Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Creating Realistic Landscapes for Model Railways Tony Hill, 2014-06-30 The landscape through which railways run is often the inspiration and reason why people choose to model a particular line. Therefore creating a realistic setting in which to operate your railway is an essential aspect of modelling, yet it is often overlooked or left until the last moment. Creating authentic and believable scenery without spending a fortune or buying it 'ready made' is a skill that, with patience and understanding, can be achieved by anyone. In *Creating Realistic Landscapes for Model Railways*, highly skilled landscape modeller Tony Hill shows you, through step-by-step photo sequences and clear instructions, how you too can re-create a realistic landscape for your model railway. With chapters on modelling trees, grass, water, fences, rock, walls and hedges, this book will tell you everything you need to know to design and create a unique and special setting in which to operate your model railway. Superbly illustrated with 395 colour photographs.

Romanesque Renaissance Konrad Adriaan Ottenheym, 2021-01-11 In the renaissance also architecture from c. 800-1200 was regarded as a useful source of inspiration for contemporary building, sometimes by misinterpreting these medieval architecture as roman structures, sometimes because that era was also regarded as a glorious 'ancient' past.

The Importance of Demographic and Geographical Factors on the Incidence and Outcome of Systemic Small Vessel Vasculitis Associated with Anti-Neutrophil Cytoplasmic Antibodies Maria Weiner, 2019-11-04 The anti-neutrophil cytoplasmic antibody (ANCA)-associated vasculitides (AAV) comprise microscopic polyangiitis (MPA), granulomatosis with polyangiitis (GPA) and eosinophilic granulomatosis with polyangiitis (EGPA). Two serotypes are recognized: myeloperoxidase (MPO)-ANCA and proteinase 3 (PR3)-ANCA. Renal involvement is a common and severe manifestation associated with increased mortality. The incidence varies geographically, but studies are difficult to compare due to heterogeneous methodology and inclusion criteria. AAV is commonly found in the elderly, but there are little data on outcome and optimal treatment in the highest age groups. This thesis focuses on the epidemiology of AAV: incidence, geographical distribution, and outcome. In Paper I annual incidence rates and outcome were compared between nephritis in AAV and nephritis in systemic lupus erythematosus (SLE) in two geographically defined populations in Sweden. Even though SLE is twice as common as AAV, ANCA-associated nephritis outnumbered lupus nephritis by three to one, and was significantly more severe in terms of mortality and development of end stage renal disease. In Paper II associations between ANCA serotype and geographical and demographic factors were investigated in a large multi-centre study of 1408 patients with renal biopsy-proven AAV. PR3-ANCA was associated with male gender, younger age and higher glomerular filtration rate. PR3-ANCA was also associated with higher latitude and lower ultraviolet radiation levels, but analyses of subgroups suggested that genetic rather than environmental explanations might be more important for this geographical gradient. In Paper III a consecutive cohort of 151 elderly patients with MPA and GPA was studied with a focus on treatment, mortality and renal survival. Patients who had received immunosuppressive treatment with cyclophosphamide or rituximab had better survival rates compared to less intensively treated or untreated patients. Severely impaired renal function at diagnosis was associated with worse outcome in terms of both patient and renal survival. In Paper IV the elderly cohort was extended to 202 patients. In this study we found that treatment with cyclophosphamide or rituximab was associated with the development of less permanent organ damage, and not with higher utilization of in-hospital care. However, high doses of glucocorticoids were associated with fatal infections and treatment-related damage.

The Brazil Reader James N. Green, Victoria Langland, Lilia Moritz Schwarcz, 2018-12-07 From the first encounters between the Portuguese and indigenous peoples in 1500 to the current political turmoil, the history of Brazil is much more complex and dynamic than the usual representations of it as the home of Carnival, soccer, the Amazon, and samba would suggest. This extensively revised and expanded second edition of the best-selling Brazil Reader dives deep into the past and present of a country marked by its geographical vastness and cultural, ethnic, and environmental diversity. Containing over one hundred selections—many of which appear in English for the first time and which range from sermons by Jesuit missionaries and poetry to political speeches and biographical portraits of famous public figures, intellectuals, and artists—this collection presents the lived experience of Brazilians from all social and economic classes, racial backgrounds, genders, and political perspectives over the past half millennium. Whether outlining the legacy of slavery, the roles of women in Brazilian public life, or the importance of political and social movements, The Brazil Reader provides an unparalleled look at Brazil's history, culture, and politics.

Gods, Guardians, and Lovers Vishakha N. Desai, Darielle Mason, 1993 Celestial lovers, guardian deities, gods, goddesses, semidivine and human forms bedeck the magnificent, elaborately sculpted medieval temples of northern India. This handsome catalog of an exhibition at the Asia Society in New York City explains that each temple, rich in symbolism and sacred geometry, was viewed as a microcosmic model of cosmic creation and order. Led by Desai, director of the Asia Society Galleries, and Mason of Boston's Museum of Fine Arts, six scholars discuss the historical background, patterns of royal patronage, architectural placement of images and Hindu stories and hymns as keys to the cult of temple images and to the medieval worship service, an elaborate multisensory experience. Nearly 200 color and black-and-white plates document a major architectural and sculptural legacy.
