Robotization of Work? Barbara Czarniawska, Bernward Joerges, 2020-04-24 In this timely book, Barbara Czarniawska and Bernward Joerges examine the hopes and fears around work and job security inspired by automation, from the original coining of the term 'robot' to the present day media fascination. Have these hopes and fears changed or do they remain the same? This discerning book investigates whether these changes in perception correlate to actual changes taking place in the field of robotics.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Al Wasl Plaza Adrian Smith + Gordon Gill Architecture Adrian Smith + Gordon Gill Architecture, 2022-04-12 In the book Al Wasl Plaza: Dubai Expo the architects, Adrian Smith + Gordon Gill Architecture highlight the inspiration and innovation of the design of Al Wasl Plaza. The book explores each aspect of the project including the garden, the trellis, three office buildings, and two hotel buildings, all of which serve to define the center of Expo 2020. The book is essentially divided into three phases of design. The first phase focuses on the inspiration and conception of the project. Architectural studies, sketches, and models show the process that led to the final iconic form. The second phase introduces each of the parcels including the garden, trellis, offices, hotels, the Leadership Pavilion, and the Arrivals Plaza. Each chapter illustrates the design process, architectural details, and the development of the technical systems. The third and final phase summarizes the construction process, sustainability achievements, and looks to the future to reveal the District 2020 legacy master plan concept by AS+GG.

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, The Return of the Mother is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. The Return of the Mother offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

My Darkest Years James Bachner, 2010-06-25 Born in Berlin in 1922, James Bachner was a German Jew during the darkest days of the Third Reich. Once a happy child in a well-to-do German family, as the years passed Bachner faced first ridicule and persecution, then imprisonment and deprivation. Attributing his survival to a combination of strength and being in the right place at the right time, Bachner's memoir is a poignant and often horrific account of Jewish struggles during the days of World War II. Beginning with his idyllic childhood, Bachner expresses the range of emotions he experienced as the Nazis transformed his homeland into a nation where he and his fellow Jews were no longer welcome. He describes the volatile political atmosphere and the fears inspired in all Germans by tales of the concentration camps. In addition, he tells of the belief many Jews held that the West would step in and put an end to Hitler's reign. The work then details the realities of life in a concentration camp. The end of the war, Bachner's reunion with his remaining family members and his eventual relocation to America are also discussed.

Girl Waits With Gun Amy Stewart, 2015-09-01 NATIONAL BESTSELLER. The first in the Kopps Sisters Novel Series, *Girl Waits with Gun* is an enthralling novel based on the forgotten true story of one of the nation's first female deputy sheriffs. Constance Kopp doesn't quite fit the mold. She towers over most men, has no interest in marriage or domestic affairs, and has been isolated from the world since a family secret sent her and her

sisters into hiding fifteen years ago. One day a belligerent and powerful silk factory owner runs down their buggy, and a dispute over damages turns into a war of bricks, bullets, and threats as he unleashes his gang on their family farm. When the sheriff enlists her help in convicting the men, Constance is forced to confront her past and defend her family — and she does it in a way that few women of 1914 would have dared. A New York Times Editors' Choice “A smart, romping adventure, featuring some of the most memorable and powerful female characters I've seen in print for a long time. I loved every page as I followed the Kopp sisters through a too-good-to-be-true (but mostly true!) tale of violence, courage, stubbornness, and resourcefulness.”—Elizabeth Gilbert

Talk to Me Paola Antonelli, 2011 Published in conjunction with an exhibition at The Museum of Modern Art, *Talk to Me* thrives on an important late 20th-century cultural development in design: a shift from the centrality of function to that of meaning. From this new perspective, objects contain information that goes well beyond their immediate use or appearance, providing access to complex systems and networks and acting as gateways and interpreters. Whether openly and actively, or in subtle, subliminal ways, things talk to us, and designers write the initial script that lets us develop and improvise the dialogue. *Talk to Me* focuses on objects that involve direct interaction, such as interfaces, information systems, communication devices, and projects that establish a practical, emotional or even sensual connection between their users and entities such as cities, companies, governmental institutions, as well as other people. The featured objects range in date from the early 1980s - beginning with the first Graphic User Interface, developed by Xerox Parc in 1981 - with particular attention given to projects from the last five years and to several ones currently in development. Included are a diverse array of examples, from computer and machine interfaces to websites, video games, devices and tools, and installations. Organized thematically, *Talk to Me* features essays by Paola Antonelli, Jamer Hunt, Alexandra Midel, Kevin Slavin, and Koi Vinh. By introducing design practices that are becoming increasingly crucial to our world, the book presents a highly distilled sample of today's best design production that uses technology in creative and unexpected ways, showing how rich and deep design's influence will be on our future.
