**Mark Felt** Mark Felt,John O'Connor,2017-09-26 NOW A MAJOR MOTION PICTURE starring Liam Neeson. The covert Watergate whistleblower tells the story of the dramatic showdown between the FBI and the Nixon White House In the 1970s, Mark Felt was given the code name Deep Throat and shared intelligence on the Watergate break-in with a young reporter from the Washington Post named Bob Woodward. Thus began the greatest political scandal in the twentieth century, which would besmirch an entire administration and bring down a presidency. A patriotic man, Felt only revealed his role in our national history as he neared the end of his life. Based on his personal recollections, Mark Felt chronicles his FBI career, from the end of the great American crime wave and World War II to the culture wars of the 1960s and his penetration of the Weather Underground; provides rich historical and personal context for his role in the Watergate scandal; and depicts how he came to feel that the FBI needed a Lone Ranger to protect it from White House corruption.

**The Global Contemporary and the Rise of New Art Worlds** Hans Belting, Andrea Buddensieg, Peter Weibel, 2013-03-08 Mapping the new geography of the visual arts, from the explosion of biennials to the emerging art markets in Asia and the Middle East. The geography of the visual arts changed with the end of the Cold War. Contemporary art was no longer defined, exhibited, interpreted, and acquired according to a blueprint drawn up in New York, London, Paris, or Berlin. The art world distributed itself into art worlds. With the emergence of new art scenes in Asia and the Middle East and the explosion of biennials, the visual arts have become globalized as surely as the world economy has. This book offers a new map of contemporary art's new worlds. The Global Contemporary and the Rise of New Art Worlds documents the globalization of the visual arts and the rise of the contemporary over the last twenty years. Lavishly illustrated, with color throughout, it tracks developments ranging from exhibition histories and the rise of new art spaces to art's branding in such emerging markets as Hong Kong and the Gulf States. Essays treat such subjects as curating after the global turn; art and the migration of pictures; the end of the canon; and new strategies of representation.

*World Art Studies* Kitty Zijlmans, Wilfried Van Damme, 2008 This timely volume challenges the narrow Western-centrism of most art historical models. Archeologists have found that, for tens of thousands of years, all human cultures have shared a desire for visual representation or expression. Yet the study of art history has traditionally focused on Western artworks of the past few centuries. World Art Studies examines the phenomenon of art through a broader cultural, global, and temporal perspective, bringing together a uniquely exhaustive range of perspectives on art and borrowing approaches from the study of neuroscience, evolutionary biology, anthropology and geography as models - alongside more conventional art historical perspectives. In musicology or linguistics, using such diverse viewpoints for reflection and research is considered part of the normal process. In that spirit, this volume goes beyond abstract models, using case studies to demonstrate and examine specific methods of investigation.--BOOK JACKET.
