Ben & Jerry's Homemade Ice Cream & Dessert Book Ben Cohen, Jerry Greenfield, Nancy Stevens, 2012-02-01 With little skill, surprisingly few ingredients, and even the most unsophisticated of ice-cream makers, you can make the scrumptious ice creams that have made Ben & Jerry's an American legend. Ben & Jerry's Homemade Ice Cream & Dessert Book tells fans the story behind the company and the two men who built it—from their first meeting in 7th-grade gym class (they were already the two wisest kids on the field) to their graduation from a \$5.00 ice-cream-making correspondence course to their first ice-cream shop in a renovated gas station. But the best part comes next. Dastardly Mash, featuring nuts, raisins, and hunks of chocolate. The celebrated Heath Bar Crunch. New York Super Fudge Chunk. Oreo Mint. In addition to Ben & Jerry's 11 greatest hits, here are recipes for ice creams made with fresh fruit, with chocolate, with candies and cookies, and recipes for sorbets, sundaes, and baked goods.

Citizen 13660, 1983 Mine Okubo was one of 110,000 people of Japanese descent--nearly two-thirds of them American citizens -- who were rounded up into protective custody shortly after Pearl Harbor. *Citizen 13660*, her memoir of life in relocation centers in California and Utah, was first published in 1946, then reissued by University of Washington Press in 1983 with a new Preface by the author. With 197 pen-and-ink illustrations, and poignantly written text, the book has been a perennial bestseller, and is used in college and university courses across the country. [Mine Okubo] took her months of life in the concentration camp and made it the material for this amusing, heart-breaking book. . . . The moral is never expressed, but the wry pictures and the scanty words make the reader laugh -- and if he is an American too -- blush. -- Pearl Buck Read more about Mine Okubo in the 2008 UW Press book, *Mine Okubo: Following Her Own Road*, edited by Greg Robinson and Elena Tajima Creef. <http://www.washington.edu/uwpress/search/books/ROBMIN.html>

Profiles in Operations Research Arjang A. Assad,Saul I. Gass,2011-06-28 Profiles in Operations Research: Pioneers and Innovators recounts the development of the field of Operations Research (OR), the science of decision making. The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations. Over the past six decades, OR analyses have impacted our daily lives: when making an airline or hotel reservation, waiting in line at a bank, getting the correctly blended fuel at the gas station, and ensuring that the book you are holding arrived at its destination on time. OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft. During World War II, similar applied research groups were formed to study, test, and evaluate military operations on both sides of the Atlantic. Their work resulted in great improvements—OR helped the Allies win the war. The scientific field that emerged from these studies was called operational research in the U.K. and operations research in the U.S. Today, OR provides a broad and powerful science to aid decision making. Profiles describes the lives and contributions of 43 OR pioneers and innovators and relates how these individuals, with varying backgrounds and diverse interests, were drawn to the nascent field of OR. The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry. In addition to their scientific contributions, these profiles capture the life stories of the individuals—interwoven with personal tales, vivid vignettes, family backgrounds, and views of the mission and future of OR. Collectively, the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines. The Editors: Arjang A. Assad is Dean of the School of Management, University at Buffalo, State University of New York. Saul I. Gass is Professor Emeritus, Department of Decision, Operations & Information Technologies, Smith School of Business, University of Maryland, College Park. From the Reviews Profiles In Operations Research: Pioneers and Innovators. Book Review by Nigel Cummings: U.K. OR Society's e-journal, Inside OR., Sept 2011. I can thoroughly recommend this book. I found it both enlightening and undeniably gripping, so much so in fact, you may find it difficult to put it down once you have commenced reading it. Arjang A. Assad and Saul I. Gass have created a masterwork which will serve to immortalise [stet] the pioneers of O.R. for many years to come. *For a list of all known typos, plus further discussion on the book, please visit <http://profilesinoperationsresearch.com>.
