter suttas of the other collections. These suttas reveal the gentleness, compassion, power, and penetrating wisdom of the Buddha. Included are teachings on mindfulness (Mahasatipatthana Sutta); on morality, concentration, and wisdom (Subha Sutta); on dependent origination (Mahanidrana Sutta); on the roots and causes of wrong views (Brahmajala Sutta); and a long description of the Buddha's last days and passing away (Mahaparinibbana Sutta); along with a wealth of practical advice and insight for all those travelling along the spiritual path. Venerable Sumedho Thera writes in his foreword: [These suttas] are not meant to be 'sacred scriptures' that tell us what to believe. One should read them, listen to them, think about them, contemplate them, and investigate the present reality, the present experience, with them. Then, and only then, can one insightfully know the truth beyond words. Introduced with a vivid account of the Buddha's life and times and a short survey of his teachings, The Long Discourses of the Buddha brings us closer in every way to the wise and compassionate presence of Gotama Buddha and his path of truth.

**Climate Change and Air Pollution** Rais Akhtar, Cosimo Palagiano, 2017-10-05 This book discusses regional and international climate-change, air-pollution and human-health scenarios. The research, from both industrialized and developing countries, focuses on region-specific perspectives of climate change impacts on air pollution. After analyzing the variations of climate data over

recent decades, the authors consider the different effects of climate change on air pollution and health. As stressed by the IPCC, “pollen, smoke and ozone levels are likely to increase in a warming world, affecting the health of residents of major cities. Rising temperatures will worsen air quality through a combination of more ozone in cities, bigger wild fires and worse pollen outbreaks,” according to a major UN climate report. The report follows the World Health Organization in finding that air pollution is the world’s greatest environmental health risk, killing 7 million people in 2014 (compared to 0.4 million deaths due to malaria). Deteriorating air quality will most affect the elderly, children, people with chronic ill-health and expectant mothers. Another report suggests that more than 5.5 million people die prematurely each year due to air pollution with over half of those deaths occurring in China and India. A study on the air pollution in the USA, suggests that more than half of US population lives in areas with potentially dangerous air pollution, and about six out of 10 of the top cities for air pollution in the USA are located in the state of California. In the face of future climate change, scientists have urged stronger emission controls to avoid worsening air pollution and the associated exacerbation of health problems, especially in more populated regions of the world. It is hoped that the implementation of the Paris Climate Agreement will help minimize air pollution. Additionally the authors consider the various measures that different countries and groups of countries, like the European Union, have adopted to mitigate the problems arising from climate change and to safeguard the health of population. The book examines the increasing incidence of diseases largely caused by climate change. The countries/regions covered in this study include the USA, Northern Europe (U.K.), Southern Europe (Italy), Canada, Australia, East Asia, Russia, Hong Kong, Taiwan, Thailand, Malaysia, Indonesia, India, South Africa, Mexico, Brazil, Caribbean countries, and Argentina.

**Revitalizing Endangered Languages** Justyna Olko, Julia Sallabank, 2021-01-31 Of the approximately 7,000 languages in the world, at least half may no longer be spoken by the end of the twenty-first century. This guidebook provides ideas and strategies, as well as some background, to help with the effective revitalization of endangered languages. It covers a broad scope of themes including effective planning, benefits, wellbeing, economic aspects, attitudes and ideologies. The chapter authors have hands-on experience of language revitalization in many countries around the world, and each chapter includes a wealth of examples, such as case studies from specific languages and language areas. Clearly and accessibly written, it is suitable for non-specialists as well as academic researchers and students interested in language revitalization. **Reconfiguring the Silk Road** Victor H. Mair, Jane Hickman, 2014-09-08 From the Bronze Age through the Middle Ages, a network of trade and migration routes brought people from across Eurasia into contact. Other chapters include an analysis of the dispersal of languages across the Eurasian Steppe and a detailed examination of the domestication of the horse in the region. Contextualized with a foreword by Colin Renfrew and introduction by Victor Mair, Reconfiguring the Silk Road provides a new assessment of the intercultural evolution along the steppes and beyond. **Social Transformations in India, Myanmar, and Thailand: Volume I** Chosein Yamahata, Donald M. Seekins, Makiko Takeda, 2021-01-02 “This book focuses on the different challenges and opportunities for social transformation in India, Myanmar and Thailand, by centering communities and individuals as the main drivers of change. In doing so, it includes discussions on a wide array of issues including women’s empowerment and political participation, ethno-religious tensions, plurilingualism, education reform, community-based healthcare, climate change, disaster management, ecological systems, and vulnerability reduction. Two core foundations are introduced for ensuring broader transformations. The first is the academic diplomacy project – a framework for an engaged academic enquiry focusing on causative, curative, transformative, and promotive factors. The second is a community driven collective struggle that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the resident population. As a whole, the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders, where the process of social transformation makes communities more interconnected, interdependent, multicultural and vital in building an inclusive society.”

**Teachers as Course Developers** Maria del Carmen Blyth, 1996-02-23 Teachers as Course Developers is a book about how language teachers themselves rather than curriculum specialists develop and implement their own courses. The book provides a framework for the processes of course development which any teacher can use in developing his or her own courses. Each chapter highlights a different aspect of the framework based on the particular teacher’s approach and examines how the teacher has utilized or departed from the framework in meeting the challenges of a particular situation. Each narrative is followed by a set of tasks and discussion questions. An annotated bibliography is also included.
