Holographic Materials and Optical Systems Izabela Naydenova,Tsvetanka Babeva,Dimana Nazarova,2017-03-22 Holographic Materials and Optical Systems covers recent research achievements in the areas of volume holographic optical elements and systems, development of functionalized holographic recording materials, and applications in holographic imaging and metrology. Designs of single and multiplexed volume holographic optical elements for laser beam shaping, combining, and redirection are covered, and their properties are studied theoretically and experimentally. The high impact of holography in imaging and metrology is demonstrated by applications spreading from thickness and surface measurements, through antenna metrology and analyzing high-density gradients in fluid mechanics to characterization of live objects in clinical diagnostics. Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

How to Talk Well James F. Bender,2013-04-16 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Life After Darkness Michelle Knight,2018-05-01 From Michelle Knight-Cleveland kidnapping survivor and #1 New York Times bestselling author of Finding Me comes an inspirational book about healing and resilience, on the five-year anniversary of her escape. Michelle Knight -- now known as Lily Rose Lee -- captured the world's attention in May 2013, when she and two fellow kidnapping victims were found and freed after being held for more than a decade by notorious Cleveland kidnapper Ariel Castro. But many people are still asking: What happened after her escape? How do you re-enter society after years of abuse and isolation? How do you get past the trauma and live a happy and joy filled life? How do you learn to trust again? In Life After Darkness, published on the fifth anniversary of her liberation, Lily describes how she managed to heal the wounds to her body, mind,

and soul-wounds, she reveals, that were first inflicted even before her kidnapping. With the help of good friends and anchored by her own inner strength, she takes us with her step by step on her journey out of darkness into the light. An inspiring story -- and for anyone who has dared to hope after suffering, a guidebook to finding new purpose for a meaningful life.

Simple Times Amy Sedaris, 2014-03-04 The New York Times bestselling craft guide that inspired the hit new TV show, *At Home With Amy Sedaris* It's often been said that ugly people craft and attractive people have sex. In *Simple Times*, Amy Sedaris sets the record straight and delivers a book that will forever change the world of crafting. Demonstrating that crafting is one of life's more pleasurable and constructive leisure activities, Sedaris shows that anyone with a couple of hours to kill and access to pipe cleaners can join the elite society of crafters. You will discover how to make popular crafts such as Pompom Ringworms and Seashell Toilet Seat Covers, all while avoiding the most common crafting accidents (sawdust fires, feather asphyxia, pine cone lodged in throat). You will cook your own edible crafts, from a Crafty Candle Salad to Sugar Skulls, with many more recipes and craft ideas that will inspire you to create your very own hastily constructed obscure d'arts. Praise for *Simple Times* Amy Sedaris is a kookier, kitschier version of Martha Stewart...*Simple Times* is an ideal gift for the crafter who has crafted everything. - Associated Press A wildly cheeky guide. -- *InStyle* For anyone who's ever collected hats crocheted together...or simply for fans of Amy Sedaris and her idiosyncratic sense of humor. -- New York Times Book Review

Tortured Cardboard Philip E. Orbanes, 2019-07-23 The term "tortured cardboard" sums up what happens to cardboard when making a board game (bound, cut, folded, punched). And, as you'll learn, great board games often reflect whatever "tortures" culture. Each gained immortality after a chaotic beginning and a chance survival. Why? Because—be it chess, backgammon, Clue®, Monopoly®, Scrabble®, Settlers of Catan®, or one of ten others featured in this book—each is replete with "lessons" applicable to achievement in your life. As the twenty-first century gathers momentum, our love affair with board games continues to strengthen. They involve us, they refine social skills, and they teach great lessons applicable in real life. "Tortuous" is the journey of every great board game, from birth in chaotic times, through survival by mere chance, to raging popularity and eventual immortality. *Tortured Cardboard* reveals how the great ones came to endure and—all fun aside—how each teaches us something about our own behavior while providing "rules" that can work in your life.

The Greater Journey David McCullough, 2011-05-24 The #1 bestseller that tells the remarkable story of the generations of American artists, writers, and doctors who traveled to Paris, fell in love with the city and its people, and changed America through what they learned, told by America's master historian, David McCullough. Not all pioneers went west. In *The Greater Journey*, David McCullough tells the enthralling, inspiring—and until now, untold—story of the adventurous American artists, writers, doctors, politicians, and others who set off for Paris in the years between 1830 and 1900, hungry to learn and to excel in their work. What they achieved would profoundly alter American history. Elizabeth Blackwell, the first female doctor in America, was one of this intrepid band. Another was Charles Sumner, whose encounters with black students at the Sorbonne inspired him to become the most powerful voice for abolition in the US Senate. Friends James Fenimore Cooper and Samuel F. B. Morse worked unrelentingly every day in Paris, Morse not only painting what would be his masterpiece, but also bringing home his momentous idea for the telegraph. Harriet Beecher Stowe traveled to Paris to escape the controversy generated by her book, *Uncle Tom's Cabin*. Three of the

greatest American artists ever—sculptor Augustus Saint-Gaudens, painters Mary Cassatt and John Singer Sargent—flourished in Paris, inspired by French masters. Almost forgotten today, the heroic American ambassador Elihu Washburne bravely remained at his post through the Franco-Prussian War, the long Siege of Paris, and the nightmare of the Commune. His vivid diary account of the starvation and suffering endured by the people of Paris is published here for the first time. Telling their stories with power and intimacy, McCullough brings us into the lives of remarkable men and women who, in Saint-Gaudens' phrase, longed "to soar into the blue."
